Introduction

We, the Canadian Securities Administrators (**CSA**), are implementing amendments to:

- National Instrument 41-101 *General Prospectus Requirements* (**NI 41-101**);
- National Instrument 44-101 *Short Form Prospectus Distributions* (**NI 44-101**);
- National Instrument 44-102 *Shelf Distributions* (**NI 44-102**);
- National Instrument 81-101 *Mutual Fund Prospectus Disclosure* (**NI 81-101**).

The references above to a national instrument include its form(s).

We are also implementing changes to:

- Companion Policy 41-101CP to *National Instrument 41-101 General Prospectus Requirements* (**41-101CP**);
- Companion Policy 44-101CP to *National Instrument 44-101 Short Form Prospectus Distributions* (**44-101CP**);
- Companion Policy 44-102CP to *National Instrument 44-102 Shelf Distributions* (**44-102CP**);
- Companion Policy 81-101CP to *National Instrument 81-101 Mutual Fund Prospectus Disclosure* (**81-101CP**).

The amendments to NI 41-101, NI 44-101, NI 44-102 and NI 81-101 and related changes to 41-101CP, 44-101CP, 44-102CP and 81-101CP are collectively referred to in this Notice as the “**Amendments and Related Changes**”.

NI 41-101 provides a comprehensive set of prospectus requirements for issuers. NI 44-101 sets out requirements for an issuer intending to file a prospectus in the form of a short form prospectus. NI 44-102 sets out requirements for a distribution under a short form prospectus using shelf procedures. NI 81-101 sets out requirements for an issuer that is a mutual fund to file a simplified prospectus, annual information form and fund facts document. NI 41-101, NI 44-101, NI 44-102 and NI 81-101 are collectively referred to in this Notice as the “**Prospectus Rules**”.

The Amendments and Related Changes are expected to be adopted by each member of the CSA, and provided that all necessary ministerial approvals are obtained, will be effective May 14, 2013.

Substance and Purpose

The primary purpose of the Amendments and Related Changes is to address user experience and the CSA's experience with the Prospectus Rules since the implementation of the general prospectus rule, NI 41-101, on March 17, 2008.

The Amendments and Related Changes are intended to:

- clarify certain provisions of the Prospectus Rules;
- address gaps in the Prospectus Rules;
- modify certain requirements in the Prospectus Rules to enhance their effectiveness;
- remove or streamline certain requirements in the Prospectus Rules that are burdensome for issuers and of limited utility for securityholders; and
- codify prospectus relief that has been granted in the past.

Background

As part of a post-adoption process following implementation of NI 41-101 on March 17, 2008, the CSA tracked issues that arose in connection with NI 41-101 and other Prospectus Rules, and developed amendments and related changes to address those issues where warranted. These amendments and related changes were published for comment on July 15, 2011 (the **July 2011 Materials**). Please refer to the July 2011 Materials for further background.

Summary of Written Comments Received by the CSA

During the comment period, we received submissions from 28 commenters. We have considered the comments received and thank all the commenters for their input. The names of commenters are contained in Appendix A of this Notice and a summary of their comments, together with our responses, are contained in Appendix B of this Notice.

We note that the majority of the comment letters received related to our proposal in the July 2011 Materials to make experts subject to the requirement to submit to jurisdiction and appoint an agent. As described in Appendix B to this Notice, we have decided not to proceed with this proposal.

Summary of Changes to the July 2011 Materials

We have made certain changes to the July 2011 Materials in response to the comments we received and related analysis.

The July 2011 Materials proposed that, going-forward, an issuer would not be required to deliver a personal information form (**PIF**) for an individual if the issuer or another issuer had previously delivered a PIF for that individual, provided certain conditions were satisfied. One requirement we proposed was that the issuer deliver a certificate listing each individual for whom a PIF had previously been delivered and the details of the related prospectus filing, and which provided the issuer's certification that each such individual had confirmed that specified information in the

previously delivered PIF remained correct. This certificate was set out in proposed Appendix A, Schedule 4 of NI 41-101 (**Schedule 4**).

We have eliminated Schedule 4 because it may place an unnecessary burden on issuers. Instead, we have added guidance in 41-101CP and 44-101CP reminding issuers that, when relying on a previously delivered PIF, the issuer should obtain appropriate confirmations from the individual that the specified information in the previously filed PIF is still correct. In lieu of Schedule 4, we have also substituted a more narrow condition that, where an issuer is relying on the previous delivery of a PIF by another issuer, the issuer must deliver that PIF or provide alternative information. We have added guidance to 41-101CP and 44-101CP that explains the alternative information we would normally consider sufficient.

In an effort to clarify the PIF filing requirements, we have also revised the drafting of the applicable provisions in subsections 9.1(2) and (3) of NI 41-101 (and equivalent provisions of NI 44-101) and have prepared new definitions for “personal information form”, “TSX/TSXV personal information form” and “predecessor personal information form”.

Also, in response to comments received in connection with the new principal distributor certificate requirement for investment funds in NI 41-101 and the amendments to the principal distributor certificate required by NI 81-101, we have changed the principal distributor certificates so that a principal distributor will be required to provide a certificate to the best of its knowledge, information and belief.

The rest of the changes to the July 2011 Materials are conforming changes or are minor in nature.

As none of the above-mentioned changes are material, we are not republishing the Amendments and Related Changes for comment.

Consequential Amendments

We are also publishing consequential amendments to:

- National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* (**NI 52-107**);
- National Instrument 51-102 *Continuous Disclosure Obligations* (**NI 51-102**);
- National Instrument 13-101 *System for Electronic Document Analysis and Retrieval* (**NI 13-101**).

Other Changes

We are also making changes to Companion Policy 52-107CP to *National Instrument 52-107 Acceptable Accounting Principles and Auditing Standards* (**52-107 CP**).

Guide to this Notice

We have not published blacklines showing the changes we made to the July 2011 Materials. Instead, those changes have been described above under “Summary of Changes to the July 2011 Materials”.

In this Notice, we are publishing final amendments and changes (i.e. the July 2011 Materials, as modified in response to the comments we received). Where we have chosen to publish blacklines, the blacklines show the final amendments and changes compared to the versions now in effect.

Please refer to the List of Appendices at the end of the main body of this Notice for further detail.

Local Notices

Certain jurisdictions will publish other information required by local securities legislation in Appendix N to this Notice.

Summary of Comments and CSA Responses

<i>No.</i>	<i>Subject (references are to current or proposed sections, items and paragraphs)</i>	<i>Summarized Comment</i>	<i>CSA Response</i>
National Instrument 41-101 General Prospectus Requirements (NI 41-101)			
1.	Subsection 2.3(1)- time to file final prospectus- 180 days to file final prospectus may still be insufficient for cross border offerings	1 commenter expressed that it is generally in agreement with the existing 90 day period and proposed new 180 day total period of time permitted to file a final prospectus. The commenter noted that the current 90 day period can sometimes be too short in the context of cross-border public offerings and that issuers may continue to require exemptive relief from filing the final prospectus within the prescribed timeframes.	We acknowledge the comment, and will consider relief applications on a case-by-case basis.
2.	Subsection 5.10.1(1)- certificate of principal distributor- principal distributor should not be held to the same standard	1 commenter expressed that a principal distributor of an investment fund should not be held to the same standard as the investment fund and the manager of the investment fund when certifying disclosure pursuant to Form 41-101F2 <i>Information Required in an Investment Fund Prospectus</i> (Form 41-101F2).	After reviewing the comment received in connection with the principal distributor certificate requirement, we have decided to revise the certificate language so that the principal distributor will certify to the best of its knowledge, information and belief.
3.	Paragraph 9.1(2)(a)- personal information forms- clarification needed	1 commenter requested clarification regarding the exemption requirements relating to the filing of a personal information form and references the definition of “personal information form”. In reference to the	We acknowledge the comment. We have made certain changes to what we published for comment regarding previously filed personal information forms. These changes are described in

		definition of “personal information form”, the commenter indicates it is unclear as to whether a certificate and consent attached to a TSX/TSXV personal information form or the actual TSX/TSXV personal information form must have been executed in the prior three years in order to rely on the exemption in Subsection 9.1(2).	this Notice under the heading “Summary of Changes to the July 2011 Materials”. Included in these changes is that we have made it clear that in all cases it is the certificate and consent that must be executed within three years of the prospectus filing.
4.	Paragraph 9.1(2)(a)- personal information forms- three year currency too short and certificate of issuer for each prospectus filing is too onerous	1 commenter expressed that the three-year time period and the certificate requirement for issuers to confirm the accuracy of the responses to specified questions in a previously filed personal information form for each of its directors, executive officers and promoters for each prospectus filing is onerous – especially for issuers that file multiple prospectuses each year. The commenter believed that the three-year time period is too frequent and that the requirement to file a personal information form every five years would address the CSA’s concern without unnecessarily burdening the industry. The commenter also expressed that the certificate of issuer filed with each prospectus is too onerous, particularly given the current requirement to disclose legal proceedings, cease trade orders and bankruptcies etc. of directors and executive officers in a prospectus. The commenter expressed its concern that this may hinder the ability of an issuer to proceed with a transaction in a short timeframe, contrary to the	We acknowledge the comment. However, we believe that the three-year time period strikes the correct balance between the need for the consent to remain valid and a requirement to file in a frequency that is not overly burdensome to the individual. We acknowledge the comment, and as stated previously we have made certain changes to what we published for comment regarding previously filed personal information forms. Among those changes was the elimination of the form to which the commenter is referring (Proposed Appendix A Schedule 4 “Certificate”).

		principles of short-form prospectus offerings and is particularly problematic for issuers that file multiple prospectuses each year.	
Form 41-101F2 Information Required in an Investment Fund Prospectus			
5.	Item 3.3(1)(e) and Item 6.1(1)(b)- leverage disclosure for investment funds- enhanced disclosure requirement should not apply in all cases	1 commenter expressed that the enhanced disclosure requirements should not apply to preferred shares or securities of split corporations or trusts. The commenter indicated that split share offerings do not consider preferred shares to be leverage, in contrast, for example, to bank borrowings to which limitations are attached by a contract. Furthermore, from time to time, the actual amount of leverage can vary dramatically based on the value of the portfolio after issuance.	We acknowledge the comment, however, the issuance of preferred securities by a split share corporation can generate a significant amount of leverage for holders of capital securities. This leverage is a material feature of these funds and, as such, the potential for this leverage should be disclosed. Where the amount of leverage applicable to the capital securities of a split share corporation may vary from time to time, it would be necessary to disclose this fact in the prospectus and describe the significance of the leverage to holders of the capital securities.
6.	Item 39.4.1- certificate of the principal distributor- principal distributor should not be held to the same standard, and in addition qualifying language is needed	1 commenter expressed that the principal distributor of an investment fund should not be held to the same standard as the investment fund and the manager of the investment fund. The commenter expressed that the investment	See response to comment concerning proposed subsection 5.10.1(1) above.

		fund and the manager of the investment fund are involved in the creation of the investment fund and its ongoing operations and as such, are in a much better position to certify the disclosure. The commenter also expressed that the language included in the principal distributor certificate required by Form 41-101F2 should be qualified by the language “to the best of our knowledge, information and belief”. The commenter expressed that without such language, the principal distributor’s liability for disclosure may be impacted as the requirement to certify disclosure to the best of knowledge, information and belief is consistent with the due diligence defence which is available under securities legislation. The commenter further expressed that the same qualification should apply to the principal distributor certificate required by Form 81-101F2 <i>Contents of an Annual Information Form</i> (Form 81-101F2).	
National Instrument 44-101 Short Form Prospectus Distributions (NI 44-101)			
7.	Section 2.8- notice of intention exemption- notice of intention unnecessary overall	1 commenter expressed that while the proposed amendments to Section 2.8 relax the requirement to file a notice of intention, it does not see the benefit of requiring an issuer to file a notice of intention in any circumstance. Many issuers may not file a notice of intention upon becoming a reporting issuer because of the fact that once the notice of intention is filed, an issuer becomes subject to higher fees when	We acknowledge the comment. In some cases, we use the notice of intention and the associated 10 day waiting period to perform a review of the issuer’s continuous disclosure. Also, the notice of intention filing helps inform us and market participants as to which issuers are short form eligible.

		filing its continuous disclosure documents. In many instances, issuers have overlooked the requirement to file the notice of intention, only to discover it once a bought deal is imminent at which point, given the 10 day waiting period, the transaction is jeopardized absent exemptive relief. The commenter expressed that it is unclear as to what purpose the notice serves, or that, on balance, the benefits of the notice outweigh the disadvantages associated with the requirement, especially where there are clear objective criteria that must be satisfied for an issuer to file a short form prospectus.	
Form 81-101F2 Contents of Annual Information Form			
8.	Item 22 – principal distributor certificate for mutual funds- principal distributor should not be held to the same standard, and in addition qualifying language is needed	1 commenter expressed that the principal distributor of a mutual fund should not be held to the same standard as the mutual fund and the manager of the mutual fund. The commenter expressed that the mutual fund and the manager of the mutual fund are involved in the creation of the investment fund and its ongoing operations and as such, are in a much better position to certify the disclosure. The commenter also expressed that the language “to the best of our knowledge, information and belief” should not be removed from the principal distributor certificate required by Form 81-101F2. The commenter expressed that without such language, the principal distributor’s liability for disclosure may be impacted as the requirement to certify	After reviewing the comment received in connection with the principal distributor certificate requirement, we have decided to revise the certificate language so that the principal distributor will certify to the best of its knowledge, information and belief.

		disclosure to the best of knowledge, information and belief is consistent with the due diligence defence which is available under securities legislation. The commenter further expressed that the same qualification should apply to the principal distributor certificate required by Form 41-101F2.	
Submission to Jurisdiction and Appointment of Agent- extending requirement to all foreign resident directors- subparagraphs 9.2(a)(vii) of NI 41-101 and 4.2(a)(vi) of NI 44-101			
9.	Merit of extending non-issuer submission to jurisdiction and appointment of agent requirement to all foreign directors	1 commenter agreed with the rationale for the extension of the requirement to all foreign directors. 1 commenter expressed that this requirement may have unintended consequences, such as making foreign issuers reluctant to distribute securities in Canada, and dissuading foreign directors from acting on the boards of Canadian companies.	We acknowledge the comment. We currently require only foreign resident directors who sign the prospectus to execute the submission to jurisdiction and appointment of agent document. We extended the requirement to all foreign resident directors because we do not consider it appropriate to make a distinction between foreign directors who sign the prospectus and foreign directors who do not sign the prospectus.

However, we wish to respond to certain issues raised by commenters.

		• significant practical and financial burden on Qualified Persons (as same are defined in National Instrument 43-101 <i>Standards of Disclosure for Mineral Projects</i> (NI 43-101)) who are foreign • reduction of companies willing to list in Canada, and related loss by Canada of its position as a technical and financial leader in the mining industry • an impact on timeliness of capital raising by issuers because: (i) the issuer will not have control over experts (who would have in some cases provided services in the past) to compel them to complete the form in the context of an offering, and (ii) it may be logistically difficult for a foreign Qualified Person to comply in the time frame of an offering because they operate in foreign jurisdictions, often work in remote locations and different time zones and may have to seek their own legal advice. • reduction in the number of Qualified Persons willing to provide reports • higher costs to retain Qualified Persons • higher insurance costs for Qualified Persons • an increase in litigation against foreign Qualified Persons, due to a	Some commenters indicated that the proposal would increase or place new liability on experts. We want to emphasize that experts are already subject to statutory liability under securities legislation and the proposal would not have changed the extent to which an expert is liable. Also, we note that one commenter suggested that, in lieu of imposing the form filing requirement on foreign experts, the issuer could be required to include cautionary language in the prospectus about an investor's potential difficulty enforcing Canadian judgments abroad. Language to this effect is already prescribed under Item 1.12 of Form 41-101F1 <i>Information Required in a Prospectus</i> (Form 41-101F1) and Item 1.11 of Form 44-101F1 <i>Short Form Prospectus</i> (Form 44-101F1) in relation to foreign resident persons who are required to file a non-issuer's submission to jurisdiction and appointment of agent for service form. We have modified the Form 41-101F1 and Form 44-101F1 requirements to include reference to foreign resident experts.

General Comments not Specifically Related to the Proposed Amendments			
11.	General comment	5 commenters expressed that the current regulatory regime under NI 43-101 has isolated Canadian issuers, and caused some Qualified Persons to decide against working for Canadian companies.	We acknowledge the comment. However, addressing NI 43-101 is beyond the scope of this amendment project.

12.	Section 1.1 of NI 44-101-approved rating	1 commenter expressed that under the definition of “approved rating” the rating mapping table for long-term debt, short-term debt, and preferred shares for approved rating organizations was incorrect for DBRS for the following two reasons: (i) DBRS’ BBB long-term rating is equated with a short-term rating of R-2, which is incorrect. DBRS’ short-term rating should be updated and corrected to R-3 so that it is on par with the other AROs cited in the table; and (ii) The reference to “DBRS Limited” should be changed to “DBRS” so that the ratings scales and mapping relates to all DBRS entities.	We acknowledge the comment. Regarding (i), it would be inappropriate to make a change for the rating of one agency without having solicited input from the market, including other rating agencies. Also, examination of credit ratings are outside the scope of this amendment project. Regarding (ii), in connection with the implementation in April 2012 of National Instrument 25-101 <i>Designated Rating Organizations</i>, an examination has been undertaken of all references to specific credit rating entities or organizations. These changes are unrelated to the proposed amendments and are beyond the scope of this project.

Schedule C-2

Changes to Companion Policy 41-101CP to National Instrument 41-101 General Prospectus Requirements

- 1. *The changes to Companion Policy 41-101CP to National Instrument 41-101 General Prospectus Requirements are set out in this schedule.***
- 2. *Subsection 1.2(5) is changed by replacing “Companion Policy” with “companion policy”.***
- 3. *The following section is added after section 2.2:***

“Minimum offering amount

- 2.2.1** If the distribution of securities is being done on a best efforts basis, an issuer will need to determine if a minimum offering is required for the issuer to achieve one or more of the stated purposes of the offering, as expressed in the “Use of Proceeds” section of the prospectus. If this is the case, the issuer will need to provide a minimum and maximum offering amount. Otherwise, the issuer is required to provide the cautionary statement prescribed in paragraph 1.4(3)(b) of Form 41-101F1.

Although an issuer may determine that a minimum offering amount is not necessary for the prospectus offering, a regulator may reasonably infer that a minimum offering amount is appropriate in certain circumstances. This could occur, for example, if we have concerns that a minimum amount of proceeds must be raised in order for the issuer to achieve its stated objectives. Also, if we have concerns about an issuer continuing as a going concern, we may take the view that the issuer cannot achieve its stated objectives unless a minimum offering amount is raised. The imposition of a minimum offering amount by a regulator derives from the general responsibility of a regulator under securities laws to refuse a receipt for a prospectus if it appears that the aggregate of the proceeds from the sale of the securities under the prospectus and other resources of the issuer are insufficient to accomplish the purposes stated in the prospectus, or if it would not be in the public interest to issue a receipt. A benefit of the imposition of a minimum offering amount is that if the issuer fails to raise the minimum amount, investors benefit from an investor protection mechanism that facilitates the return of their subscription funds to them, if previously deposited.”.

4. ***Section 2.9 is replaced with the following:***

“Offerings of convertible, exchangeable or exercisable securities

2.9 Investor protection concerns may arise where the distribution of a convertible, exchangeable or exercisable security is qualified under a prospectus and the subsequent conversion, exchange or exercise of this security is made on a prospectus-exempt basis. Specifically, this concern arises when the subsequent conversion, exchange or exercise occurs within a short period of time – generally 180 days or less - following the purchase of the original security.

The concerns arise because the conversion, exchange or exercise feature of the security may operate to limit or “strip away” the remedies available to an investor for a misrepresentation in a prospectus.

In particular, we are concerned about offerings of subscription receipts, or other types of securities which may be convertible, exchangeable or exercisable within a short period of time following the purchase of the original security (generally 180 days or less), where the investor, when purchasing the subscription receipt, or other similar type of security, is in effect also making an investment decision in respect of the underlying security.

Public interest concerns arise if the subsequent distribution of the underlying security is not part of the initial distribution and is not qualified by the prospectus. These concerns arise because when the security is converted, exchanged or exercised prior to the end of the statutory period for a right of action for rescission under securities legislation (which in many jurisdictions is 180 days from the date of purchase of the original security), the purchaser of a convertible, exchangeable or exercisable security does not retain the same rights to rescission because the convertible, exchangeable or exercisable security that was issued under the prospectus has been replaced by the underlying security. In these circumstances, the original purchaser should retain the benefit of any remaining statutory right of rescission that would otherwise apply in respect of the convertible, exchangeable or exercisable security. As such, the issuer should provide the original purchaser of the convertible, exchangeable or exercisable security with a contractual right of rescission in respect of the conversion, exchange or exercise transaction.

In some cases, the subsequent distribution of the underlying security may be part of the initial distribution as it is part of a series of transactions involving further purchases and sales in the course of or incidental to a distribution. If this is the case the issuer should consider whether its prospectus should qualify the distribution of both the subscription receipt, or other similar type of security, as well as the underlying security.

The guidance above would not apply to an offering of warrants where the warrants may reasonably be regarded as incidental to the offering as a whole. For example, in the case of a typical special warrant offering, the special warrant

converts into i) a common share, and ii) a common share purchase warrant (or a fraction thereof). In such cases, we have generally accepted that the common share purchase warrant component merely represents a “sweetener”, and that the primary investment decision relates to the common share underlying the special warrant. This would also generally be the case with a unit offering where the unit consists of a common share, and a common share purchase warrant. Therefore, the regulator would not generally request that the issuer provide the original purchaser with a contractual right of rescission in respect of the sweetener warrants.”

5. ***The second paragraph of section 3.4 is changed by replacing “10.1(1)” with “10.1(1.1)”.***

6. ***The following section is added after section 3.5:***

“Personal information forms

3.5.1(1) If issuers are relying upon a previously delivered personal information form or predecessor personal information form pursuant to subsections 9.1(2) or 9.1(3) of the Instrument, issuers are reminded of paragraphs 9.1(2)(b) and 9.1(3)(b), which require that the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements issuers should obtain appropriate confirmations from the individual concerned.

(2) Paragraph 9.1(2)(c) of the Instrument requires that in certain circumstances an issuer deliver a copy of a previously delivered personal information form, or “alternative information that is satisfactory to the regulator”. Our interpretation of what would potentially be alternative information satisfactory to the regulator is, with respect to the previous delivery of an individual’s personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact issuers in cases where it is not. Issuers wishing to proceed in this manner should provide the information in the cover letter for the preliminary or pro forma long form prospectus.

(3) If an issuer is delivering a copy of a previously delivered personal information form pursuant to paragraph 9.1(2)(c) of the Instrument, the issuer should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered.”

7. ***Section 4.2 is changed by adding the following subsection after subsection (2):***

“(3) If a minimum offering amount is not provided and the issuer faces significant short-term expenditures or commitments, the issuer must provide additional disclosure as required under subsections 6.3(3) and (4) of Form 41-101F1 or subsections 4.2(3) and (4) of Form 44-101F1. The issuer must provide disclosure of how it will use the proceeds at different thresholds, describing what business objectives will be accomplished at each threshold as

well as the priority of how the proceeds will be used. In describing the use of proceeds under each threshold, the disclosure must also include an assessment of the impact of raising this amount on the issuer's liquidity, operations, capital resources and solvency.

Disclosures that may be necessary to understand this impact may include the following examples:

- (a) for issuers without significant revenue and available working capital, disclose the anticipated length of time that the proceeds at each threshold will suffice to meet expected cash requirements;
- (b) for issuers that have or anticipate having within the next 12 months any cash flow or liquidity problems, disclose how the proceeds at each threshold may impact the issuer's ability to continue in operation for the foreseeable future and realize assets and discharge liabilities in the normal course of operations;
- (c) for issuers that have significant projects that have not yet commenced operations and the projects have therefore not yet generated revenue, describe how the proceeds at each threshold may impact the anticipated timing and costs of the project and other critical milestones;
- (d) for issuers that have exploration and development expenditures or research and development expenditures required to maintain properties or agreements in good standing, describe how the proceeds at each threshold may impact these properties or agreements.

If the issuer anticipates additional funds from other sources are to be used in conjunction with the proceeds and the available working capital, the issuer will need to sufficiently describe the amounts of those funds, the source of those funds and whether those funds are firm or contingent. If the funds are contingent, the issuer should describe the nature of the contingency.

Depending on the particular circumstances of the issuer, one or more of the above examples may require the provision of a minimum offering amount in the prospectus. Refer to section 2.2.1 of this Policy for additional guidance.”.

8. Subsection 5.3(1) is changed by

- (a) in the first paragraph, adding the following after the first sentence:**

“However, if the issuer is a reporting issuer whose principal assets are not cash, cash equivalents or an exchange listing, and the acquisition of the primary business represents a significant acquisition for the issuer, the reporting issuer is subject to the requirements of Item 35 in respect of the financial statement and other disclosure for the acquisition.

An acquisition does not include a reverse takeover, as defined in NI 41-101 which cross-references the meaning of acquisition as used in Part 8 of NI 51-102. Therefore a reporting issuer cannot rely on the exemption in subsection 32.1(2) if the applicable transaction is a reverse takeover.”, **and**

(b) in the third paragraph, adding “, thereby triggering the application of Item 32,” before “are when the acquisition(s) was”.

9. Subsection 5.3(2) is changed by adding the following paragraph at the end:

“The issuer must also consider the necessity of including pro forma financial statements pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the acquisition of the primary business on the issuer’s financial position and results of operations. For additional guidance, an issuer should refer to section 5.10 of this Policy.”

10. Subsection 5.4(1) is changed by replacing “In these circumstances, the issuer should consider including pro forma financial statements in the prospectus giving effect to the recently completed or proposed acquisition of a predecessor entity.” with the following:

“However, if the issuer is a reporting issuer whose principal assets are not cash, cash equivalents or an exchange listing, and the acquisition of the predecessor entity represents a significant acquisition for the issuer, the reporting issuer is subject to the requirements of Item 35 in respect of the financial statement and other disclosure for the acquisition.

The issuer must also consider the necessity of including pro forma financial statements pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the acquisition of the predecessor entity on the issuer’s financial position and results of operations. For additional guidance, an issuer should refer to section 5.10 of this Policy.”

11. Subsection 5.9(7) is changed by

(a) adding “to” before “private enterprises in certain circumstances.”, and

(b) adding “and the issuer must provide financial statements for this acquisition under Item 32” after “predecessor of the issuer”.

12. Section 5.10 is replaced with the following:

“Financial statements for acquisitions of a predecessor entity, a business or businesses acquired by reporting and non-reporting issuers

5.10(1) The financial statements for acquisitions of a predecessor entity, a business or businesses acquired by the issuer, or other entity must be included in the prospectus under Item 32 of Form 41-101F1, if the entities or businesses satisfy the conditions of

paragraph 32.1(1)(a), (b), or (c) unless, as contemplated in subsection 32.1(2) with respect to paragraph 32.1(1)(a) or (b)

- (a) the issuer was a reporting issuer in any jurisdiction of Canada on the acquisition date in the case of a completed acquisition or immediately prior to the prospectus filing in the case of a proposed acquisition,
- (b) the issuer did not have only cash, cash equivalents or an exchange listing as its principal asset, and
- (c) the issuer provides disclosure under Item 35 of Form 41-101F1.

The disclosure requirements applicable to a reporting issuer in Item 35 are intended to reflect the requirements that would be prescribed for such acquisitions in the reporting issuer's business acquisition report.

(2) An issuer that is subject to Item 32 must also consider the necessity of including pro forma financial statements pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the acquisition on the issuer's financial position and results of operations. However, these pro forma financial statements are only required if their inclusion is necessary for the prospectus to contain full, true and plain disclosure of all material facts relating to the securities being distributed. Examples of when pro forma financial statements would likely be necessary are in cases where:

- (a) the issuer has acquired multiple businesses over the relevant period; or
- (b) the issuer has an active business and has acquired another business that will constitute its primary business going forward.

In certain circumstances, an issuer may need to disclose multiple acquisitions in its prospectus where the acquisitions include an acquisition of a primary business or predecessor entity to which section 32.1 of Form 41-101F1 applies and a significant acquisition to which only item 35 of Form 41-101F1 applies. In this case, the issuer may wish to present one set of pro forma financial statements reflecting the results of all of the acquisitions, as contemplated separately in each of sections 32.8 and 35.7 of Form 41-101F1. The securities regulatory authority or regulator would not generally object to providing this relief. However the issuer must request the relief when filing its preliminary prospectus.”.

- 13.** These changes become effective on May 14, 2013.

- (3) This Part does not apply to a prospectus filed in accordance with NI 44-101, NI 44-102 or NI 44-103.

17.2(1) This section does not apply in Ontario.

 - (c) a receipt for the new final prospectus is issued by the regulator within 20 days after the lapse date of the previous prospectus.

- (6) Subject to any extension granted under subsection (7), if a condition in subsection (4) is not complied with, a purchaser may cancel a purchase made in a distribution after the lapse date in reliance on subsection (4) within 90 days after the purchaser first became aware of the failure to comply with the condition.
- (7) The regulator may, on an application of a reporting issuer, extend, subject to such terms and conditions as it may impose, the times provided by subsection (4) where in its opinion it would not be prejudicial to the public interest to do so.

Evidence of exemption

- 19.3(1)** Subject to subsection (2) and without limiting the manner in which an exemption under this Part may be evidenced, the granting under this Part of an exemption, other than an exemption from subsection 2.2(2), may be evidenced by the issuance of a receipt for a final prospectus or an amendment to a final prospectus.
- (2)** The issuance of a receipt for a final prospectus or an amendment to a final prospectus is not evidence that the exemption has been granted unless
- (a)** the person or company that sought the exemption sent to the regulator
 - (i)** the letter or memorandum referred to in section 19.2 on or before the date of the filing of the [pro forma or](#) preliminary prospectus, or

Schedule 2

Personal Information Collection Policy

The regulators and securities regulatory authorities (the “regulators”) listed in Schedule 3 ~~Regulators~~ of Appendix A to National Instrument 41-101 *General Prospectus Requirements* (“**NI 41-101**”) collect the personal information in ~~Schedule 1~~ the personal information form as this term is defined in NI 41-101 (the “Personal Information Form”), under the authority granted to them under provincial and territorial securities legislation. Under securities legislation, the regulators do not make any of the information provided in ~~Schedule 1~~ the Personal Information Form public.

The regulators collect the personal information in ~~Schedule 1~~ the Personal Information Form for the purpose of enabling the regulators to administer and enforce provincial and territorial securities legislation, including those provisions that require or permit the regulators to refuse to issue a receipt for a prospectus if it appears to the regulators that the past conduct of management or promoters of the Issuer affords reasonable grounds for belief that the business of the Issuer will not be conducted with integrity and in the best interests of its securityholders.

You understand that by signing the certificate and consent in ~~Schedule 1~~ the Personal Information Form, you are consenting to the Issuer submitting your personal information in ~~Schedule 1~~ the Personal Information Form (the “**Information**”) to the regulators and to the collection and use by the regulators of the Information, as well as any other information that may be necessary to administer and enforce provincial and territorial securities legislation. This may include the collection of information from law enforcement agencies, other government or non-governmental regulatory authorities, self-regulatory organizations, exchanges, and quotation and trade reporting systems in order to conduct background checks, verify the Information and perform investigations and conduct enforcement proceedings as required to ensure compliance with provincial and territorial securities legislation. Your consent also extends to the collection, use and disclosure of the Information as described above in respect of other prospectus filings of the Issuer and the prospectus filings of any other issuer in a situation where you are or will be a

- (a) a director, executive officer or promoter of the other issuer,
- (b) a director or executive officer of a promoter of the other issuer, if the promoter is not an individual, or
- (c) where the other issuer is an investment fund, a director or executive officer of the investment fund manager.

You understand that the Issuer is required to deliver the Information to the regulators because the Issuer has filed a prospectus under provincial and territorial securities legislation. You also understand that you have a right to be informed of the existence of personal information about you that is kept by regulators, that you have the right to request access to that information, and that you have the right to request that such information be corrected, subject to the applicable

provisions of the freedom of information and protection of privacy legislation adopted by each province and territory.

You also understand and agree that the Information the regulators collect about you may also be disclosed, as permitted by law, where its use and disclosure is for the purposes described above. The regulators may also use a third party to process the Information, but when this happens, the third party will be carefully selected and obligated to comply with the limited use restrictions described above and with provincial and federal privacy legislation.

Warning: It is an offence to submit information that, in a material respect and at the time and in the light of the circumstances in which it is submitted, is misleading or untrue.

Questions

If you have any questions about the collection, use, and disclosure of the information you provide to the regulators, you may contact the regulator in the jurisdiction in which the required information is filed, at the address or telephone number listed in Schedule 3.

FORM 41-101F1

INFORMATION REQUIRED IN A PROSPECTUS

GENERAL INSTRUCTIONS

- (1) *The objective of the prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*
- (2) *Terms used and not defined in this Form that are defined or interpreted in the Instrument bear that definition or interpretation. Other definitions are set out in NI 14-101.*
- (3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect.*
- (4) *Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*
- (5) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.*
- (6) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*
- (7) *Where the term "issuer" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons or companies that the issuer is required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including "subsidiaries" as that term is used in Canadian GAAP applicable to*

publicly accountable enterprises). If it is more likely than not that a person or company will become an entity that the issuer will be required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person or company.

- (8) An issuer that is a special purpose entity may have to modify the disclosure items to reflect the special purpose nature of its business.*
- (9) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (10) If an issuer discloses financial information in a preliminary prospectus or prospectus in a currency other than the Canadian dollar, prominently display the presentation currency.*
- (11) Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*
- (12) Certain requirements in this Form make reference to requirements in another instrument or form. Unless this Form states otherwise, issuers must also follow the instruction or requirement in the other instrument or form. These references include references to Form 51-102F2. Venture issuers must include such disclosure in a preliminary prospectus or prospectus even if they are not otherwise required to file an annual information form under NI 51-~~102~~.[102](#)*
- (13) Wherever this Form uses the word "subsidiary", the term includes companies and other types of business organizations such as partnerships, trusts and other unincorporated business entities.*
- (14) Where requirements in this Form make reference to, or are substantially similar to, requirements in Form 51-102F2, issuers may apply the general provision in subpart 1(d) of Form 51-102F2. However, issuers must supplement this disclosure if the supplemented disclosure is necessary to ensure that the prospectus provides full, true and plain disclosure of all material facts related to the securities to be distributed as required under Item 29 of this Form.*
- (15) Forward-looking information, as defined in NI 51-102, included in a prospectus must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in a prospectus must comply with Part 4B of NI 51-102. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer in any jurisdiction, section 4A.2, section 4A.3 and Part 4B of NI 51-*

102 apply as if the issuer or other entity were a reporting issuer in at least one jurisdiction.

Schedule D-3

Form 41-101F2 — Information Required in an Investment Fund Prospectus

General Instructions

(1) The objective of the prospectus is to provide information concerning the investment fund that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. This Form does not prohibit including information beyond what the Form requires. Further, certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.

(2) Terms used and not defined in this Form that are defined or interpreted in the Instrument must bear that definition or interpretation. Other definitions are set out in NI 14-101 Definitions.

(3) In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the investment fund's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.

(4) Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.

(5) The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Companion Policy 41-101CP General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.

(6) No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.

(7) The disclosure required in this Form must be presented in the order and using the headings specified in the Form. ~~However, scholarship plans may make modifications to the disclosure items in order to reflect the special nature of their investment structure and distribution mechanism.~~ If no sub-heading for an Item is stipulated in this Form, an investment fund may include sub-headings under the required headings.

(8) Where the term "investment fund" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to the investment fund's subsidiaries and investees. If it is more likely than not that a person or company will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person or company. For this purpose, subsidiaries and investees include entities that are consolidated, proportionately consolidated, or accounted for using the equity method.

(9) If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.

(10) If the term "class" is used in any item to describe securities, the term includes a series.

(11) Where performance data is presented in the prospectus, annual compound returns must be presented for standard applicable performance periods of 1, 3, 5 and 10 year periods and the period since inception unless otherwise specified by the requirements of this Form. Performance data for periods of less than one year must not be presented. Hypothetical or back-tested performance data must not be presented.

(12) An investment fund that has more than one class or series that are referable to the same portfolio may treat each class or series as a separate investment fund for the purposes of this Form, or may combine disclosure of one or more of the classes or series in one prospectus. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.

(13) A section, part, class or series of a class of securities of an investment fund that is referable to a separate portfolio is considered to be a separate investment fund for the purposes of this Form. An investment fund that has more than one class or series of securities referable to separate portfolios may combine disclosure of one or more of the classes or series in one prospectus if each class or series is managed by the same manager. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.

(4) Subsection (3) does not apply to an investment fund in continuous distribution.

1.12 — Commodity Pool

(1) For a commodity pool, state in substantially the following words:

You should carefully consider whether your financial condition permits you to participate in this investment. The securities of this commodity pool are highly speculative and involve a high degree of risk. You may lose a substantial portion or even all of the money you place in the commodity pool.

The risk of loss in trading [nature of instruments to be traded by the commodity pool] can be substantial. In considering whether to participate in the [commodity pool], you should be aware that trading [nature of instruments] can quickly lead to large losses as well as gains. Such trading losses can sharply reduce the net asset value of the [commodity pool] and consequently the value of your interest in the [commodity pool]. Also, market

conditions may make it difficult or impossible for the [commodity pool] to liquidate a position.

The [commodity pool] is subject to certain conflicts of interest. The [commodity pool] will be subject to the charges payable by it as described in this prospectus that must be offset by revenues and trading gains before an investor is entitled to a return on his or her investment. It may be necessary for the [commodity pool] to make substantial trading profits to avoid depletion or exhaustion of its assets before an investor is entitled to a return on his or her investment.

(2) For the initial prospectus, state in substantially the following words:

The [commodity pool] is newly organized. The success of the [commodity pool] will depend upon a number of conditions that are beyond the control of the [commodity pool]. There is substantial risk that the goals of the [commodity pool] will not be met.

(3) If the promoter, manager, or a portfolio adviser of the commodity pool has not had a similar involvement with any other publicly offered commodity pool, state in substantially the following words:

The [promoter], [manager] [and/or] [portfolio adviser] of the [commodity pool] has not previously operated any other publicly offered commodity pools [or traded other accounts].

(4) If the commodity pool will execute trades outside Canada, state in substantially the following words:

Participation in transactions in [nature of instrument to be traded by the commodity pool] involves the execution and clearing of trades on or subject to the rules of a foreign market.

None of the Canadian securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing of transactions, or has the power to compel enforcement of the rule of a foreign market or any applicable foreign law. Generally, any foreign transaction will be governed by applicable foreign laws. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on a market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs.

For these reasons, entities such as the commodity pool that trade [nature of instrument to be traded by the commodity pool] may not be afforded certain of the protective measures provided by Canadian legislation and the rules of Canadian exchanges. In particular, funds received from customers for transactions may not be provided the same protection as funds received in respect of transactions on Canadian exchanges.

(5) State that the commodity pool is a mutual fund but that certain provisions of securities legislation designed to protect investors who purchase securities of mutual funds do not apply.

(6) Immediately after the statements required by subsections (1)-(5), state in substantially the following words:

These brief statements do not disclose all the risks and other significant aspects of investing in the [commodity pool]. You should therefore carefully study this prospectus, including a description of the principal risk factors at page [page number], before you decide to invest in the [commodity pool].

1.13 — Restricted Securities

Describe the number and class or classes of restricted securities being distributed using the appropriate restricted security terms in the same type face and type size as the rest of the description.

[In several of the provinces/provinces and territories], [T/t]he securities legislation further provides a purchaser with remedies for rescission [or [, in some jurisdictions,] revisions of the price or damages] if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission [, revisions of the price or damages] are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province [or territory]. **COMPANION POLICY
TO NATIONAL INSTRUMENT 41-101
GENERAL PROSPECTUS REQUIREMENTS**

PART 1: Introduction, Interrelationship with Securities Legislation, and Definitions

Introduction and purpose

- 1.1** This Policy describes how the provincial and territorial securities regulatory authorities (or “we”) intend to interpret or apply the provisions of the Instrument. Some terms used in this Policy are defined or interpreted in the Instrument, NI 14-101, or a definition instrument in force in the jurisdiction.

Interrelationship with other securities legislation

This Policy

- 1.2(1)** The Instrument applies to any prospectus filed under securities legislation and any distribution of securities subject to the prospectus requirement, other than a prospectus filed under NI 81-101 or a distribution of securities under such a prospectus, or unless otherwise stated. Parts of this Policy may not apply to all issuers.

Local securities legislation

- (2)** The Instrument, while being the primary instrument regulating prospectus distributions, is not exhaustive. Issuers should refer to the implementing law of the jurisdictions and other securities legislation of the local jurisdiction for additional requirements that may apply to the issuer’s prospectus distribution.

Continuous disclosure (NI 51-102 and NI 81-106)

- (3)** NI 51-102, NI 81-106 and other securities legislation imposes ongoing disclosure and filing obligations on reporting issuers. The regulator may consider issues raised in the context of a continuous disclosure review when determining whether it is in the public interest to refuse to issue a receipt for a prospectus. Consequently, unresolved issues may delay or prevent the issuance of a receipt.

Reporting issuers are generally required to file periodic and timely disclosure documents under applicable securities legislation. Reporting issuers may also be required to file periodic and timely disclosure documents pursuant to an order issued by the securities regulatory authority or an undertaking to the securities regulatory authority. Failure to comply with any requirement to file periodic and timely disclosure documents could cause the regulator to refuse a receipt for the prospectus.

Short form prospectus distributions (NI 44-101)

- (4) As set out in section 2.1 of NI 44-101, an issuer must not file a prospectus in the form of Form 44-101F1 unless the issuer is qualified under any of sections 2.2 through 2.6 of NI 44-101 to file a short form prospectus. An issuer that is qualified to file a short form prospectus must satisfy the requirements of NI 44-101, including the filing requirements of Part 4 of NI 44-101, as well as any applicable requirements of the Instrument. Therefore, issuers qualified to file a short form prospectus and selling securityholders of those issuers that wish to distribute securities under the short form system should refer to the Instrument, this Policy, and NI 44-101 and its companion policy.

Shelf distributions (NI 44-102)

- (5) Issuers qualified under NI 44-101 to file a prospectus in the form of a short form prospectus and their securityholders can distribute securities under a short form prospectus using the shelf distribution procedures under NI 44-102. The ~~Companion Policy~~[companion policy](#) to NI 44-102 explains that the distribution of securities under the shelf system is governed by the requirements and procedures of NI 44-101 and securities legislation, except as supplemented or varied by NI 44-102. Therefore, issuers qualified to file a short form prospectus and selling securityholders of those issuers that wish to distribute securities under the shelf system should refer to the Instrument, this Policy, NI 44-101 and its companion policy, and NI 44-102 and its companion policy.

PREP procedures (NI 44-103)

- (6) NI 44-103 contains the post-receipt pricing (PREP) procedures. All issuers and selling securityholders can use the PREP procedures of NI 44-103 to distribute securities, other than rights under a rights offering. Issuers and selling securityholders that wish to distribute securities using the PREP procedures as provided for in NI 44-103 should refer to the Instrument, this Policy, and NI 44-103 and its companion policy. Issuers and selling securityholders that wish to distribute securities under a short form prospectus using the PREP procedures should also refer to NI 44-101 and its companion policy for any additional requirements.

Process for prospectus reviews in multiple jurisdictions (NP 11-202)

- (7) National Policy 11-202 *Process for Prospectus Reviews in Multiple Jurisdictions* (“NP 11-202”) describes the process for filing and review of prospectuses, including investment fund and shelf prospectuses, amendments to prospectuses and related materials in multiple jurisdictions. NP 11-202 represents the means by which an issuer can enjoy the benefits of co-ordinated review by the securities regulatory authorities in the various jurisdictions in which the issuer has filed a prospectus. Under NP 11-202, one securities regulatory authority acts as the principal regulator for all materials relating to a filer.

Definitions

Asset-backed security

1.3(1) The definition of “asset-backed security” is the same definition used in NI 51-102.

The definition is designed to be flexible to accommodate future developments in asset-backed securities. For example, it does not include a list of “eligible” assets that can be securitized. Instead, the definition is broad, referring to “receivables or other financial assets” that by their terms convert into cash within a finite time period. These would include, among other things, notes, leases, instalment contracts and interest rate swaps, as well as other financial assets, such as loans, credit card receivables, accounts receivable and franchise or servicing arrangements. The reference to “and any rights or other assets...” in the definition is sufficiently broad to include “ancillary” or “incidental” assets, such as guarantees, letters of credit, financial insurance or other instruments provided as a credit enhancement for the securities of the issuer or which support the underlying assets in the pool, as well as cash arising upon collection of the underlying assets that may be reinvested in short-term debt obligations.

The term, a “discrete pool” of assets, can refer to a single group of assets as a “pool” or to multiple groups of assets as a “pool”. For example, a group or pool of credit card receivables and a pool of mortgage receivables can, together, constitute a “discrete pool” of assets. The reference to a “discrete pool” of assets is qualified by the phrase “fixed or revolving” to clarify that the definition covers “revolving” credit arrangements, such as credit card and short-term trade receivables, where balances owing revolve due to periodic payments and write-offs.

While typically a pool of securitized assets will consist of financial assets owed by more than one obligor, the definition does not currently include a limit on the percentage of the pool of securitized assets that can be represented by one or more financial assets owing by the same or related obligors (sometimes referred to as an “asset concentration test”).

Business day

(2) Section 1.1 of the Instrument defines business day as any day other than a Saturday, Sunday or a statutory holiday. In some cases, a statutory holiday may only be a statutory holiday in one jurisdiction. The definition of business day should be applied in each local jurisdiction in which a prospectus is being filed. For example, subsection 2.3(2) of the Instrument states that an issuer must not file a prospectus more than three business days after the date of the prospectus. A prospectus is dated Day 1. Day 2 is a statutory holiday in Québec but not in Alberta. If the prospectus is filed in both Alberta and Québec, it must be filed no later than Day 4, despite the fact that Day 2 was not a business day in Québec. If the prospectus is filed only in Québec, it could be filed on Day 5.

Accounting terms

- (3) The Instrument uses accounting terms that are defined or used in Canadian GAAP applicable to publicly accountable enterprises. In certain cases, some of those terms are defined differently in securities legislation. In deciding which meaning applies, you should consider that NI 14-101 provides that a term used in the Instrument and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern prospectuses; or (b) the context otherwise requires.

Acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises

- (4) If an issuer is permitted under NI 52-107 to file financial statements in accordance with acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises, then the issuer may interpret any reference in the Instrument to a term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in the other acceptable accounting principles.

Financial statements prepared in accordance with different accounting principles

- (5) Issuers intending to include financial statements that are prepared in accordance with different accounting principles should consider the guidance in section 2.8 of Companion Policy 52-107CP *Acceptable Accounting Principles and Auditing Standards*,

Rate-regulated activities

- (6) If a qualifying entity is relying on the exemption in paragraph 5.4(1)(a) of NI 52-107, then the qualifying entity may interpret any reference in the Instrument to a term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in Part V of the Handbook.

PART 2: General Requirements

Experience of officers and directors

- 2.1 Securities legislation requires that a securities regulatory authority or regulator refuse to issue a receipt for a prospectus if it appears that the proceeds received from the sale of securities to be paid to the treasury of the issuer, together with other resources of the issuer, will be insufficient to accomplish the purposes stated in the prospectus. In addition to financial resources, resources include people. If a sufficient number of the directors and officers of the issuer do not have relevant knowledge and experience, the securities regulatory authority or regulator may conclude that the human and other resources are insufficient to accomplish these purposes. If the requisite knowledge and

experience are not possessed by the directors and officers, a securities regulatory authority or regulator may be satisfied that the human and other resources are sufficient if it is shown that the issuer has contracted to obtain the knowledge and experience from others.

Role of underwriter

- 2.2 The due diligence investigation undertaken by an underwriter in relation to the business of the issuer often results in enhanced quality of disclosure in the prospectus. In addition, an underwriter typically provides valuable advice regarding the pricing and marketing of securities. For these reasons, we strongly encourage underwriter participation in prospectus offerings, particularly where the offering is an initial public offering.

Minimum offering amount

- 2.2.1 If the distribution of securities is being done on a best efforts basis, an issuer will need to determine if a minimum offering is required for the issuer to achieve one or more of the stated purposes of the offering, as expressed in the “Use of Proceeds” section of the prospectus. If this is the case, the issuer will need to provide a minimum and maximum offering amount. Otherwise, the issuer is required to provide the cautionary statement prescribed in paragraph 1.4(3)(b) of Form 41-101F1.

Although an issuer may determine that a minimum offering amount is not necessary for the prospectus offering, a regulator may reasonably infer that a minimum offering amount is appropriate in certain circumstances. This could occur, for example, if we have concerns that a minimum amount of proceeds must be raised in order for the issuer to achieve its stated objectives. Also, if we have concerns about an issuer continuing as a going concern, we may take the view that the issuer cannot achieve its stated objectives unless a minimum offering amount is raised. The imposition of a minimum offering amount by a regulator derives from the general responsibility of a regulator under securities laws to refuse a receipt for a prospectus if it appears that the aggregate of the proceeds from the sale of the securities under the prospectus and other resources of the issuer are insufficient to accomplish the purposes stated in the prospectus, or if it would not be in the public interest to issue a receipt. A benefit of the imposition of a minimum offering amount is that if the issuer fails to raise the minimum amount, investors benefit from an investor protection mechanism that facilitates the return of their subscription funds to them, if previously deposited.

Indirect distributions

- 2.3 Securities legislation prohibits a person from distributing a security unless a prospectus is filed and receipted or the distribution is exempt from the prospectus requirement. Securities legislation also prohibits a person from trading in a security where the trade would be a distribution of such security, unless a prospectus is filed and receipted or the distribution is exempt from the prospectus requirement. Securities legislation defines distribution as including a trade in a security that has not been previously issued, a trade

out of a control block and any transaction or series of transactions involving a purchase and sale of or a repurchase and resale in the course of or incidental to a distribution. In Québec, the definition of “distribution” is broad enough to include these transactions.

Occasionally, a prospectus is filed to qualify securities for sale to one purchaser or to a small group of related purchasers where it appears that the purchaser does not have a *bona fide* intention to invest in the securities but rather is acquiring the securities with a view to immediately reselling them in the secondary market. This can be the case where the purchaser is a lender to the issuer or where the securities are issued as consideration for the acquisition of assets.

Where the offering and subsequent resale are in substance a single distribution, in order to comply with securities legislation, the distribution to the public purchasers should be made by way of prospectus in order that the subsequent purchasers have the benefit of prospectus disclosure and all the rights and remedies provided to prospectus purchasers under securities legislation.

Considerations relevant to determining whether a distribution under a prospectus is only one transaction in a series of transactions in the course of or incidental to the ultimate distribution include:

- the number of persons or companies who are likely to purchase securities in each transaction;
- whether the purchasers’ traditional business is that of financing as opposed to investing;
- whether a purchaser is likely to acquire more of a specified class of securities of the issuer than it is legally entitled to, or practically wishes to, hold (e.g., more than 10% of a class of equity securities where the purchaser wishes to avoid becoming an insider or 20% of a class of equity securities where the purchaser wishes to avoid becoming a control person);
- the type of security distributed (e.g., loan repayment rights) and whether or not the security is convertible into publicly traded securities of the issuer;
- whether the purchase price of the securities is set at a substantial discount to their market price; and
- whether the purchaser is committed to hold the securities it acquires for any specified time period.

Over-allocation

- 2.4 Underwriters of a distribution may over-allocate a distribution in order to hold a short position in the securities following closing. This over-allocation position allows the

underwriters to engage in limited market stabilization to compensate for the increased liquidity in the market following the distribution. If the market price of the securities decreases following the closing of the distribution, the short position created by the over-allocation position may be filled through purchases in the market. This creates upward pressure on the price of the securities. If the market price of the securities increases following the closing of the distribution, the over-allocation position may be filled through the exercise of an over-allotment option (at the issue offering price). Underwriters would not generally engage in market stabilization activities without the protection provided by an over-allotment option.

Over-allotment options are permitted solely to facilitate the over-allocation of the distribution and consequent market stabilization. Accordingly, an over-allotment option may only be exercised for the purpose of filling the underwriters' over-allocation position. The exercise of an over-allotment option for any other purpose would raise public policy concerns.

To form part of the over-allocation position, securities must be sold to *bona fide* purchasers as of the closing of the offering. Securities held by an underwriter or in proprietary accounts of an underwriter for sale at a future date do not form part of the over-allocation position. Further, as discussed below, section 11.2 of the Instrument restricts the distribution of securities under a prospectus to an underwriter. Since section 11.1 of the Instrument requires that all securities that are sold to create the over-allocation position be distributed under the prospectus, securities cannot be sold to an underwriter to increase the size of the over-allocation position.

Distribution of securities under a prospectus to an underwriter

- 2.5 Section 11.2 of the Instrument restricts the distribution of securities under a prospectus to a person acting as an underwriter. Issuers should determine the 10% limit in that section as if all convertible or exchangeable securities offered under the prospectus were exercised for the underlying securities.

Certificates

Public interest

- 2.6(1) Securities legislation provides the regulator with discretion to refuse a receipt for a prospectus where it is not in the public interest to issue the receipt. Securities legislation imposes statutory liability in connection with prospectus disclosure to provide investors with a remedy if a prospectus does not contain full, true and plain disclosure of all material facts relating to the securities being distributed and to protect the integrity of the Canadian public markets. Where an offering is structured in a manner that circumvents the objects and purposes of securities legislation and results in a person or company accessing the Canadian public markets, who is not clearly accountable for the information in the prospectus, the regulator may have significant public interest concerns. Such public interest concerns will be addressed on a case by case basis as part of the

analysis of whether a receipt should be issued for a final prospectus. There may be circumstances in which it will be appropriate for the regulator to request a person or company, that is not otherwise required to do so, to certify a prospectus as a means of resolving such public interest concerns. For example, where it appears that a person or company is organizing its business and affairs to avoid a requirement to sign a prospectus certificate or to avoid prospectus liability, a regulator may conclude that there is sufficient public interest concerns that the regulator should require that person or company to certify a prospectus.

Discretion of the regulator to request certificates

- (2) Subsection 5.15(1) of the Instrument provides the regulator in each jurisdiction except Ontario with the discretion to require additional certificates. The exercise of this discretion will generally be informed by public interest concerns, including those discussed in subsection (1) above.

Signatories

- (3) Part 5 of the Instrument contains requirements regarding who must sign prospectus certificates. Certificates signed on behalf of the identified signatories by an agent or attorney will generally not be acceptable. For example, an income trust issuer with an active board of trustees would be required to arrange for the signature of two trustees on behalf of the board, rather than the signature of an attorney or agent.

Trustee certificates

- (4) Subsection 5.5(4) of the Instrument provides an exception to the trust certificate requirement where the trustees of the issuer do not perform functions similar to those of corporate directors. In this type of situation, a prospectus certificate is instead required from two individuals who do perform those functions for the issuer on behalf of all such individuals. In a situation where a regulated trust company is a trustee but does not perform functions similar to those of corporate directors, the regulated trust company and its officers and directors will not be required to sign a prospectus certificate if two other individuals who perform those functions do provide a certificate.

Chief executive officer and chief financial officer

- (5) The Instrument and other securities legislation require that prospectus certificates of certain persons or companies are to be signed by the chief executive officer and chief financial officer of such persons or companies. The terms chief executive officer and chief financial officer should be read to include the individuals who have the responsibilities normally associated with these positions or act in a similar capacity. This determination should be made irrespective of an individual's corporate title or whether that individual is employed directly or acts pursuant to an agreement or understanding.

Selling securityholder certificates

- (6) Subsection 5.13(1) of the Instrument provides the regulator in each jurisdiction except Ontario with the discretion to require selling securityholders to sign a prospectus certificate. Under securities legislation, selling securityholders are liable for misrepresentations in a prospectus whether or not they sign a prospectus certificate. There are circumstances, however, where the regulator may determine that it is in the public interest to require the selling securityholder to affirmatively certify the prospectus. Generally, the regulator would only exercise this discretion where the securities being distributed by the selling securityholder represent a substantial portion of the securities being distributed under the prospectus.

Promoters of issuers of asset-backed securities

- 2.7 Securities legislation in some jurisdictions in Canada define “promoter” and require, in certain circumstances, a promoter of an issuer to assume statutory liability for prospectus disclosure. Asset-backed securities are commonly issued by a “special purpose” entity, established for the sole purpose of facilitating one or more asset-backed offerings. The securities regulatory authorities are of the opinion that special purpose issuers of asset-backed securities will have a promoter because someone will typically have taken the initiative in founding, organizing or substantially reorganizing the business of the issuer. We interpret the business of such issuers to include the business of issuing asset-backed securities and entering into the supporting contractual arrangements.

For example, in the context of a securitization program under which assets of one or more related entities are financed by issuing asset-backed securities (sometimes called a “single seller program”), we will usually consider an entity transferring or originating a significant portion of such assets, an entity initially agreeing to provide on-going collection, administrative or similar services to the issuer, and the entity for whose primary economic benefit the asset-backed program is established, to be a promoter of the issuer if it took the initiative in founding, organizing or substantially reorganizing the business of the issuer. Persons or companies contracting with the issuer to provide credit enhancements, liquidity facilities or hedging arrangements or to be a replacement servicer of assets, and investors who acquire subordinated investments issued by the issuer, will not typically be promoters of the issuer solely by virtue of such involvement.

In the context of a securitization program established to finance assets acquired from numerous unrelated entities (sometimes called a “multi-seller program”), we will usually consider the person or company (frequently a bank or an investment bank) establishing and administering the program in consideration for the payment of an on-going fee, for example, to be a promoter of the issuer if it took the initiative in founding, organizing or substantially reorganizing the business of the issuer. Individual sellers of the assets into a multi-seller program are not ordinarily considered to be promoters of the issuer, despite the economic benefits accruing to such persons or companies from utilizing the program. As with single-seller programs, other persons or companies contracting with the issuer to

provide services or other benefits to the issuer of the asset-backed securities will not typically be promoters of the issuer solely by virtue of such involvement.

Where an entity is determined to be a promoter of an issuer at the time of the issuer's initial public offering, the entity continues to be a promoter of the issuer, in the case of subsequent offerings by the issuer, if the entity's relationship to the issuer and involvement in the offerings remains substantially the same. Accordingly, where an entity establishes a special purpose issuer to act as a dedicated securitization vehicle, and the prospectus filed in connection with a subsequent offering continues to include disclosure relating to the entity's securitization program, we will expect the entity to certify the prospectus as a promoter.

While we have included this discussion of promoters as guidance to issuers of asset-backed securities, the question of whether a particular person or company is a "promoter" of an issuer is ultimately a question of fact to be determined in light of the particular circumstances.

Special warrants

Distributions to resale market

- 2.8(1)** In certain special warrant transactions, the dealer involved in the private placement may itself have purchased special warrants from the issuer on an exempt basis, despite not disclosing any commitment to do so.

Securities legislation generally requires that a dealer not acting as agent of the purchaser who receives an order or subscription for a security offered in a distribution to which a prospectus requirement applies to deliver to the purchaser the latest prospectus. Where a dealer acquires special warrants, with a view to exercising them and reselling the underlying securities, such a resale would be a distribution that must be made by way of a prospectus or pursuant to an exemption from the prospectus requirements.

It is a requirement, therefore, that any dealer who has acquired special warrants with a view to their distribution or the distribution of the underlying securities deliver a prospectus during the period of distribution to its purchasers (where the sale to such purchasers is made otherwise than pursuant to a prospectus exemption) in order that such purchasers have the benefit of all rights and remedies provided to prospectus purchasers under securities legislation. In Québec, prospectus purchasers are notably conferred with a contractual right of rescission under s.1443 of the *Québec Civil Code*.

In connection with its prospectus review procedure, the regulator may request information from the issuer of all beneficial purchasers of special warrants. The regulator will generally keep this information confidential.

Underwriters' certificate and due diligence

- (2) While the special warrant transaction is, in form, two separate distributions, the first an exempt private placement distribution and the second a conversion of the warrants under a prospectus, such a transaction is, in substance, a single distribution under a prospectus of the underlying securities to the warrant investors.

The registrants involved in placing the special warrants are, therefore, also involved in the prospectus distribution and such registrants in a contractual relationship with the issuer must include their certificate in the prospectus under subsection 5.9(1) of the Instrument or other securities legislation. We note that the resulting incentive to such registrants to participate in the due diligence investigation of the issuer is also beneficial to the secondary market.

The obligation to deliver an underwriter's certificate as described in this Policy does not extend the scope of distributions any registrant is authorized to make under applicable securities legislation.

Contractual right of rescission

- (3) Under section 2.4 of the Instrument, an issuer must not file a prospectus or an amendment to a prospectus to qualify the distribution of securities issued on the exercise of special warrants or other securities acquired on a prospectus-exempt basis, unless the issuer has provided holders of the special warrants or other securities with a contractual right of rescission. We would not generally consider the disclosure of the contractual right of rescission in the prospectus as satisfying this condition unless there is a prior contract between the issuer and the holder of the special warrant or other security under which the issuer granted this right to the holder.

Offerings of convertible~~or~~ exchangeable or exercisable securities

- 2.9 Investor protection concerns may arise where the distribution of a convertible~~or~~ exchangeable or exercisable security is qualified under a prospectus and the subsequent conversion, exchange or exercise of ~~the convertible or exchangeable~~this security is made on a prospectus-exempt basis. ~~Examples of such offerings include issuing instalment receipts, subscription receipts and stand-alone warrants or long-term warrants. Reference to stand-alone warrants or long-term warrants is intended to refer to warrants and other forms of exchangeable or convertible securities that are offered under a prospectus as a separate and independent form of investment. This would not apply to an offering of warrants where the warrants may reasonably be regarded as incidental to the offering as a whole. Specifically, this concern arises when the subsequent conversion, exchange or exercise occurs within a short period of time – generally 180 days or less – following the purchase of the original security.~~

The concerns arise because the conversion, exchange or exercise feature of the security

may operate to limit or “strip away” the remedies available to an investor for a misrepresentation in a prospectus.

~~The investor protection concern arises because the conversion or exchange feature of the security may operate to limit the remedies available to an investor for incomplete or inaccurate disclosure in a prospectus. For example, an investor~~

~~may pay part of the purchase price at the time of the purchase of the convertible security and part of the purchase price at the time of the conversion. To the extent that an investor makes a further “investment decision” at the time of conversion, the investor should continue to enjoy the benefits of statutory rights or comparable contractual rights in relation to this further investment. In such circumstances, issuers should ensure that:~~

~~(a) — the distribution of both the convertible or exchangeable securities and the underlying securities will be qualified by the prospectus; or~~

In particular, we are concerned about offerings of subscription receipts, or other types of securities which may be convertible, exchangeable or exercisable within a short period of time following the purchase of the original security (generally 180 days or less), where the investor, when purchasing the subscription receipt, or other similar type of security, is in effect also making an investment decision in respect of the underlying security.

Public interest concerns arise if the subsequent distribution of the underlying security is not part of the initial distribution and is not qualified by the prospectus. These concerns arise because when the security is converted, exchanged or exercised prior to the end of the statutory period for a right of action for rescission under securities legislation (which in many jurisdictions is 180 days from the date of purchase of the original security), the purchaser of a convertible, exchangeable or exercisable security does not retain the same rights to rescission because the convertible, exchangeable or exercisable security that was issued under the prospectus has been replaced by the underlying security. In these circumstances, the original purchaser should retain the benefit of any remaining statutory right of rescission that would otherwise apply in respect of the convertible, exchangeable or exercisable security. As such, the issuer should provide the original purchaser of the convertible, exchangeable or exercisable security with a contractual right of rescission in respect of the conversion, exchange or exercise transaction.

In some cases, the subsequent distribution of the underlying security may be part of the initial distribution as it is part of a series of transactions involving further purchases and sales in the course of or incidental to a distribution. If this is the case the issuer should consider whether its prospectus should qualify the distribution of both the subscription receipt, or other similar type of security, as well as the underlying security.

~~(b) — the statutory rights that an investor would have if he or she purchased the underlying security offered under a prospectus are otherwise provided to the investor by way of a contractual right of action.~~

The guidance above would not apply to an offering of warrants where the warrants may reasonably be regarded as incidental to the offering as a whole. For example, in the case of a typical special warrant offering, the special warrant converts into i) a common share, and ii) a common share purchase warrant (or a fraction thereof). In such cases, we have generally accepted that the common share purchase warrant component merely represents a "sweetener", and that the primary investment decision relates to the common share underlying the special warrant. This would also generally be the case with a unit offering where the unit consists of a common share, and a common share purchase warrant. Therefore, the regulator would not generally request that the issuer provide the original purchaser with a contractual right of rescission in respect of the sweetener warrants.

Lapse date

- 2.10** An amendment to a prospectus, even if it amends and restates the prospectus, does not change the lapse date under section 17.2 of the Instrument or other securities legislation.

PART 3: Filing and Receipting Requirements

Extension of 90-day period for issuance of final receipt

- 3.1** The effect of subsection 2.3(1) of the Instrument is to ensure that issues are not being marketed by means of preliminary prospectuses containing outdated information.

Confidential material change reports

- 3.2** An issuer cannot meet the standard of “full, true and plain” disclosure, while a material change report has been filed but remains undisclosed publicly. Accordingly, an issuer who has filed a confidential material change report may not file a prospectus until the material change that is the subject of the report is generally disclosed or the decision to implement the change has been rejected and the issuer so notified the regulator of each jurisdiction where the confidential material change report was filed, and an issuer may not file a confidential material change report during a distribution and continue with the distribution. If circumstances arise that cause an issuer to file a confidential material change report during the distribution period of securities under a prospectus, the issuer should cease all activities related to the distribution until
- (a) the material change is generally disclosed and an amendment to the prospectus is filed, if required, or
 - (b) the decision to implement the material change has been rejected and the issuer has so notified the regulator of each jurisdiction where the confidential material change report was filed.

Supporting documents

- 3.3 Material that is filed in a jurisdiction will be made available for public inspection in that jurisdiction, subject to the provisions of securities legislation in the local jurisdiction regarding confidentiality of filed material. Material that is delivered to a regulator, but not filed, is not generally required under securities legislation to be made available for public inspection.

Consents of lawyers

- 3.4 The names of lawyers or law firms frequently appear in prospectuses in two ways. First, the underwriters, the issuer and selling securityholders may name the lawyers upon whose advice they are relying. Second, the opinions of counsel that the securities may be eligible for investment under certain statutes may be expressed or opinions on the tax consequences of the investment may be given.

In the first case, we are of the view that the lawyer is not, in the words of subsection 10.1(~~1.1~~) of the Instrument, named as having prepared or certified a part of the prospectus and is not named as having prepared or certified a report, valuation, statement or opinion referred to in the prospectus. Accordingly, this subsection does not require the written consent of the lawyer. In the second case, because the opinions or similar reports are prepared for the purpose of inclusion in the prospectus, we are of the view that this subsection applies and requires the consent.

Documents affecting the rights of securityholders

- 3.5(1) Subclause 9.1(a)(ii)(A) of the Instrument requires issuers to file copies of their articles of incorporation, amalgamation, continuation or any other constating or establishing documents, unless the document is a statutory or regulatory instrument. This carve out for a statutory or regulatory instrument is very narrow. For example, the carve out would apply to Schedule I or Schedule II banks under the *Bank Act*, whose charter is the *Bank Act*. It would not apply when only the form of the constating document is prescribed under statute or regulation, such as articles under the *Canada Business Corporations Act*.
- (2) Subclause 9.1(a)(ii)(E) of the Instrument requires issuers to file copies of contracts that can reasonably be regarded as materially affecting the rights of their securityholders generally. A warrant indenture is one example of this type of contract. We would expect that contracts entered into in the ordinary course of business would not usually affect the rights of securityholders generally, and so would not be required to be filed under this subclause.

Personal information forms

- 3.5.1(1) If issuers are relying upon a previously delivered personal information form or predecessor personal information form pursuant to subsections 9.1(2) or 9.1(3) of the Instrument, issuers are reminded of paragraphs 9.1(2)(b) and 9.1(3)(b), which require that

the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements issuers should obtain appropriate confirmations from the individual concerned.

- (2) Paragraph 9.1(2)(c) of the Instrument requires that in certain circumstances an issuer deliver a copy of a previously delivered personal information form, or “alternative information that is satisfactory to the regulator”. Our interpretation of what would potentially be alternative information that is satisfactory to the regulator is, with respect to the previous delivery of an individual’s personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact issuers in cases where it is not. Issuers wishing to proceed in this manner should provide the information in the cover letter for the preliminary or pro forma long form prospectus.
- (3) If an issuer is delivering a copy of a previously delivered personal information form pursuant to paragraph 9.1(2)(c) of the Instrument, the issuer should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered.

Material contracts

Definition

- 3.6(1)** Under section 1.1 of the Instrument, a material contract is defined as a contract that an issuer or any of its subsidiaries is a party to, that is material to the issuer. A material contract generally includes a schedule, side letter or exhibit referred to in the material contract and any amendment to the material contract. The redaction and omission provisions in subsections 9.3(3) and (4) of the Instrument apply to these schedules, side letters, exhibits or amendments.

Filing requirements

- (2)** Subject to the exceptions in paragraphs 9.3(2)(a) through (f) of the Instrument, subsection 9.3(2) of the Instrument provides an exemption from the filing requirement for a material contract entered into in the ordinary course of business. Whether an issuer entered into a material contract in the ordinary course of business is a question of fact that the issuer should consider in the context of its business and industry.

Paragraphs 9.3(2)(a) through (f) of the Instrument describe specific types of material contracts that are not eligible for the ordinary course of business exemption. Accordingly, if subsection 9.3(1) of the Instrument requires an issuer to file a material contract of a type described in these paragraphs, the issuer must file that material contract even if the issuer entered into it in the ordinary course of business.

Contract of employment

- (3) Paragraph 9.3(2)(a) of the Instrument provides that a material contract with certain individuals is not eligible for the ordinary course of business exemption, unless it is a “contract of employment”. One way for issuers to determine whether a contract is a contract of employment is to consider whether the contract contains payment or other provisions that are required disclosure under Form 51-102F6 as if the individual were a named executive officer or director of the issuer.

External management and external administration agreements

- (4) Under paragraph 9.3(2)(e) of the Instrument, external management and external administration agreements are not eligible for the ordinary course of business exemption. External management and external administration agreements include agreements between the issuer and a third party, the issuer’s parent entity, or an affiliate of the issuer, under which the latter provides management or other administrative services to the issuer.

Material contracts on which the issuer’s business is substantially dependent

- (5) Paragraph 9.3(2)(f) of the Instrument provides that a material contract on which the “issuer’s business is substantially dependent” is not eligible for the ordinary course of business exemption. Generally, a contract on which the issuer’s business is substantially dependent is a contract so significant that the issuer’s business depends on the continuance of the contract. Some examples of this type of contract include
- (a) a financing or credit agreement providing a majority of the issuer’s capital requirements for which alternative financing is not readily available at comparable terms,
 - (b) a contract calling for the acquisition or sale of substantially all of the issuer’s property, plant and equipment, long-lived assets, or total assets, and
 - (c) an option, joint venture, purchase or other agreement relating to a mining or oil and gas property that represents a majority of the issuer’s business.

Confidentiality provisions

- (6) Under subsection 9.3(3) of the Instrument, an issuer may omit or redact a provision of a material contract that is required to be filed if an executive officer of the issuer reasonably believes that disclosure of the omitted or redacted provision would violate a confidentiality provision. A provision of the type described in paragraphs 9.3(4)(a), (b) or (c) of the Instrument may not be omitted or redacted even if disclosure would violate a confidentiality provision, including a blanket confidentiality provision covering the entire material contract.

When negotiating material contracts with third parties, reporting issuers should consider their disclosure obligations under securities legislation. A regulator or securities regulatory authority may consider granting an exemption to permit a provision of the type listed in subsection 9.3(4) of the Instrument to be redacted if

- (a) the disclosure of that provision would violate a confidentiality provision, and
- (b) the material contract was negotiated before the effective date of the Instrument.

The regulator may consider the following factors, among others, in deciding whether to grant an exemption:

- (c) whether an executive officer of the issuer reasonably believes that the disclosure of the provision would be prejudicial to the interests of the issuer;
- (d) whether the issuer is unable to obtain a waiver of the confidentiality provision from the other party.

Disclosure seriously prejudicial to interests of issuer

- (7) Under subsection 9.3(3) of the Instrument, an issuer may omit or redact certain provisions of a material contract that is required to be filed if an executive officer of the issuer reasonably believes that disclosure of the omitted or redacted provision would be seriously prejudicial to the interests of the issuer. One example of disclosure that may be seriously prejudicial to the interests of the issuer is disclosure of information in violation of applicable Canadian privacy legislation. However, in situations where securities legislation requires disclosure of the particular type of information, applicable privacy legislation generally provides an exemption for the disclosure. Generally, disclosure of information that an issuer or other party has already publicly disclosed is not seriously prejudicial to the interests of the issuer.

Terms necessary for understanding impact on business of issuer

- (8) An issuer may not omit or redact a provision of a type described in paragraph 9.3(4)(a), (b), or (c) of the Instrument. Paragraph 9.3(4)(c) of the Instrument provides that an issuer may not omit or redact “terms necessary for understanding the impact of the material contract on the business of the issuer”. Terms that may be necessary for understanding the impact of the material contract on the business of the issuer include the following:
 - (a) the duration and nature of a patent, trademark, license, franchise, concession, or similar agreement;
 - (b) disclosure about related party transactions;

- (c) contingency, indemnification, anti-assignability, take-or-pay clauses, or change-of-control clauses.

Summary of omitted or redacted provisions

- (9) Under subsection 9.3(5) of the Instrument, an issuer must include a description of the type of information that has been omitted or redacted in the copy of the material contract filed by the issuer. A brief one-sentence description immediately following the omitted or redacted information is generally sufficient.

Response letters and marked up copies

- 3.7 In response to a comment letter for a preliminary prospectus, an issuer should include draft wording for the changes it proposes to make to a prospectus to address staff's comments. When the comments of the various securities regulators have been resolved, an issuer should clearly mark a draft of the prospectus with all proposed changes from the preliminary prospectus and submit it as far as possible in advance of the filing of final material. These procedures

may prevent delay in the issuing of a receipt for the prospectus, particularly if the number or extent of changes are substantial.

Undertaking in respect of credit supporter disclosure, including financial statements

- 3.8 Under subparagraph 9.2(a)(x) of the Instrument, an issuer must file an undertaking to file the periodic and timely disclosure of a credit supporter. For credit supporters that are reporting issuers with a current AIF (as defined in NI 44-101), the undertaking will likely be to continue to file the documents it is required to file under NI 51-102. For credit supporters registered under the 1934 Act, the undertaking will likely be to file the types of documents that would be required to be incorporated by reference into a Form S-3 or Form F-3 registration statement. For other credit supporters, the types of documents to be filed pursuant to the undertaking will be determined through discussions with the regulators on a case-by-case basis.

If an issuer, a parent credit supporter, and a subsidiary credit supporter satisfy the conditions of the exemption in section 34.3 of Form 41-101F1, an undertaking may provide that the subsidiary credit supporter will file periodic and timely disclosure if the issuer and the credit supporters no longer satisfy the conditions of the exemption in that section.

If an issuer and a credit supporter satisfy the conditions the exemption in section 34.4 of Form 41-101F1, an undertaking may provide that the credit supporter will file periodic and timely disclosure if the issuer and the credit supporter no longer satisfy the conditions of the exemption in that section.

For the purposes of such an undertaking, references to disclosure included in the prospectus should be replaced with references to the issuer or parent credit supporter's continuous disclosure filings. For example, if an issuer and subsidiary credit supporter(s) plan to continue to satisfy the conditions of the exemption in section 34.4 of Form 41-101F1 for continuous disclosure filings, the undertaking should provide that the issuer will file with its consolidated financial statements,

- (a) a statement that the financial results of the credit supporter(s) are included in the consolidated financial results of the issuer if
 - (i) the issuer continues to have limited independent operations, and
 - (ii) the impact of any subsidiaries of the issuer on a combined basis, excluding the credit supporter(s) but including any subsidiaries of the credit supporter(s) that are not themselves credit supporters, on the consolidated financial statements of the issuer continues to be minor, or
- (b) for any periods covered by issuer's consolidated financial statements, consolidating summary financial information for the issuer presented in the format set out in subparagraph 34.4(e)(ii) of Form 41-101F1.

Disclosure of investigations or proceedings

3.9 Securities legislation provides that, subject to certain conditions, the securities regulatory authorities or the regulator must issue a receipt for a prospectus unless it appears that it would not be in the public interest to do so. The securities regulatory authority or the regulator will consider whether there are ongoing or recently concluded investigations or proceedings relating to

- an issuer,
- a promoter,
- a principal securityholder, director or officer of the issuer, or
- an underwriter or other person or company involved in a proposed distribution

when it determines if it should refuse to issue a receipt for the prospectus. That decision will be made on a case-by-case basis and will depend upon the facts known at the time.

If the facts and circumstances do not warrant the denial of a receipt for a prospectus, securities legislation nonetheless imposes an obligation to provide full, true and plain disclosure of all material facts relating to the securities offered by the prospectus. Disclosure of an ongoing or recently concluded investigation or proceeding relating to a person or company involved in a proposed distribution may be necessary to meet this standard. The circumstances in which disclosure will be required and the nature and

extent of the disclosure will also be determined on a case-by-case basis. In making this determination, all relevant facts, including the allegations that gave rise to the investigation or proceeding, the status of the investigation or proceeding, the seriousness of the alleged breaches that are the subject of the investigation or proceeding and the degree of involvement in the proposed distribution by the person or company under investigation will be considered.

Amendments

- 3.10(1)** Subsection 6.5(1) of the Instrument and other securities legislation provides that if a material adverse change occurs after a receipt for a preliminary prospectus is obtained, an amendment to the preliminary prospectus must be filed as soon as practicable, but in any event within 10 days after the change occurs. If a preliminary prospectus indicates the number or value of the securities to be distributed under the prospectus, an increase in the number or value is, absent unusual circumstances, unlikely to constitute a material adverse change requiring an amendment to the preliminary prospectus.
- (2) If, after filing a preliminary prospectus, an issuer decides to attach or add to the securities offered under a prospectus a right to convert into, or a warrant to acquire, the security of the issuer being offered under the preliminary prospectus, the attachment or addition of the conversion feature or warrant is, absent unusual circumstances, unlikely to constitute a material adverse change requiring an amendment to the preliminary prospectus.
- (3) Securities legislation provides that no person or company shall distribute securities, unless a preliminary prospectus and a prospectus have been filed and receipts have been issued by the securities regulatory authority or regulator. If an issuer intends to add a new class of securities to the distribution under the prospectus after the preliminary prospectus has been filed and receipted, we interpret this requirement to mean an issuer must file an amended and restated preliminary prospectus.

Similarly, if an issuer wishes to add a new class of securities to a prospectus before the distribution under that prospectus is completed the issuer must file a preliminary prospectus for that class of securities and an amended and restated prospectus and obtain receipts for both the preliminary prospectus and the amended prospectus. Alternatively the issuer may file a separate preliminary prospectus and prospectus for the new class of securities. We interpret this requirement to also apply to mutual funds. If a mutual fund adds a new class or series of securities to a prospectus that is referable to a new separate portfolio of assets, a preliminary prospectus must be filed. However, if the new class or series of securities is referable to an existing portfolio of assets, the new class or series may be added by way of amendment.

- (4) Any changes to the terms or conditions of the security being distributed, such as the deletion of a conversion feature, may constitute a material adverse change requiring an amendment to the preliminary prospectus.

- (5) Under securities legislation, a regulator must not issue a receipt for a prospectus in certain circumstances, including if the regulator considers it prejudicial to the public interest to do so. The purpose of subsection 6.6(3) of the Instrument is to clarify that these receipt refusal grounds apply to an amendment to a final prospectus or a final short form prospectus in certain jurisdictions.

Reduced price distributions

- 3.11 Subsection 7.2(3) of the Instrument permits an issuer to reduce the offering price of the securities being distributed without filing an amendment to the prospectus if certain conditions are satisfied. Satisfying the conditions in this subsection means the underwriter's compensation should decrease by the amount that the aggregate price paid by purchasers for the securities is less than the gross proceeds paid by the underwriter to the issuer or selling securityholder. Section 20.8 of Form 41-101F1 requires disclosure of this fact.

Licences, registrations and approvals

- 3.12 For the purposes of section 10.2 of the Instrument, we would generally conclude that an issuer has all material licences, registrations and approvals necessary for the stated principal use of proceeds if the issuer could use a material portion of the proceeds of the distribution in the manner described in the prospectus without obtaining the licence, registration or approval.

Registration requirements

- 3.13 Issuers filing a prospectus and other market participants are reminded to ensure that members of underwriting syndicates are in compliance with registration requirements under securities legislation in each jurisdiction in which syndicate members are participating in the distribution of securities under the prospectus. Failure to comply with the registration requirements could cause the regulator to refuse to issue a receipt for the prospectus.

PART 4: General Content of Long Form Prospectus

Style of long form prospectus

- 4.1 Securities legislation requires that a long form prospectus contain "full, true and plain" disclosure. Issuers should apply plain language principles when they prepare a long form prospectus including:
- using short sentences;
 - using definite everyday language;
 - using the active voice;

- avoiding superfluous words;
- organizing the document into clear, concise sections, paragraphs and sentences;
- avoiding jargon;
- using personal pronouns to speak directly to the reader;
- avoiding reliance on glossaries and defined terms unless it facilitates understanding of the disclosure;
- avoiding vague boilerplate wording;
- avoiding abstract terms by using more concrete terms or examples;
- avoiding multiple negatives;
- using technical terms only when necessary and explaining those terms;
- using charts, tables and examples where it makes disclosure easier to understand.

Question and answer and bullet point formats are consistent with the disclosure requirements of the Instrument.

Pricing disclosure

- 4.2(1)** If the offering price or the number of securities being distributed, or an estimate of the range of the offering price or the number of securities being distributed, has been publicly disclosed in a jurisdiction or a foreign jurisdiction as of the date of the preliminary long form prospectus, section 1.7 of Form 41-101F1 requires the issuer to disclose that information in the preliminary long form prospectus. For example, if an issuer has previously disclosed this information in a public filing or a press release, in a foreign jurisdiction, the information must also be disclosed in the preliminary long form prospectus. If the issuer discloses this information in the preliminary long form prospectus, we will not consider a difference between this information and the actual offering price or number of securities being distributed to be, in itself, a material adverse change for which the issuer must file an amended preliminary long form prospectus.
- (2)** No disclosure is required under section 1.7 of Form 41-101F1 if the offering price or size of the offering has not been disclosed as of the date of the preliminary long form prospectus. However, given the materiality of pricing or offering size information, subsequent disclosure of this information on a selective basis could constitute conduct that is prejudicial to the public interest.

- (3) If a minimum offering amount is not provided and the issuer faces significant short-term expenditures or commitments, the issuer must provide additional disclosure as required under subsections 6.3(3) and (4) of Form 41-101F1 or subsections 4.2(3) and (4) of Form 44-101F1. The issuer must provide disclosure of how it will use the proceeds at different thresholds, describing what business objectives will be accomplished at each threshold as well as the priority of how the proceeds will be used. In describing the use of proceeds under each threshold, the disclosure must also include an assessment of the impact of raising this amount on the issuer's liquidity, operations, capital resources and solvency.

Disclosures that may be necessary to understand this impact may include the following examples:

- (a) for issuers without significant revenue and available working capital, disclose the anticipated length of time that the proceeds at each threshold will suffice to meet expected cash requirements;
- (b) for issuers that have or anticipate having within the next 12 months any cash flow or liquidity problems, disclose how the proceeds at each threshold may impact the issuer's ability to continue in operation for the foreseeable future and realize assets and discharge liabilities in the normal course of operations;
- (c) for issuers that have significant projects that have not yet commenced operations and the projects have therefore not yet generated revenue, describe how the proceeds at each threshold may impact the anticipated timing and costs of the project and other critical milestones;
- (d) for issuers that have exploration and development expenditures or research and development expenditures required to maintain properties or agreements in good standing, describe how the proceeds at each threshold may impact these properties or agreements.

If the issuer anticipates additional funds from other sources are to be used in conjunction with the proceeds and the available working capital, the issuer will need to sufficiently describe the amounts of those funds, the source of those funds and whether those funds are firm or contingent. If the funds are contingent, the issuer should describe the nature of the contingency.

Depending on the particular circumstances of the issuer, one or more of the above examples may require the provision of a minimum offering amount in the prospectus. Refer to section 2.2.1 of this Policy for additional guidance.

Principal purposes – generally

- 4.3(1) Subsection 6.3(1) of Form 41-101F1 requires disclosure of each of the principal purposes for which the issuer will use the net proceeds. If an issuer has negative cash flow from

operating activities in its most recently completed financial year for which financial statements have been included in the long form prospectus, the issuer should prominently disclose that fact in the use of proceeds section of the long form prospectus. The issuer should also disclose whether, and if so, to what extent, the issuer will use the proceeds of the distribution to fund any anticipated negative cash flow from operating activities in future periods. An issuer should disclose negative cash flow from operating activities as a risk factor under subsection 21.1(1) of Form 41-101F1. For the purposes of this section, in determining cash flow from operating activities, the issuer must include cash payments related to dividends and borrowing costs.

- (2) For the purposes of the disclosure required under section 6.3 of Form 41-101F1, the phrase “for general corporate purposes” is not generally sufficient.

MD&A

Additional information for venture issuers without significant revenue

- 4.4(1) Section 8.6 of Form 41-101F1 requires certain venture issuers and IPO venture issuers to disclose a breakdown of material costs whether expensed or recognized as assets. A component of cost is generally considered to be a material component if it exceeds the greater of
 - (a) 20% of the total amount of the class, and
 - (b) \$25,000.

Disclosure of outstanding security data

- (2) Section 8.4 of Form 41-101F1 requires disclosure of information relating to the outstanding securities of the issuer as of the latest practicable date. The “latest practicable date” should be as close as possible to the date of the long form prospectus. Disclosing the number of securities outstanding at the most recently completed financial period is generally not sufficient to meet this requirement.

Additional disclosure for issuers with significant equity investees

- (3) Section 8.8 of Form 41-101F1 requires issuers with significant equity investees to provide in their long form prospectuses summarized information about the equity investee. Generally, we will consider that an equity investee is significant if the equity investee would meet the thresholds for the significance tests in Item 35 of Form 41-101F1 using the financial statements of the equity investee and the issuer as at the issuer’s financial year-end.

Distribution of asset-backed securities

4.5 Section 10.3 of Form 41-101F1 specifies additional disclosure that applies to distributions of asset-backed securities. Disclosure for a special purpose issuer of asset-backed securities will generally explain

- the nature, performance and servicing of the underlying pool of financial assets,
- the structure of the securities and dedicated cash flows, and
- any third party or internal support arrangements established to protect holders of the asset-backed securities from losses associated with non-performance of the financial assets or disruptions in payment.

The nature and extent of required disclosure may vary depending on the type and attributes of the underlying pool and the contractual arrangements through which holders of the asset-backed securities take their interest in such assets.

An issuer of asset-backed securities should consider the following factors when preparing its long form prospectus:

- (a) The extent of disclosure respecting an issuer will depend on the extent of the issuer's on-going involvement in the conversion of the assets comprising the pool to cash and the distribution of cash to securityholders; this involvement may, in turn, vary dramatically depending on the type, quality and attributes of the assets comprising the pool and on the overall structure of the transaction.
- (b) Disclosure about the business and affairs of the issuer should relate to the financial assets underlying the asset-backed securities.
- (c) Disclosure about the originator or the seller of the underlying financial assets will often be relevant to investors in the asset-backed securities particularly where the originator or seller has an on-going involvement with the financial assets comprising the pool. For example, if asset-backed securities are serviced with the cash flows from a revolving pool of receivables, an evaluation of the nature and reliability of the future origination or the future sales of underlying assets by the seller to or through the issuer may be a critical aspect of an investor's investment decision.

To address this, the focus of disclosure respecting an originator or seller of the underlying financial assets should deal with whether there are current circumstances that indicate that the originator or seller will not generate adequate assets in the future to avoid an early liquidation of the pool and, correspondingly, an early payment of the asset-backed securities. Summary historical financial information respecting the originator or seller will ordinarily be adequate to satisfy the disclosure requirements applicable to the originator or seller in

circumstances where the originator or seller has an ongoing relationship with the assets comprising the pool.

Subsection 10.3(10) of Form 41-101F1 requires issuers of asset-backed securities to describe any person or company who originated, sold or deposited a material portion of the financial assets comprising the pool, irrespective of whether the person or company has an on-going relationship with the assets comprising the pool. The securities regulatory authorities consider 33⅓% of the dollar value of the financial assets comprising the pool to be a material portion in this context.

Distribution of derivatives and underlying securities

4.6(1) Section 10.4 of Form 41-101F1 specifies additional disclosure applicable to distributions of derivatives. This prescribed disclosure is formulated in general terms for issuers to customize appropriately in particular circumstances.

(2) If the securities being distributed are convertible into or exchangeable for other securities, or are a derivative of, or otherwise linked to, other securities, a description of the material attributes of the underlying securities will generally be necessary to meet the requirements of securities legislation that a long form prospectus contain full, true and plain disclosure of all material facts concerning the securities being distributed.

Restricted securities

4.7 Section 10.6 of Form 41-101F1 specifies additional disclosure for restricted securities, including a detailed description of any significant provisions under applicable corporate and securities law that do not apply to the holders of the restricted securities but do apply to the holders of another class of equity securities. An example of such provisions would be rights under takeover bids.

Credit supporter disclosure

4.8 A long form prospectus must include, under Item 33 of Form 41-101F1, disclosure about any credit supporters that have provided a guarantee or alternative credit support for all or substantially all of the payments to be made under the securities being distributed. Disclosure about a credit supporter may be required even if the credit supporter has not provided full and unconditional credit support.

Exemptions for certain issues of guaranteed securities

4.9 Requiring disclosure about the issuer and any applicable credit supporters in a long form prospectus may result in unnecessary disclosure in some instances. Item 34 of Form 41-101F1 provides exemptions from the requirement to include both issuer and credit supporter disclosure where such disclosure is not necessary to ensure that the long form prospectus includes full, true and plain disclosure of all material facts concerning the securities to be distributed.

These exemptions are based on the principle that, in these instances, investors will generally require issuer disclosure or credit supporter disclosure to make an informed investment decision. These exemptions are not intended to be comprehensive and issuers may apply for exemptive relief from the requirement to provide both issuer and credit supporter disclosure, as appropriate.

Previously disclosed material forward-looking information

4.10 If an issuer, at the time it files a long form prospectus,

- (a) has previously disclosed to the public material forward-looking information for a period that is not yet complete, and
- (b) is aware of events and circumstances that are reasonably likely to cause actual results to differ materially from the material forward-looking information,

the issuer should discuss those events and circumstances, and the expected differences from the material forward-looking information, in the long form prospectus.

PART 5: Content of Long Form Prospectus (Financial Statements)

Exemptions from financial disclosure requirements

- 5.1** Request for exemptions from financial disclosure should be made in accordance with Part 19 of the Instrument, which requires the issuer to make submissions in writing along with the reasons for the request. Written submissions should be filed at the time the preliminary long form prospectus is filed, and include any proposed alternative disclosure. If the application involves a novel and substantive issue or raises a novel public policy concern, issuers should use the pre-filing procedures under NP 11-202. Issuers that are not filing their prospectuses under NP 11-202 should also follow the principles outlined and procedures set out in NP 11-202.

Presentation of Financial Results

- 5.1.1** Canadian GAAP applicable to publicly accountable enterprises provides an issuer two alternatives in presenting its income: (a) in one single statement of comprehensive income, or (b) in a statement of comprehensive income with a separate income statement. If an issuer presents its income using the second alternative, both statements must be filed to satisfy the requirements of this Instrument. (See subsections 32.2(1.1) and 32.3(3) of Form 41-101F1).

General financial statement requirements

- 5.2** If an issuer has filed annual financial statements or an interim financial report for periods that are more recent than those that the issuer must otherwise include in a long form

prospectus before it files the prospectus, sections 32.6 and 35.8 of Form 41-101F1 require the issuer to include those financial statements in the long form prospectus. Issuers should update the disclosure in the prospectus accordingly in order to satisfy the requirement that the long form prospectus contain full, true and plain disclosure of all material facts relating to the securities being distributed. However, if historical financial information derived from more recent annual financial statements or interim financial report is released to the public by the issuer before the financial statements are filed, the prospectus should include the information included in the news release or public communication. There is no specific requirement in the Instrument to otherwise update the prospectus, or pro forma financial statements to reflect the more recent information.

We think the directors of an issuer should endeavor to consider and approve financial statements in a timely manner and should not delay the approval and filing of the financial statements for the purpose of avoiding their inclusion in a long form prospectus. Once the directors have approved an issuer's financial statements, the issuer should file them as soon as possible.

Interpretation of issuer – primary business

- 5.3(1)** An issuer is required to provide historical financial statements under Item 32 of Form 41-101F1 for a business or related businesses that a reasonable investor would regard as the primary business of the issuer. However, if the issuer is a reporting issuer whose principal assets are not cash, cash equivalents or an exchange listing, and the acquisition of the primary business represents a significant acquisition for the issuer, the reporting issuer is subject to the requirements of Item 35 in respect of the financial statement and other disclosure for the acquisition.

An acquisition does not include a reverse takeover, as defined in NI 41-101 which cross-references the meaning of acquisition as used in Part 8 of NI 51-102. Therefore a reporting issuer cannot rely on the exemption in subsection 32.1(2) if the applicable transaction is a reverse takeover.

Examples of when a reasonable investor would regard the primary business of the issuer to be the acquired business or related businesses, thereby triggering the application of Item 32, are when the acquisition(s) was

- (a) a reverse takeover,
- (b) a qualifying transaction for a Capital Pool Company, or
- (c) an acquisition that is a significant acquisition at over the 100% level under subsection 35.1(4) of Form 41-101F1.

The issuer should consider the facts of each situation to determine whether a reasonable investor would regard the primary business of the issuer to be the acquired business or related businesses.

- (2) The periods for which the issuer must provide financial statements under Item 32 of Form 41-101F1 for an acquired business or businesses that are regarded as the primary business of the issuer should be determined in reference to sections 32.2 and 32.3 of Form 41-101F1, and with the same exceptions, where applicable, set out in paragraphs 32.4(a) through (e) of Form 41-101F1. For example, for an issuer that is a reporting issuer in at least one jurisdiction immediately before filing a long form prospectus, the reference to three years in subparagraph 32.2(6)(a) of Form 41-101F1 should be read as two years under paragraphs 32.4(a), (b), (d) and (e) of Form 41-101F1.

The issuer must also consider the necessity of including pro forma financial statements pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the acquisition of the primary business on the issuer's financial position and results of operations. For additional guidance, an issuer should refer to section 5.10 of this Policy.

Interpretation of issuer – predecessor entity

- 5.4(1) An issuer is required to provide historical financial statements under Item 32 of the Form 41-101F1 for any predecessor entity. This includes financial statements of acquired businesses that are unrelated and not otherwise individually significant, but together form the basis of the business of the issuer. ~~In these circumstances, the issuer should~~ However, if the issuer is a reporting issuer whose principal assets are not cash, cash equivalents or an exchange listing, and the acquisition of the predecessor entity represents a significant acquisition for the issuer, the reporting issuer is subject to the requirements of Item 35 in respect of the financial statement and other disclosure for the acquisition.

The issuer must also consider the necessity of including pro forma financial statements in the prospectus giving effect to the recently completed or proposed ~~pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the~~ acquisition of ~~at the~~ predecessor entity ~~on the issuer's financial position and results of operations. For additional guidance, an issuer should refer to section 5.10 of this Policy.~~

- (2) If an issuer determines the financial statements of certain acquired businesses referred to in subsection (1) are not relevant, the issuer should utilize the pre-filing procedures in NP 11-202 to determine whether it would require an exemption from the requirement to include these financial statements.

Sufficiency of financial history included in a long form prospectus

- 5.5(1) Item 32 of Form 41-101F1 prescribes the issuer financial statements that must be included in a long form prospectus. We recognize that an issuer, at the time of filing a long form prospectus, may have been in existence for less than one year. We expect that in many situations the limited historical financial statement information that is available for such an issuer may be adequately supplemented by other relevant information disclosed in the long form prospectus. However, if the issuer cannot provide financial statements for a period of at least 12 months and the long form prospectus does not

otherwise contain information concerning the business conducted or to be conducted by the issuer that is sufficient to enable an investor to make an informed investment decision, a securities regulatory authority or regulator may consider this a key factor when deciding whether it should refuse to issue a receipt for the long form prospectus.

- (2) A reference to a prospectus includes a preliminary prospectus. Consequently, the time references in sections 32.2, 32.3, 35.5 and 35.6 of Form 41-101F1 should be considered as at the date of the preliminary long form prospectus and again at the date of the final long form prospectus for both the issuer and any business acquired or to be acquired. Depending on the period of time between the dates of the preliminary and final long form prospectuses, an issuer may have to include more recent financial statements.
- (3) An issuer is subject to certain additional disclosure requirements when it discloses an interim financial report for a period in the year of adopting IFRS, as set out in subparagraph 32.3(2)(e) and subsection 32.3(4) of Form 41-101F1. These requirements only apply to interim financial reports relating to periods in the year of adopting IFRS and therefore do not apply if the prospectus includes annual financial statements prepared in accordance with IFRS.

An issuer is required to provide an opening IFRS statement of financial position at the date of transition to IFRS. An issuer with, for example, a year-end of December 31, 2010 that files a prospectus for which it must include its first interim financial report in the year of adopting IFRS for the period ended March 31, 2011, must generally provide an opening IFRS statement of financial position at January 1, 2010.

An issuer must also include various reconciliations required by IFRS 1 to explain how the transition from previous GAAP to IFRS has affected its reported financial position, financial performance and cash flows. In the first interim period IFRS 1 requires certain additional reconciliations which relate to annual periods and the date of transition to IFRS. Where an issuer that was not a reporting issuer in at least one jurisdiction immediately before filing the prospectus includes an interim financial report in respect of the second or third interim period in the year of adopting IFRS, subsection 32.3(4) of Form 41-101F1 requires these additional reconciliations to be included in the prospectus. Alternatively, pursuant to subsection 32.3(4) of Form 41-101F1, the issuer may include the first interim financial report in the year of adopting IFRS as this report includes the required reconciliations.

These additional reconciliations may be summarized as follows:

- reconciliations of the issuer's equity presented in accordance with previous GAAP to its equity in accordance with IFRS for the date of transition to IFRS (January 1, 2010 in the above-noted example);
- reconciliations of the issuer's equity presented in accordance with previous GAAP to its equity in accordance with IFRS for the end of the latest period

presented in the issuer's most recent annual financial statements in accordance with previous GAAP (December 31, 2010 in the above-noted example); and

- a reconciliation of the issuer's total comprehensive income (or total profit or loss) presented in accordance with previous GAAP to its total comprehensive income in accordance with IFRS for the latest period in the issuer's most recent annual financial statements presented in the prospectus in accordance with previous GAAP (year ended December 31, 2010 in the above-noted example).

The reconciliations summarized above must give sufficient detail to enable investors to understand the material adjustments to the statement of financial position, statement of comprehensive income and statement of cash flows.

Applications for exemption from requirement to include financial statements of the issuer

- 5.6(1)** We believe investors should receive in a long form prospectus for an IPO no less than three years of audited historical financial statements and that relief from the financial statements requirements should be granted only in unusual circumstances and generally not related solely to the cost or the time involved in preparing and auditing the financial statements.
- (2)** In view of our reluctance to grant exemptions from the requirement to include audited historical financial statements, issuers seeking relief should consult with staff on a pre-filing basis.
- (3)** Considerations relevant to granting an exemption from the requirement to include financial statements, generally for the years immediately preceding the issuer's most recently completed financial year, may include the following:

The issuer's historical accounting records have been destroyed and cannot be reconstructed.

- (a)** In this case, as a condition of granting the exemption, the issuer may be requested by a securities regulatory authority or regulator to
- (i)** represent in writing to the securities regulatory authority or regulator, no later than the time the preliminary long form prospectus is filed, that the issuer made every reasonable effort to obtain copies of, or reconstruct, the historical accounting records necessary to prepare and audit the financial statements, but such efforts were unsuccessful, and
 - (ii)** disclose in the long form prospectus the fact that the historical accounting records have been destroyed and cannot be reconstructed.

The issuer has emerged from bankruptcy and current management is denied access to the historical accounting records necessary to audit the financial statements.

- (b) In this case, as a condition of granting the exemption, the issuer may be requested by a securities regulatory authority or regulator to
 - (i) represent in writing to the securities regulatory authority or regulator, no later than the time the preliminary long form prospectus is filed, that the issuer has made every reasonable effort to obtain access to, or copies of, the historical accounting records necessary to audit the financial statements but that such efforts were unsuccessful, and
 - (ii) disclose in the long form prospectus the fact that the issuer has emerged from bankruptcy and current management is denied access to the historical accounting records.

The issuer has undergone a fundamental change in the nature of its business or operations affecting a majority of its operations and all, or substantially all, of the executive officers and directors of the company have changed.

- (c) The evolution of a business or progression along a development cycle will not be considered to be a fundamental change in an issuer's business or operations. Relief from the requirement to include financial statements of the issuer required by the Instrument for the year in which the change occurred, or for the most recently completed financial year if the change in operations occurred during the issuer's current financial year, generally will not be granted.
- (4) If, in unusual circumstances, relief from Part 4 of the Instrument is granted, additional financial information will likely be requested to allow a reader to gain a similar understanding of the entity's financial position and prospects as one would gain from the information required in Part 4 of the Instrument.

Examples of acceptable additional information include an audited interim financial report, audited divisional statements of comprehensive income or cash flows, financial statements accompanied by an auditor's report that expresses a modified opinion, or audited statements of net operating income.

Additional information

- 5.7 An issuer may find it necessary, in order to meet the requirement for full, true and plain disclosure contained in securities legislation, to include certain additional information in its long form prospectus, such as separate financial statements of a subsidiary of the issuer in a long form prospectus, even if the financial statements of the subsidiary are included in the consolidated financial statements of the issuer. For example, separate financial statements of a subsidiary may be necessary to help explain the risk profile and nature of the operations of the subsidiary.

Audit and review of financial statements included or incorporated by reference into a long form prospectus

- 5.8(1)** Part 4 of the Instrument requires that all financial statements included in a long form prospectus be audited, except financial statements specifically exempted in the Instrument. This requirement extends to financial statements of subsidiaries and other entities even if the financial statements are not required to be included in the long form prospectus but have been included at the discretion of the issuer.
- (2)** NI 52-107 requires that financial statements, other than acquisition statements, that are required to be audited by securities legislation, such as this Instrument, be accompanied by an auditor's report that expresses an unmodified opinion if they were audited in accordance with Canadian GAAS or International Standards on Auditing, or contain an unqualified opinion if they were audited in accordance with U.S. PCAOB GAAS. This requirement applies to all financial statements included in the long form prospectus under Item 32 of Form 41-101F1, including financial statements from entities acquired or to be acquired that are the primary business or the predecessor of the issuer. For greater clarity, subsections 3.12(3) and 4.12(6) of NI 52-107 only apply to financial statements included in the long form prospectus pursuant to Item 35 of Form 41-101F1. Relief may be granted to non-reporting issuers in appropriate circumstances to permit the auditor's report on financial statements to contain a qualified opinion relating to opening inventory if there is a subsequent audited period of at least six months on which the auditor's report expresses an unmodified opinion and the business is not seasonal. Issuers requesting this relief should be aware that NI 51-102 requires an issuer's comparative financial statements be accompanied by an auditor's report that expresses an unmodified opinion.

Financial statement disclosure for significant acquisitions

Applicable principles in NI 51-102

- 5.9(1)** Generally, it is intended that the disclosure requirements set out in Item 35 of Form 41-101F1 for significant acquisitions follow the requirements in Part 8 of NI 51-102. The guidance in Part 8 of the companion policy to NI 51-102 ("51-102CP") apply to any disclosure of a significant business acquisition in a long form prospectus required by Item 35 of Form 41-101F1, except
- (a) any headings in Part 8 of 51-102CP should be disregarded,
 - (b) subsections 8.1(1), 8.1(5), 8.7(8), and 8.10(2) of 51-102CP do not apply,
 - (c) other than in subsections 8.3(4) and 8.7(7) of 51-102CP, any references to a "reporting issuer" should be read as an "issuer",
 - (d) any references to the "Instrument" should be read as "NI 51-102",

- (e) any references to a provision in NI 51-102 in 51-102CP should be read to include the following “as it applies to a long form prospectus pursuant to Item 35 of Form 41-101F1”,
- (f) any references to “business acquisition report” should be read as “long form prospectus”,
- (g) in subsection 8.1(2) of 51-102CP, the term “file a copy of the documents as its business acquisition report” should be read as “include that disclosure in its long form prospectus in lieu of the significant acquisition disclosure required under Item 35 of Form 41-101F1”,
- (h) in subsection 8.2(1) of 51-102CP,
 - (i) the term “The test” should be read as “For any completed acquisition, the test”,
 - (ii) the sentence “For any proposed acquisition of a business or related businesses by an issuer that has progressed to a state where a reasonable person would believe that the likelihood of the issuer completing the acquisition is high, the test must be applied using the financial statements included in the long form prospectus.” should be added after “the business.”, and
 - (iii) the term “business acquisition report will be required to be filed” should be read as “disclosure regarding the significant acquisition is required to be included in the issuer’s long form prospectus”,
- (i) in subsection 8.3(1) of 51-102CP, the term “filing a business acquisition report” should be read as “the financial statements used for the optional tests”,
- (j) in section 8.5, and subsection 8.7(4), of 51-102CP, the term “filed” wherever it occurs, should be read as “included in the long form prospectus”,
- (k) in subsection 8.7(1) of 51-102CP, the term “as already filed” should be read as “included in the long form prospectus”,
- (l) in subsection 8.7(2) of 51-102CP, the term “filed under the Instrument” should be read as “included in the long form prospectus”,
- (m) in subsection 8.7(4) of 51-102CP, the term “presented” should be read as “for which financial statements are included in the prospectus”,
- (n) in subsection 8.7(6) of 51-102CP, the term “for which financial statements are included in the long form prospectus” should be added after “financial year”,

- (o) in paragraph 8.8(a) of 51-102CP, the term “prior to the deadline for filing the business acquisition report” should be read as “using the pre-filing procedures referred to in section 5.1 of this Policy”,
- (p) in subsection 8.9(1) of 51-102CP, the term “before the filing deadline for the business acquisition report and before the closing date of the transaction, if applicable. Reporting issuers are reminded that many securities regulatory authorities and regulators do not have the power to grant retroactive relief” should be read as “using the pre-filing procedures referred to in section 5.1 of this Policy”, and
- (q) in subparagraphs 8.9(4)(a)(i) and 8.9(4)(b)(i) of 51-102CP, the term “no later than the time the business acquisition report is required to be filed” wherever it occurs should be read as “using the pre-filing procedures referred to in section 5.1 of this Policy”.
- (r) in subparagraph 8.10(1) of 51-102CP, the term “but must be reviewed” should be added after “may be unaudited”.

Completed significant acquisitions and the obligation to provide business acquisition report level disclosure for a non-reporting issuer

- (2) For an issuer that is not a reporting issuer in any jurisdiction immediately before filing the long form prospectus (a “non-reporting issuer”), the long form prospectus disclosure requirements for a significant acquisition are generally intended to mirror those for reporting issuers subject to Part 8 of NI 51-102. To determine whether an acquisition is significant, non-reporting issuers would first look to the guidance under section 8.3 of NI 51-102. The initial test for significance would be calculated based on the financial statements of the issuer and acquired business or related businesses for the most recently completed financial year of each that ended before the acquisition date.

To recognize the possible growth of a non-reporting issuer between the date of its most recently completed year end and the acquisition date and the corresponding potential decline in significance of the acquisition to the issuer, issuers should refer to the guidance in paragraph 35.1(4)(b) of Form 41-101F1 to perform the optional test. The applicable time period for this optional test for the issuer is the most recently completed interim period or financial year for which financial statements of the issuer are included in the prospectus and for the acquired business or related businesses is the most recently completed interim period or financial year ended before the date of the long form prospectus

The significance thresholds for IPO venture issuers are identical to the significance thresholds for venture issuers.

The timing of the disclosure requirements set out in subsection 35.3(1) of Form 41-101F1 are based on the principles under section 8.2 of NI 51-102. For reporting issuers,

subsection 8.2(2) of NI 51-102 sets out the timing of disclosures for significant acquisitions where the acquisition occurs within 45 days after the year end of the acquired business. However, for IPO venture issuers, paragraph 35.3(1)(d) imposes a disclosure requirement for all significant acquisitions completed more than 90 days before the date of the long form prospectus, where the acquisition occurs within 45 days after the year end of the acquired business. This differs from the business acquisition report filing deadline for venture issuers under paragraph 8.2(2)(b) of NI 51-102 where the business acquisition report deadline for any significant acquisition where the acquisition occurs within 45 days after the year end of the acquired business is within 120 days after the acquisition date.

Probable acquisitions

- (3) When interpreting the phrase “where a reasonable person would believe that the likelihood of the acquisition being completed is high”, it is our view that the following factors may be relevant in determining whether the likelihood of an acquisition being completed is high:
- (a) whether the acquisition has been publicly announced;
 - (b) whether the acquisition is the subject of an executed agreement;
 - (c) the nature of conditions to the completion of the acquisition including any material third party consents required.

The test of whether a proposed acquisition “has progressed to a state where a reasonable person would believe that the likelihood of the acquisition being completed is high” is an objective, rather than subjective, test in that the question turns on what a “reasonable person” would believe. It is not sufficient for an officer of an issuer to determine that he or she personally believes that the likelihood of the acquisition being completed is or is not high. The officer must form an opinion as to what a reasonable person would believe in the circumstances. In the event of a dispute, an objective test requires an adjudicator to decide whether a reasonable person would believe in the circumstances that the likelihood of an acquisition being completed was high. By contrast, if the disclosure requirement involved a subjective test, the adjudicator would assess an individual’s credibility and decide whether the personal opinion of the individual as to whether the likelihood of the acquisition being completed was high was an honestly held opinion. Formulating the disclosure requirement using an objective test rather than a subjective test strengthens the basis upon which the regulator may object to an issuer’s application of the test in particular circumstances.

We generally presume that the inclusion of financial statements or other information is required for all acquisitions that are, or would be, significant under Part 8 of NI 51-102. Reporting issuers can rebut this presumption if they can provide evidence that the financial statements or other information are not required for full, true and plain disclosure.

Satisfactory alternative financial statements or other information

- (4) Issuers must satisfy the disclosure requirements in section 35.5 or section 35.6 of Form 41-101F1 by including either:
- (i) the financial statements or other information that would be required by Part 8 of NI 51-102; or
 - (ii) satisfactory alternative financial statements or other information.

Satisfactory alternative financial statements or other information may be provided to satisfy the requirements of subsection 35.5(3) or subsection 35.6(3) of Form 41-101F1 when the financial statements or other information that would be required by Part 8 of NI 51-102 relate to a financial year ended within 90 days before the date of the long form prospectus or an interim period ended within 60 days before the date of the long form prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers. In these circumstances, we believe that satisfactory alternative financial statements or other information would not have to include any financial statements or other information for the acquisition or probable acquisition related to:

- (a) a financial year ended within 90 days before the date of the long form prospectus; or
- (b) an interim period ended within 60 days before the date of the long form prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers.

An example of satisfactory alternative financial statements or other information that we will generally find acceptable would be:

- (c) comparative annual financial statements or other information for the acquisition or probable acquisition for at least the number of financial years as would be required under Part 8 of NI 51-102 that ended more than 90 days before the date of the long form prospectus, audited for the most recently completed financial period in accordance with section 4.2 of the Instrument, and reviewed for the comparative period in accordance with section 4.3 of the Instrument;
- (d) a comparative interim financial report or other information for the acquisition or probable acquisition for any interim period ended subsequent to the latest annual financial statements included in the long form prospectus and more than 60 days before the date of the long form prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers reviewed in accordance with section 4.3 of the Instrument; and

- (e) pro forma financial statements or other information required under Part 8 of NI 51-102.

If the issuer intends to include financial statements as set out in the example above as satisfactory alternative financial statements, we ask that this be highlighted in the cover letter to the long form prospectus. If the issuer does not intend to include financial statements or other information, or intends to file financial statements or other information that are different from those set out above, the issuer should use the pre-filing procedures in NP 11-202.

Acquired business has recently completed an acquisition

- (5) When an issuer acquires a business or related businesses that has itself recently acquired another business or related businesses (an “indirect acquisition”), the issuer should consider whether long form prospectus disclosure about the indirect acquisition, including historical financial statements, is necessary to satisfy the requirement that the long form prospectus contain full, true and plain disclosure of all material facts relating to the securities being distributed. In making this determination, the issuer should consider the following factors:
- if the indirect acquisition would meet any of the significance tests in section 35.1(4) of Form 41-101F1 when the issuer applies each of those tests to its proportionate interest in the indirect acquisition of the business;
 - if the amount of time between the separate acquisitions is such that the effect of the first acquisition is not adequately reflected in the results of the business or related businesses the issuer is acquiring.

Financial statements or other information

- (6) Paragraphs 35.5(2)(b) and 35.6(2)(b) discuss financial statements or other information for the acquired business or related businesses. This “other information” is intended to capture the financial information disclosures required under Part 8 of NI 51-102 other than financial statements. An example of “other information” would include the operating statements, property descriptions, production volumes and reserves disclosures described under section 8.10 of NI 51-102.
- (7) Section 3.11 of NI 52-107 permits acquisition statements included in a business acquisition report or prospectus to be prepared in accordance with Canadian GAAP applicable to private enterprises in certain circumstances. The ability to present acquisition statements using Canadian GAAP applicable to private enterprises would not extend to a situation where an entity acquired or to be acquired is considered the primary business or the predecessor of the issuer. and the issuer must provide financial statements for this acquisition under Item 32.

Financial statements for acquisitions of a predecessor entity, a business or businesses acquired by reporting and non-reporting issuers

~~Pro forma financial statements for acquisitions of a predecessor entity, a business or businesses acquired by the issuer, or other entity~~

5.10(1) The financial statements for acquisitions of a predecessor entity, a business or businesses acquired by the issuer, or other entity must be ~~filed~~included in the prospectus under Item 32 of Form 41-101F1, if the entities or businesses satisfy the conditions of paragraph 32.1(a), (b), or (c) of Form 41-101F1. ~~Despite this requirement, acquisitions of a predecessor entity, a business or businesses acquired by the issuer, or other entity may also be subject to the requirements in Item 35 of Form 41-101F1. For example, the long form prospectus should include pro forma financial statements and a description of the entities or businesses.~~1(a), (b), or (c) unless, as contemplated in subsection 32.1(2) with respect to paragraph 32.1(1)(a) or (b)

- (a) the issuer was a reporting issuer in any jurisdiction of Canada on the acquisition date in the case of a completed acquisition or immediately prior to the prospectus filing in the case of a proposed acquisition,
- (b) the issuer did not have only cash, cash equivalents or an exchange listing as its principal asset, and
- (c) the issuer provides disclosure under Item 35 of Form 41-101F1.

The disclosure requirements applicable to a reporting issuer in Item 35 are intended to reflect the requirements that would be prescribed for such acquisitions in the reporting issuer's business acquisition report.

(2) An issuer that is subject to Item 32 must also consider the necessity of including pro forma financial statements pursuant to section 32.7 of Form 41-101F1 to illustrate the impact of the acquisition on the issuer's financial position and results of operations. However, these pro forma financial statements are only required if their inclusion is necessary for the prospectus to contain full, true and plain disclosure of all material facts relating to the securities being distributed. Examples of when pro forma financial statements would likely be necessary are in cases where:

- (a) the issuer has acquired multiple businesses over the relevant period; or
- (b) the issuer has an active business and has acquired another business that will constitute its primary business going forward.

In certain circumstances, an issuer may need to disclose multiple acquisitions in its prospectus where the acquisitions include an acquisition of a primary business or predecessor entity to which section 32.1 of Form 41-101F1 applies and a significant acquisition to which only item 35 of Form 41-101F1 applies. In this case, the issuer may

wish to present one set of pro forma financial statements reflecting the results of all of the acquisitions, as contemplated separately in each of sections 32.8 and 35.7 of Form 41-101F1. The securities regulatory authority or regulator would not generally object to providing this relief. However the issuer must request the relief when filing its preliminary prospectus.

PART 6: Advertising or Marketing Activities in Connection with Prospectus Offerings

Scope

- 6.1(1)** The discussion below is focused on the impact of the prospectus requirement on advertising or marketing activities in connection with a prospectus offering.
- (2) Issuers and market participants who engage in advertising or marketing activities must also consider the impact of the registration requirement in each jurisdiction where such advertising or marketing activities are undertaken. Unless an exemption to the registration requirement is available, such activities may be made only by a person or company who is registered in the appropriate category having regard to the securities that are the subject of the advertising or marketing activities.
- (3) Advertising or marketing activities are also subject to regulation under securities legislation and other rules, including those relating to disclosure, and insider trading and registration, which are not discussed below.

The prospectus requirement

- 6.2(1)** Securities legislation generally provides that no one may trade in a security where that trade would be a distribution unless the prospectus requirement has been satisfied, or an exemption is available.
- (2) The analysis of whether any particular advertising or marketing activities is prohibited by virtue of the prospectus requirement turns largely on whether the activities constitute a trade and, if so, whether such a trade would constitute a distribution.
- (3) In Québec, since securities legislation has been designed without the notion of a “trade”, the analysis is dependent solely on whether the advertising or marketing activities constitute a distribution.

Definition of “trade”

- (4) Securities legislation (other than the securities legislation of Québec) defines a “trade” in a non-exhaustive manner to include, among other things
- any sale or disposition of a security for valuable consideration,
 - any receipt by a registrant of an order to buy or sell a security, and

- any act, advertisement, solicitation, conduct or negotiation directly or indirectly in furtherance of any of the foregoing.
- (5) Any advertising or marketing activities that can be reasonably regarded as intended to promote a distribution of securities would be “conduct directly or indirectly in furtherance” of the distribution of a security and, therefore, would fall within the definition of a trade.

Definition of distribution

- (6) Even though advertising or marketing activities constitute a “trade” for the purposes of securities legislation (other than the securities legislation of Québec), they would be prohibited by virtue of the prospectus requirement only if they also constitute a distribution under securities legislation. Securities legislation (other than the securities legislation of Québec) defines a distribution to include a “trade” in, among other things, previously unissued securities and securities that form part of a control block.
- (7) The definition of distribution under the securities legislation of Québec includes the endeavour to obtain or the obtaining of subscribers or purchasers of previously unissued securities.

Prospectus exemptions

- (8) It has been suggested by some that advertising or marketing activities, even if clearly made in furtherance of a distribution, could be undertaken in certain circumstances on a prospectus exempt basis. Specifically, it has been suggested that if an exemption from the prospectus requirement is available in respect of a specific distribution (even though the securities will be distributed under a prospectus), advertising or marketing related to such distribution would be exempt from the prospectus requirement. This analysis is premised on an argument that the advertising or marketing activities constitute one distribution that is exempt from the prospectus requirement while the actual sale of the security to the purchaser constitutes a second discrete distribution effected pursuant to the prospectus.
- (9) We are of the view that this analysis is contrary to securities legislation. In these circumstances, the distribution in respect of which the advertising or marketing activities are undertaken is the distribution pursuant to the anticipated prospectus. Advertising or marketing must be viewed in the context of the prospectus offering and as an activity in furtherance of that distribution. If it were otherwise, the overriding concerns implicit and explicit in securities legislation regarding equal access to information, conditioning of the market, tipping and insider trading, and the provisions of the legislation designed to ensure such access to information and curb such abuses, could be easily circumvented.
- (10) We recognize that an issuer and a dealer may have a demonstrable *bona fide* intention to effect an exempt distribution and this distribution may be abandoned in favour of a prospectus offering. In these very limited circumstances, there may be two separate

distributions. From the time when it is reasonable for a dealer to expect that a *bona fide* exempt distribution will be abandoned in favour of a prospectus offering, the general rules relating to advertising or marketing activities that constitute an act in furtherance of a distribution will apply.

Advertising or marketing activities

6.3(1) The prospectus requirement applies to any act, advertisement, solicitation, conduct or negotiation directly or indirectly in furtherance of a distribution unless a prospectus exemption is available. Accordingly, advertising or marketing activities intended to promote the distribution of securities, in any form, would be prohibited by virtue of the prospectus requirement. Advertising or marketing activities subject to the prospectus requirement may be oral, written or electronic and include the following:

- television or radio advertisements or commentaries;
- published materials;
- correspondence;
- records;
- videotapes or other similar material;
- market letters;
- research reports;
- circulars;
- promotional seminar text;
- telemarketing scripts;
- reprints or excerpts of any other sales literature.

(2) Advertising or marketing activities that are not in furtherance of a distribution of securities would not generally fall within the definition of a distribution and, therefore, would not be prohibited by virtue of the prospectus requirement. The following activities would not generally be subject to the prospectus requirement:

- advertising and publicity campaigns that are aimed at either selling products or services of the issuer or raising public awareness of the issuer;
- communication of factual information concerning the business of the issuer that is released in a manner, timing and form that is consistent with the regular past

communications practices of the issuer if that communication does not refer to or suggest the distribution of securities;

- the release or filing of information that is required to be released or filed pursuant to securities legislation.
- (3) Any activities that form part of a plan or series of activities undertaken in anticipation or in furtherance of a distribution would usually trigger the prospectus requirement, even if they would be permissible if viewed in isolation. Similarly, we may still consider advertising or marketing activities that do not indicate that a distribution of securities is contemplated to be in furtherance of a distribution by virtue of their timing and content. In particular, where a private placement or other exempt distribution occurs prior to or contemporaneously with a prospectus offering, we may consider activities undertaken in connection with the exempt distribution as being in furtherance of the prospectus offering.

Pre-marketing and solicitation of expressions of interest in the context of a bought deal

- 6.4(1) In general, any advertising or marketing activities undertaken in connection with a prospectus prior to the issuance of a receipt for the preliminary prospectus are prohibited under securities legislation by virtue of the prospectus requirement.
- (2) In the context of a bought deal, a limited exception to the prospectus requirement has been provided in Part 7 of NI 44-101. The exception is limited to communications by a dealer, directly or through any of its directors, officers, employees or agents, with any person or company (other than another dealer) for the purpose of obtaining from that person or company information as to the interest that it, or any person or company that it represents, may have in purchasing securities of the type that are proposed to be distributed, prior to a preliminary prospectus relating to those securities being filed with the relevant securities regulatory authorities.
- (3) The conditions set out in Part 7 of NI 44-101, including the entering into of an enforceable agreement between the issuer and an underwriter or underwriters who have agreed to purchase the securities and the issuance and filing of a press release announcing the agreement, must be satisfied prior to any solicitation of expressions of interest.
- (4) A distribution of securities commences at the time when
- a dealer has had discussions with an issuer or a selling securityholder, or with another dealer that has had discussions with an issuer or a selling securityholder about the distribution, and
 - those distribution discussions are of sufficient specificity that it is reasonable to expect that the dealer (alone or together with other dealers) will propose to the issuer or the selling securityholder an underwriting of the securities.

- (5) We understand that many dealers communicate on a regular basis with clients and prospective clients concerning their interest in purchasing various securities of various issuers. We will not generally consider such ordinary course communications as being made in furtherance of a distribution. However, from the commencement of a distribution, communications by the dealer, with a person or company designed to have the effect of determining the interest that it, or any person or company that it represents, may have in purchasing securities of the type that are the subject of distribution discussions, that are undertaken by any director, officer, employee or agent of the dealer
- (a) who participated in or had actual knowledge of the distribution discussions, or
 - (b) whose communications were directed, suggested or induced by a person referred to in (a), or another person acting directly or indirectly at or upon the direction, suggestion or inducement of a person referred to in (a),
- are considered to be in furtherance of the distribution and contrary to securities legislation.
- (6) From the commencement of the distribution no communications, market making, or other principal trading activities in securities of the type that are the subject of distribution discussions may be undertaken by a person referred to in paragraph 5(a), above, or at or upon the direction, suggestion or inducement of a person or persons referred to in paragraph 5(a) or (b) above until the earliest of
- the issuance of a receipt for a preliminary prospectus in respect of the distribution,
 - the time at which a press release that announces the entering into of an enforceable agreement in respect of a bought deal is issued and filed in accordance with Part 7 of NI 44-101, and
 - the time at which the dealer determines not to pursue the distribution.
- (7) We note that the Investment Industry Regulatory Organization of Canada has adopted IIROC Rule 29.13 which is consistent with the above discussion relating to pre-marketing of bought deals of equity securities. However, the principles articulated above apply to all offerings, whether of debt or equity securities, or a combination.

Advertising or marketing activities during the waiting period

- 6.5(1)** Securities legislation provides an exception to the prospectus requirement for limited advertising or marketing activities during the waiting period between the issuance of the receipt for the preliminary prospectus and the receipt for the final prospectus. Despite the prospectus requirement, it is permissible during the waiting period to
- (a) distribute notices, circulars, advertisements, letters or other communications that

- “identify” the securities proposed to be issued,
- state the price of such securities, if then determined, and
- state the name and address of a person or company from whom purchases of securities may be made,

provided that any such notice, circular, advertisement, letter or other communication states the name and address of a person or company from whom a preliminary prospectus may be obtained,

- (b) distribute the preliminary prospectus, and
 - (c) solicit expressions of interest from a prospective purchaser, if prior to such solicitation or forthwith after the prospective purchaser indicates an interest in purchasing the securities, a copy of the preliminary prospectus is forwarded to the prospective purchaser.
- (2) The use of any other marketing information or materials during the waiting period would result in the violation of the prospectus requirement.
- (3) The “identification” of the security does not permit an issuer or dealer to include a summary of the commercial features of the issue. These details are set out in the preliminary prospectus which is intended as the main disclosure vehicle pending the issuance of the final receipt. The purpose of the permitted advertising or marketing activities during the waiting period is essentially to alert the public to the availability of the preliminary prospectus.
- (4) For the purpose of identifying a security, the advertising or marketing material may only
- indicate whether a security represents debt or a share in a company or an interest in a non-corporate entity (e.g. a unit of undivided ownership in a film property) or a partnership interest,
 - name the issuer if the issuer is a reporting issuer, or name and describe briefly the business of the issuer if the issuer is not already a reporting issuer (the description of the business should be cast in general terms and should not attempt to summarize the proposed use of proceeds),
 - indicate, without giving details, whether the security qualifies the holder for special tax treatment, and
 - indicate how many securities will be made available.

Green sheets

- 6.6(1)** Some dealers prepare summaries of the principal terms of an offering, sometimes referred to as green sheets. Typically green sheets include information beyond the limited information for which an exemption to the prospectus requirement is available during the waiting period. If so, we would consider the distribution of a green sheet to a potential investor to contravene the prospectus requirement.
- (2)** Including material information in a green sheet or other marketing communication that is not contained in the preliminary prospectus could indicate a failure to provide in the preliminary prospectus full, true and plain disclosure of all material facts relating to the securities offered by the prospectus and result in the prospectus certificate constituting a misrepresentation.
- (3)** We may request copies of green sheets and other advertising or marketing materials as part of our prospectus review procedures. Any discrepancies between the content of a green sheet and the preliminary prospectus could result in the delay or refusal of a receipt for a final prospectus and, in appropriate circumstances, could result in enforcement action.

Advertising or marketing activities following the issuance of a receipt for a final prospectus

- 6.7** Advertising or marketing activities that are not prohibited by the prospectus requirement during the waiting period may also be undertaken on the same basis after a receipt has been issued for the final prospectus relating to the distribution. In addition, the prospectus and any document filed with or referred to in the prospectus may be distributed.

Sanctions and enforcement

- 6.8** Any contravention of the prospectus requirement through the advertising or marketing activities is a serious matter that could result in a cease trade order in respect of the preliminary prospectus to which such advertising or marketing activities relate. In addition, a receipt for a final prospectus relating to any such offering may be refused. In appropriate circumstances, enforcement proceedings may be initiated.

Media reports and coverage

- 6.9(1)** We recognize that an issuer does not have control over media coverage; however, an issuer should take appropriate precautions to ensure that media coverage which can reasonably be considered to be in furtherance of a distribution of securities does not occur after a decision has been made to file a preliminary prospectus or during the waiting period.
- (2)** We may investigate the circumstances surrounding media coverage of an issuer which appears immediately prior to or during the waiting period and which can reasonably be

considered as being in furtherance of a distribution of securities. Action will be taken in appropriate circumstances.

Disclosure practices

6.10 At a minimum, participants in all prospectus distributions should consider the following practices to avoid contravening securities legislation:

- Directors or officers of an issuer should not give interviews to the media immediately prior to or during the waiting period. Directors and officers should normally limit themselves to responding to unsolicited inquiries of a factual nature made by shareholders, securities analysts, financial analysts, the media and others who have a legitimate interest in such information.
- No director or officer of an issuer should make any statement during the period of distribution of securities (which includes the period from the commencement of the distribution as described in subsection 6.4(4) until the closing of the distribution) which constitutes a forecast, projection or prediction with respect to future financial performance, unless that statement relates to and is consistent with a forecast contained in the prospectus.
- Underwriters and legal counsel have the responsibility of ensuring that the issuer and all directors and officers of the issuer who may come in contact with the media are fully aware of the restrictions applicable during the period of distribution of securities. It is not sufficient to make those restrictions known only to the officers comprising the working group.
- Issuers, dealers and other market participants should develop, implement, maintain and enforce procedures to ensure that advertising or marketing activities that are contrary to securities legislation are not undertaken whether intentionally or through inadvertence.

Misleading or untrue statements

6.11 In addition to the prohibitions on advertising or marketing activities that result from the prospectus requirement, securities legislation in certain jurisdictions prohibits any person or company from making any misleading or untrue statements that would reasonably be expected to have a significant effect on the market value of securities. Therefore, in addition to ensuring that advertising or marketing activities are carried out in compliance with the prospectus requirement, issuers, dealers and their advisors must ensure that any statements made in the course of advertising or marketing activities are not untrue or misleading and otherwise comply with securities legislation.

PART 7: TRANSITION

Transition – Application of Amendments

- 7.1** The amendments to the Instrument and this Policy which came into effect on January 1, 2011 only apply to a preliminary prospectus, an amendment to a preliminary prospectus, a final prospectus or an amendment to a final prospectus of an issuer which includes financial statements of the issuer in respect of periods relating to financial years beginning on or after January 1, 2011.

Schedule E-2

Changes to Companion Policy 44-101 CP to National Instrument 44-101 Short Form Prospectus Distributions

1. The changes to Companion Policy 44-101 CP to National Instrument 44-101 Short Form Prospectus Distributions are set out in this schedule.

2. Subsection 1.7(5) is changed by

(a) replacing “The definition of “successor issuer” requires that the issuer exist “as a result of a restructuring transaction”.” with the following:

“A successor issuer is defined to include a reverse takeover acquiree in a completed reverse takeover. Alternatively, the definition of “successor issuer” requires that the issuer was formed “as a result of a restructuring transaction” or that the issuer participate in the restructuring transaction and continue to exist following completion of the restructuring transaction. In both instances, prospectus level disclosure or comparable disclosure prescribed by the TSX Venture Exchange for such issuer must be provided in an information circular or similar disclosure document pursuant to subsections 2.7(2) and (3) of NI 44-101.”,

(b) replacing “existing” with “having been formed”,

(c) deleting the following:

“Also, if a corporation is incorporated for the sole purpose of facilitating a restructuring transaction, the securities regulatory authorities regard the new corporation as “existing as a result of a restructuring transaction” despite the fact that the corporation may have been incorporated before the restructuring transaction.”, **and**

(d) adding the following at the end:

“However, if the divestiture represents a divestiture of substantially all of the business of the predecessor entity to the issuer, the issuer would be considered a successor issuer. In such circumstances, the financial information concerning the predecessor entity should be representative of the financial information of the successor issuer. Therefore, if an issuer is relying on this basis for short form prospectus qualification, it must ensure that the financial statements of the

predecessor entity are a relevant, accurate proxy for its financial statements as a successor issuer.

An issuer may also be considered a successor issuer to a second issuer where there has been an internal reorganization of the second issuer, provided that the conditions in paragraph (b) of the definition of “successor issuer” are met. In particular, the internal reorganization must not result in an alteration of the securityholders’ proportionate interest in the second issuer nor the second issuer’s proportionate interest in its assets. For example, this may arise in an internal reorganization in which all of the securityholders of the second issuer exchange their securities in the second issuer for securities of the successor issuer. The second issuer would become a subsidiary of the successor issuer and its ownership in its assets would remain the same. The successor issuer definition was expanded to include this type of internal reorganization as it may not be considered a “restructuring transaction” as defined in NI 51-102 by virtue of the exclusion found at the end of the definition of “restructuring transaction”.

3. ***Subsection 2.1(1) is changed in the second paragraph by deleting “and, in Québec, disclosure of material facts likely to affect the value or the market price of the securities to be distributed”.***

4. ***Part 3 is changed by***

(a) adding the following section after section 3.2:

“3.2.1 Personal information forms – (1) If issuers are relying upon a previously delivered personal information form or predecessor personal information form pursuant to subsections 4.1(2) or 4.1(3) of NI 44-101, issuers are reminded of paragraphs 4.1(2)(b) and 4.1(3)(b), which require that the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements issuers should obtain appropriate confirmations from the individual concerned.

(2) Paragraph 4.1(2)(c) of NI 44-101 requires that in certain circumstances an issuer deliver a copy of a previously delivered personal information form, or “alternative information that is satisfactory to the regulator”. Our interpretation of what would potentially be alternative information that is satisfactory to the regulator is, with respect to the previous delivery of an individual’s personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact issuers in cases where it is not. Issuers wishing to proceed in this manner should provide the information in the cover letter for the preliminary short form prospectus.

(3) If an issuer is delivering a copy of a previously delivered personal information form pursuant to paragraph 4.1(2)(c) of NI 44-101, the issuer should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered.”

(b) adding the following section after section 3.4:

“3.4.1 Special meeting information circular – Subsection 11.1(3) of Form 44-101F1 sets out certain circumstances where an issuer is not required to incorporate by reference into its prospectus a report, valuation, statement or opinion of an expert that is indirectly incorporated by reference into its prospectus through the incorporation by reference of an information circular prepared for a special meeting of the issuer. A special meeting information circular often relates to a restructuring transaction of an issuer or other special business of the issuer. In these circumstances, the issuer or its board of directors may engage an expert to provide an opinion that is specific to the business that will be considered at the special meeting of securityholders. For example, the board may retain a person or company to provide a fairness opinion which would assist the board in determining whether to recommend the approval of the proposed transaction to its securityholders. Similarly, the issuer may include a tax opinion in the information circular to illustrate the tax consequences of the proposed transaction to its securityholders. Pursuant to subsection 11.1(3), we would not require the incorporation by reference of these particular opinions, provided that these opinions were prepared in respect of the specific transaction contemplated in the information circular and this transaction has been completed or abandoned prior to the filing of the prospectus.”, **and**

(c) adding the following section after section 3.9:

“3.10 No Minimum Offering Amount – Issuers distributing securities on a best efforts basis that have not specified a minimum offering amount in their prospectus, should refer to section 2.2.1 and subsection 4.3(3) of the Companion Policy to NI 41-101 for further guidance.”.

5. These changes become effective on May 14, 2013.

FORM 44-101F1
SHORT FORM PROSPECTUS

INSTRUCTIONS

- (1) *The objective of the short form prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*
- (2) *Terms used and not defined in this Form that are defined or interpreted in the Instrument or NI 41-101 bear that definition or interpretation. Other definitions are set out in NI 14-101.*
- (3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgement in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect.*
- (4) *Unless an item specifically requires disclosure only in the preliminary short form prospectus, the disclosure requirements set out in this Form apply to both the preliminary short form prospectus and the short form prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary short form prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*
- (5) *Any information required in a short form prospectus may be incorporated by reference in the short form prospectus, other than confidential material change reports. Clearly identify in a short form prospectus any document incorporated by reference. If an excerpt of a document is incorporated by reference, clearly identify the excerpt in the short form prospectus by caption and paragraph of the document. Any material incorporated by reference in a short form prospectus is required under sections 4.1 and 4.2 of the Instrument to be filed with the short form prospectus unless it has been previously filed.*

- (6) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.2 of Companion Policy 44-101CP Short Form Prospectus Distributions. If technical terms are required, clear and concise explanations should be included.*
- (7) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*
- (8) *Where the term “issuer” is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons or companies that the issuer is required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including “subsidiaries” as that term is used in Canadian GAAP applicable to publicly accountable enterprises). If it is more likely than not that a person or company will become an entity that the issuer will be required, under the issuer’s GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person or company.*
- (9) *An issuer that is a special purpose entity may have to modify the disclosure items to reflect the special purpose nature of its business.*
- (10) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (11) *If the term “class” is used in any item to describe securities, the term includes a series of a class.*
- (12) *Disclosure in a preliminary short form prospectus or short form prospectus must be consistent with NI 51-101 if the issuer is engaged in oil and gas activities (as defined in NI 51-101).*
- (13) *Forward-looking information included in a short form prospectus must comply with section 4A.2 of NI 51-102 and must include the disclosure described in section 4A.3 of NI 51-102. In addition to the foregoing, FOFI or a financial outlook, each as defined in NI 51-102, included in a short form prospectus must comply with Part 4B of NI 51-102. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer, section 4A.2, section 4A.3 and Part 4B of NI 51-102 apply as if the issuer or other entity were a reporting issuer.*

- (14) *If an issuer discloses financial information in a short form prospectus in a currency other than the Canadian dollar, prominently display the presentation currency.*
- (15) *Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*
- (16) *Certain requirements in this Form make reference to requirements in another instrument or form. Unless this Form states otherwise, issuers must also follow the instructions or requirements in the other instrument or form.*
- (17) *Wherever this Form uses the word “subsidiary”, the term includes companies and other types of business organizations such as partnerships, trusts, and other unincorporated business entities.*
- (18) *Issuers must supplement any disclosure incorporated by reference into a short form prospectus if that supplemented disclosure is necessary to ensure that the short form prospectus provides full, true and plain disclosure of all material facts related to the securities to be distributed as required under Item 18 of this Form.*

COMPANION POLICY 44-101CP TO NATIONAL INSTRUMENT 44-101 *SHORT FORM PROSPECTUS DISTRIBUTIONS*

PART 1 INTRODUCTION AND DEFINITIONS

- 1.1 Introduction and Purpose** – National Instrument 44-101 *Short Form Prospectus Distributions* (“NI 44-101”) sets out the substantive tests for an issuer to qualify to file a prospectus in the form of a short form prospectus. The purpose of NI 44-101 is to shorten the time period in which, and streamline the procedures by which, qualified issuers and their selling securityholders can obtain access to the Canadian capital markets through a prospectus offering.

British Columbia, Alberta, Ontario, Manitoba, Nova Scotia and New Brunswick have adopted NI 44-101 by way of rule. Saskatchewan and Québec have adopted it by way of regulation. All other jurisdictions have adopted NI 44-101 by way of related blanket ruling or order. Each jurisdiction implements NI 44-101 by one or more instruments forming part of the law of that jurisdiction (referred to as the “implementing law of the jurisdiction”). Depending on the jurisdiction, the implementing law of the jurisdiction can take the form of regulation, rule, ruling or order.

This Companion Policy to NI 44-101 (also referred to as “this Companion Policy” or this “Policy”) provides information relating to the manner in which the provisions of NI 44-101 are intended to be interpreted or applied by the provincial and territorial securities regulatory authorities, as well as the exercise of discretion under NI 44-101. The Companion Policy to NI 41-101 provides guidance for prospectuses filed under securities legislation including short form prospectuses. Issuers should refer to the Companion Policy to NI 41-101 as well as this Policy.

Terms used and not defined in this Companion Policy that are defined or interpreted in NI 44-101, NI 41-101 or a definition instrument in force in the jurisdiction should be read in accordance with NI 44-101, NI 41-101 or the definition instrument, unless the context otherwise requires.

To the extent that any provision of this Policy is inconsistent or conflicts with the applicable provisions of NI 44-101 and NI 41-101 in those jurisdictions that have adopted NI 44-101 by way of related blanket ruling or order, the provisions of NI 44-101 and NI 41-101 prevail over the provisions of this Policy.

- 1.2 Interrelationship with Local Securities Legislation** – NI 44-101 and NI 41-101, while being the primary instruments regulating short form prospectus distributions, are not exhaustive. Issuers are reminded to refer to the implementing law of the jurisdiction and

other securities legislation of the local jurisdiction for additional requirements that may be applicable to the issuer's short form prospectus distribution.

- 1.3 Interrelationship with Continuous Disclosure (NI 51-102 and NI 81-106)** – The short form prospectus distribution system established under NI 44-101 is based on the continuous disclosure filings of reporting issuers pursuant to NI 51-102 or, in the case of an investment fund, NI 81-106. Issuers who wish to use the system should be mindful of their ongoing disclosure and filing obligations under the applicable CD rule. Issues raised in the context of a continuous disclosure review may be taken into consideration by the regulator when determining whether it is in the public interest to refuse to issue a receipt for a short form prospectus. Consequently, unresolved issues may delay or prevent the issuance of a receipt.
- 1.4 Process for Prospectus Reviews in Multiple Jurisdictions (NP 11-202)** – National Policy 11-202 *Process for Prospectus Reviews in Multiple Jurisdictions* ("NP 11-202") describes the process for filing and review of prospectuses, including investment fund and shelf prospectuses, amendments to prospectuses and related materials in multiple jurisdictions. NP 11-202 represents the means by which an issuer can enjoy the benefits of co-ordinated review by the securities regulatory authorities in the various jurisdictions in which the issuer has filed a prospectus. Under NP 11-202, one securities regulatory authority acts as the principal regulator for all materials relating to a filer.
- 1.5 Interrelationship with Shelf Distributions (NI 44-102)** – Issuers qualified under NI 44-101 to file a prospectus in the form of a short form prospectus and their securityholders can distribute securities under a short form prospectus using the shelf distribution procedures under NI 44-102. The Companion Policy to NI 44-102 explains that the distribution of securities under the shelf system is governed by the requirements and procedures of NI 44-101 and securities legislation, except as supplemented or varied by NI 44-102. Therefore, issuers qualified to file a prospectus in the form of a short form prospectus and selling securityholders of those issuers that wish to distribute securities under the shelf system should have regard to NI 44-101 and this Policy first, and then refer to NI 44-102 and the accompanying policy for any additional requirements.
- 1.6 Interrelationship with PREP Procedures (NI 44-103)** – NI 44-103 contains the post-receipt pricing procedures (the "PREP procedures"). All issuers and selling securityholders can use the PREP procedures of NI 44-103 to distribute securities, other than rights under a rights offering. Issuers and selling securityholders that wish to distribute securities under a prospectus in the form of a short form prospectus using the PREP procedures should have regard to NI 44-101 and this Policy first, and then refer to NI 44-103 and the accompanying policy for any additional requirements.
- 1.7 Definitions**
 - (1) **Approved rating** – Cash settled derivatives are covenant-based instruments that may be rated on a similar basis to debt securities. In addition to the creditworthiness of the issuer, other factors such as the continued subsistence of

the underlying interest or the volatility of the price, value or level of the underlying interest may be reflected in the rating analysis for cash settled derivatives. These additional factors may be described by a rating agency by way of a superscript or other notation to a rating. The inclusion of such notations for covenant-based instruments that otherwise fall within one of the categories of an approved rating does not detract from the rating being considered to be an approved rating for the purposes of NI 44-101.

A rating agency may also restrict its rating to securities of an issuer that are denominated in local currency. This restriction may be denoted, for example, by the designation “LC”. The inclusion of such a designation in a rating that would otherwise fall within one of the categories of an approved rating does not detract from the rating being considered to be an approved rating for the purposes of NI 44-101.

- (2) **Asset-backed security** – Issuers should refer to section 1.3(1) of the Companion Policy to NI 44-101.
- (3) **Current AIF** – An issuer’s AIF filed under the applicable CD rule is a “current AIF” until the issuer files an AIF for the next financial year, or is required by the applicable CD rule to have filed its annual financial statements for the next financial year. If an issuer fails to file a new AIF by the filing deadline under the applicable CD rule for its annual financial statements, it will not have a current AIF and will not qualify under NI 44-101 to file a prospectus in the form of a short form prospectus. If an issuer files a revised or amended AIF for the same financial year as an AIF that has previously been filed, the most recently filed AIF will be the issuer’s current AIF.

An issuer that is a *venture issuer* for the purpose of NI 51-102, and certain investment funds, may have no obligation under the applicable CD rule to file an AIF. However, to qualify under NI 44-101 to file a prospectus in the form of a short form prospectus, that issuer will be required to file an AIF in accordance with the applicable CD rule so as to have a “current AIF”. A current AIF filed by an issuer that is a venture issuer for the purposes of NI 51-102 can be expected to expire later than a non-venture issuer’s AIF, due to the fact that the deadlines for filing annual financial statements under NI 51-102 are later for venture issuers than for other issuers.

- (4) **Current annual financial statements** – An issuer’s comparative annual financial statements filed under the applicable CD rule, together with the accompanying auditor’s report, are “current annual financial statements” until the issuer files, or is required under the applicable CD rule to have filed, its comparative annual financial statements for the next financial year. If an issuer fails to file its comparative annual financial statements by the filing deadline under the applicable CD rule, it will not have current annual financial statements and will

not be qualified under NI 44-101 to file a prospectus in the form of a short form prospectus.

Where there has been a change of auditor and the new auditor has not audited the comparative period, the report of the predecessor auditor on the comparative period must be included in the prospectus. The issuer may file the report of the predecessor auditor on the comparative period with the annual financial statements that are being incorporated by reference into the short form prospectus, and clearly incorporate by reference the predecessor auditor's report in addition to the new auditor's report. Alternatively, the issuer can incorporate by reference into the short form prospectus its comparative financial statements filed for the previous year, including the audit reports thereon.

- (5) **Successor Issuer** – ~~The~~A successor issuer is defined to include a reverse takeover acquiree in a completed reverse takeover. Alternatively, the definition of “successor issuer” requires that the issuer ~~exist~~was formed “as a result of a restructuring transaction”.~~— or that the issuer participate in the restructuring transaction and continue to exist following completion of the restructuring transaction. In both instances, prospectus level disclosure or comparable disclosure prescribed by the TSX Venture Exchange for such issuer must be provided in an information circular or similar disclosure document pursuant to subsections 2.7(2) and (3) of NI 44-101.~~

In the case of an amalgamation, the amalgamated corporation is regarded by the securities regulatory authorities as ~~existing “as a result of a restructuring transaction”~~. ~~Also, if a corporation is incorporated for the sole purpose of facilitating a restructuring transaction, the securities regulatory authorities regard the new corporation as “existing as a result of a restructuring transaction” despite the fact that the corporation may have been incorporated before the~~having been formed “as a result of a restructuring transaction”.

The definition of “successor issuer” also contains an exclusion applicable to divestitures. For example, an issuer may carry out a restructuring transaction that results in the distribution to securityholders of a portion of its business or the transfer of a portion of its business to another issuer. In that case, the entity that carries on the portion of the business that was “spun-off” is not a successor issuer within the meaning of the definition.

However, if the divestiture represents a divestiture of substantially all of the business of the predecessor entity to the issuer, the issuer would be considered a successor issuer. In such circumstances, the financial information concerning the predecessor entity should be representative of the financial information of the successor issuer. Therefore, if an issuer is relying on this basis for short form prospectus qualification, it must ensure that the financial statements of the predecessor entity are a relevant, accurate proxy for its financial statements as a successor issuer.

An issuer may also be considered a successor issuer to a second issuer where there has been an internal reorganization of the second issuer, provided that the conditions in paragraph (b) of the definition of “successor issuer” are met. In particular, the internal reorganization must not result in an alteration of the securityholders’ proportionate interest in the second issuer nor the second issuer’s proportionate interest in its assets. For example, this may arise in an internal reorganization in which all of the securityholders of the second issuer exchange their securities in the second issuer for securities of the successor issuer. The second issuer would become a subsidiary of the successor issuer and its ownership in its assets would remain the same. The successor issuer definition was expanded to include this type of internal reorganization as it may not be considered a “restructuring transaction” as defined in NI 51-102 by virtue of the exclusion found at the end of the definition of “restructuring transaction”.

PART 2 QUALIFICATION TO FILE A PROSPECTUS IN THE FORM OF A SHORT FORM PROSPECTUS

2.1 Basic Qualification Criteria – Reporting Issuers with Equity Securities Listed on a Short Form Eligible Exchange (Section 2.2 of NI 44-101)

- (1) Section 2.2 of NI 44-101 provides that an issuer with equity securities listed and posted for trading on a short form eligible exchange and that is up-to-date in its periodic and timely disclosure filings in all jurisdictions in which it is a reporting issuer satisfies the criteria for being qualified to file a prospectus in the form of a short form prospectus if it meets the other general qualification criteria. In addition to the listing requirement, the issuer may not be an issuer whose operations have ceased or whose principal asset is its exchange listing. The purpose of this requirement is to ensure that eligible issuers have an operating business in respect of which the issuer must provide current disclosure through application of the applicable CD rule.

The basic qualification criteria are structured to allow most Canadian listed issuers to participate in the expedited offering system created by NI 44-101, provided their public disclosure record provides investors with satisfactory and sufficient information about the issuer and its business, operations or capital. The securities regulatory authorities believe that it is in the public interest to allow an issuer’s public disclosure to be incorporated into a short form prospectus, provided that the resulting prospectus provides prospective investors with full, true and plain disclosure about the issuer and the securities being distributed. The securities regulatory authority may not be prepared to issue a receipt for a short form prospectus if the prospectus, together with the documents incorporated by reference, fails to provide such full, true and plain disclosure ~~and, in Québec, disclosure of material facts likely to affect the value or the market price of the securities to be distributed.~~ In such circumstances, the securities regulatory authority may require, in the public interest, that the issuer utilize the long form

prospectus regime. In addition, the securities regulatory authority may also require that the issuer utilize the long form prospectus regime if the offering is, in essence, an initial public offering by a business or if:

- (a) the offering is for the purpose of financing a dormant or inactive issuer whether or not the issuer intends to use the proceeds to reactivate the issuer or to acquire an active business; or
 - (b) the offering is for the purpose of financing a material undertaking that would constitute a material departure from the business or operations of the issuer as at the date of its current annual financial statements and current AIF.
- (2) A new reporting issuer or a successor issuer may satisfy the criteria to have current annual financial statements or a current AIF by filing its comparative annual financial statements or an AIF, respectively, in accordance with NI 51-102 or NI 81-106, as applicable, for its most recently completed financial year. It is not necessary that the issuer be required by the applicable CD rule to have filed such documents. An issuer may voluntarily choose to file either of these documents in accordance with the applicable CD rule for the purposes of satisfying the eligibility criteria under NI 44-101.

Alternatively, an issuer may rely on the exemption from the requirement to file such documents in section 2.7 of NI 44-101. That section provides an exemption from the current AIF and current annual financial statement requirements for new reporting issuers and successor issuers who have not yet been required to file such documents and who have filed a prospectus or information circular containing disclosure which would have been included in such documents had they been filed under the applicable CD rule.

- (3) An issuer need not have filed all of its continuous disclosure filings in the local jurisdiction in order to be qualified to file a short form prospectus, but under sections 4.1 and 4.2 of NI 44-101 it will be required to file in the local jurisdiction all documents incorporated by reference into the short form prospectus no later than the date of filing the preliminary short form prospectus.

2.2 Alternative Qualification Criteria – Issuers that are Not Listed (Sections 2.3, 2.4, 2.5 and 2.6 of NI 44-101) – Issuers that do not have equity securities listed and posted for trading on a short form eligible exchange in Canada may nonetheless be qualified to file a prospectus in the form of a short form prospectus under the following alternative qualification criteria of NI 44-101:

1. Section 2.3, which applies to issuers which are reporting issuers in at least one jurisdiction, and who are intending to issue non-convertible securities with a provisional approved rating.

2. Section 2.4, which applies to issuers of non-convertible debt securities, non-convertible preferred shares or non-convertible cash settled derivatives, if another person or company that satisfies prescribed criteria provides full and unconditional credit support for the payments to be made by the issuer of the securities.
3. Section 2.5, which applies to issuers of convertible debt securities or convertible preferred shares, if the securities are convertible into securities of a credit supporter that satisfies prescribed criteria and provides full and unconditional credit support for the payments to be made by the issuer of the securities.
4. Section 2.6, which applies to issuers of asset-backed securities.

Under sections 2.4, 2.5 and 2.6 of NI 44-101, an issuer is not required to be a reporting issuer in any jurisdiction in order to qualify to file a prospectus in the form of a short form prospectus. Section 2.3 requires the issuer to be a reporting issuer in at least one jurisdiction of Canada.

2.3 Alternative Qualification Criteria – Issuers of Guaranteed Debt Securities, Preferred Shares and Cash Settled Derivatives (Sections 2.4 and 2.5 of NI 44-101) – Sections 2.4 and 2.5 of NI 44-101 allow an issuer to qualify to file a prospectus in the form of a short form prospectus based on full and unconditional credit support, which may take the form of a guarantee or alternative credit support. The securities regulatory authorities are of the view that a person or company that provides the full and unconditional guarantee or alternative credit support is not, simply by providing that guarantee or alternative credit support, issuing a security.

2.4 Alternative Qualification Criteria – Issuers of Asset-Backed Securities (Section 2.6 of NI 44-101)

- (1) In order to be qualified to file a prospectus in the form of a short form prospectus under section 2.6 of NI 44-101, an issuer must have been established in connection with a distribution of asset-backed securities. Ordinarily, asset-backed securities are issued by special purpose issuers established for the sole purpose of purchasing financial assets with the proceeds of one or more distributions of these securities. This ensures that the credit and performance attributes of the asset-backed securities are dependent on the underlying financial assets, rather than upon concerns relating to ancillary business activities and their attendant risks. Qualification to file a prospectus in the form of a short form prospectus under section 2.6 of NI 44-101 has been limited to special purpose issuers to avoid the possibility that an otherwise ineligible issuer would structure securities falling within the definition of “asset-backed security”.
- (2) The qualification criteria for a distribution of asset-backed securities under a prospectus in the form of a short form prospectus are intended to provide sufficient flexibility to accommodate future developments. To qualify under

section 2.6 of NI 44-101, the securities to be distributed must satisfy the following two criteria:

1. First, the payment obligations on the securities must be serviced primarily by the cash flows of a pool of discrete liquidating assets such as accounts receivable, instalment sales contracts, leases or other assets that by their terms convert into cash within a specified or determinable period of time.
2. Second, the securities must (i) receive an approved rating on a provisional basis, (ii) not have been the subject of an announcement regarding a downgrade to a rating that is not an approved rating, and (iii) not have received a provisional or final rating lower than an approved rating from any approved rating organization.

The qualification criteria do not distinguish between pass-through (i.e., equity) and pay-through (i.e., debt) asset-backed securities. Consequently, both pay-through and pass-through securities, as well as residual or subordinate interests, may be distributed under a prospectus in the form of a short form prospectus if all other applicable requirements are met.

2.5 Timely and Periodic Disclosure Documents – To be qualified to file a short form prospectus under sections 2.2 and 2.3 of NI 44-101, an issuer must file with the securities regulatory authority in each jurisdiction in which it is a reporting issuer all periodic and timely disclosure documents that it is required to have filed in that jurisdiction under applicable securities legislation, pursuant to an order issued by the securities regulatory authority, or pursuant to an undertaking to the securities regulatory authority. Similarly, a credit supporter must satisfy this qualification criterion for an issuer to be qualified to file a short form prospectus under sections 2.4 and 2.5 of NI 44-101.

This qualification criterion applies to all disclosure documents including, if applicable, a disclosure document the issuer or credit supporter (i) has undertaken to file with a provincial or territorial securities regulatory authority, (ii) must file pursuant to a condition in a written order or decision granting exemptive relief to the issuer or credit supporter from a requirement to file periodic and timely disclosure documents, (iii) must file pursuant to a condition in securities legislation exempting the issuer or credit supporter from a requirement to file periodic and timely disclosure documents, and (iv) has represented that it will file pursuant to a representation in a written order or decision granting exemptive relief to the issuer or credit supporter from a requirement to file periodic and timely disclosure documents. These disclosure documents must be incorporated by reference into a short form prospectus pursuant to paragraph 9 or 10 of subsection 11.1(1) of Form 44-101F1.

2.6 Notice Declaring Intention – Subsection 2.8(1) of NI 44-101 provides that an issuer is not qualified to file a short form prospectus under Part 2 of NI 44-101 unless it has filed, with its notice regulator, a notice declaring its intention to be qualified to file a short form prospectus under NI 44-101. This notice must be filed in substantially the form of

Appendix A of NI 44-101 at least 10 business days prior to the issuer filing its first preliminary short form prospectus. This is a new requirement that came into effect on December 30, 2005. The securities regulatory authorities expect that this notice will be a one-time filing for issuers that intend to be participants in the short form prospectus distribution system established under NI 44-101. Subsection 2.8(2) provides that this notice is operative until withdrawn. Though the notice must be filed with the notice regulator, an issuer may voluntarily file the notice with any other securities regulatory authority or regulator of a jurisdiction of Canada.

Subsection 2.8(4) of NI 44-101 is a transitional provision that has the effect of deeming issuers that, as of December 29, 2005, have a current AIF under the pre-December 30, 2005 short form prospectus distribution system to have filed this notice and no additional filing is required to satisfy the notice requirements set out in subsection 2.8(1) of NI 44-101.

PART 3 FILING AND RECEIPTING OF SHORT FORM PROSPECTUS

- 3.1 Previously filed documents** – Sections 4.1 and 4.2 of NI 44-101 require the filing of specified documents that have not been previously filed. Issuers that are relying on previous filing of these specified documents are reminded that the documents should have been filed on the issuer's filer profile for SEDAR.
- 3.2 Confidential Material Change Reports** – Confidential material change reports cannot be incorporated by reference into a short form prospectus. Issuers should refer to section 3.2 of the Companion Policy to NI 44-101 for further guidance.

3.2.1 Personal Information Forms

- (1) If issuers are relying upon a previously delivered personal information form or predecessor personal information form pursuant to subsections 4.1(2) or 4.1(3) of NI 44-101, issuers are reminded of paragraphs 4.1(2)(b) and 4.1(3)(b), which require that the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements issuers should obtain appropriate confirmations from the individual concerned.
- (2) Paragraph 4.1(2)(c) of NI 44-101 requires that in certain circumstances an issuer deliver a copy of a previously delivered personal information form, or "alternative information that is satisfactory to the regulator". Our interpretation of what would potentially be alternative information that is satisfactory to the regulator is, with respect to the previous delivery of an individual's personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact issuers in cases where it is not. Issuers wishing to proceed in this manner should provide the information in the cover letter for the preliminary short form prospectus.

(3) If an issuer is delivering a copy of a previously delivered personal information form pursuant to paragraph 4.1(2)(c) of NI 44-101, the issuer should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered.

3.3 Supporting Documents – Issuers should refer to section 3.3 of the Companion Policy to NI 41-101.

3.4 Experts' Consent – Issuers are reminded that under section 10.1 of NI 41-101 an auditor's consent is required to be filed for audited financial statements that are included as part of other continuous disclosure filings that are incorporated by reference into a short form prospectus. For example, a separate auditor's consent is required for each set of audited financial statements that are included as part of a business acquisition report or an information circular incorporated by reference into a short form prospectus. Issuers should also refer to section 3.4 of the Companion Policy to NI 41-101 for further guidance.

3.4.1 Special meeting information circular – Subsection 11.1(3) of Form 44-101F1 sets out certain circumstances where an issuer is not required to incorporate by reference into its prospectus a report, valuation, statement or opinion of an expert that is indirectly incorporated by reference into its prospectus through the incorporation by reference of an information circular prepared for a special meeting of the issuer. A special meeting information circular often relates to a restructuring transaction of an issuer or other special business of the issuer. In these circumstances, the issuer or its board of directors may engage an expert to provide an opinion that is specific to the business that will be considered at the special meeting of securityholders. For example, the board may retain a person or company to provide a fairness opinion which would assist the board in determining whether to recommend the approval of the proposed transaction to its securityholders. Similarly, the issuer may include a tax opinion in the information circular to illustrate the tax consequences of the proposed transaction to its securityholders. Pursuant to subsection 11.1(3), we would not require the incorporation by reference of these particular opinions, provided that these opinions were prepared in respect of the specific transaction contemplated in the information circular and this transaction has been completed or abandoned prior to the filing of the prospectus.

3.5 Undertaking in Respect of Credit Supporter Disclosure – Under subparagraph 4.2(a)(ix) of NI 44-101, an issuer must file an undertaking to file the periodic and timely disclosure of a credit supporter. For credit supporters that are reporting issuers with a current AIF, the undertaking will likely be to continue to file the documents it is required to file under NI 51-102. For credit supporters registered under the 1934 Act, the undertaking will likely be to file the types of documents that would be required to be incorporated by reference into a Form S-3 or Form F-3 registration statement. For other credit supporters, the types of documents to be filed pursuant to the undertaking will be determined through discussions with the regulators on a case-by-case basis.

If an issuer, a parent credit supporter, and a subsidiary credit supporter satisfy the conditions of the exemption in section 13.3 of Form 44-101F1, an undertaking may provide that the subsidiary credit supporter will file periodic and timely disclosure if the issuer and the credit supporters no longer satisfy the conditions of the exemption in that section.

If an issuer and a credit supporter satisfy the conditions of the exemption in section 13.4 of Form 44-101F1, an undertaking may provide that the credit supporter will file periodic and timely disclosure if the issuer and the credit supporter no longer satisfy the conditions of the exemption in that section.

For the purposes of such an undertaking, references to disclosure included in the short form prospectus should be replaced with references to the issuer or parent credit supporter's continuous disclosure filings. For example, if an issuer and subsidiary credit supporter(s) plan to continue to satisfy the conditions of the exemption in section 13.4 of Form 44-101F1 for continuous disclosure filings, the undertaking should provide that the issuer will file with its consolidated financial statements,

- (a) a statement that the financial results of the credit supporter(s) are included in the consolidated financial results of the issuer if
 - (i) the issuer continues to have limited independent operations, and
 - (ii) the impact of any subsidiaries of the issuer on a combined basis, excluding the credit supporter(s) but including any subsidiaries of the credit supporter(s) that are not themselves credit supporters, on the consolidated financial statements of the issuer continues to be minor, or
- (b) for any periods covered by issuer's consolidated financial statements, consolidating summary financial information for the issuer presented in the format set out in subparagraph 13.4(e)(ii) of Form 44-101F1.

3.6 Amendments and Incorporation by Reference of Subsequently Filed Material Change Reports – The requirement in NI 41-101 and securities legislation for the filing of an amendment to a preliminary prospectus and prospectus is not satisfied by the incorporation by reference in a preliminary short form prospectus or a short form prospectus of a subsequently filed material change report. Issuers should refer to the Companion Policy to NI 41-101 for further guidance regarding amendments.

3.7 Short Form Prospectus Review – No target time frame applies to the review of a short form prospectus of an issuer if the issuer has not elected to use the process set out in NP 11-202.

3.8 Review time frames for “equity line” short form prospectuses – An issuer that is eligible to use the short form prospectus system may file a preliminary short form prospectus relating to the distribution of securities in connection with an “equity line”

financing. Under an equity line arrangement, the issuer typically enters into an agreement with one or more purchasers which provides that, over a certain term, the issuer may from time to time require the purchasers to subscribe for a certain number of securities of the issuer usually at a discount from the market price. Equity line financing raises a number of important policy issues relating to the appropriate treatment of such offerings under existing securities law. Accordingly, these prospectuses will generally be reviewed within the time periods applicable to a long form prospectus.

3.9 Registration Requirements – Issuers should refer to section 3.13 of the Companion Policy to NI 41-101 for further guidance.

3.10 No Minimum Offering Amount – Issuers distributing securities on a best efforts basis that have not specified a minimum offering amount in their prospectus, should refer to section 2.2.1 and subsection 4.3(3) of the Companion Policy to NI 41-101 for further guidance.

PART 4 CONTENT OF SHORT FORM PROSPECTUS

4.1 Prospectus Liability – Nothing in the short form prospectus regime established by NI 44-101 is intended to provide relief from liability arising under the provisions of securities legislation of any jurisdiction in which a short form prospectus is filed if the short form prospectus contains an untrue statement of a material fact or omits to state a material fact that is required to be stated therein or that is necessary to make a statement not misleading in light of the circumstances in which it was made.

4.2 Style of Short Form Prospectus – Securities legislation requires that a short form prospectus contain “full, true and plain” disclosure of the securities to be distributed. Issuers should apply plain language principles when they prepare a short form prospectus, including:

- using short sentences;
- using definite everyday language;
- using the active voice;
- avoiding superfluous words;
- organizing the document into clear, concise sections, paragraphs and sentences;
- avoiding jargon;
- using personal pronouns to speak directly to the reader;
- avoiding reliance on glossaries and defined terms unless it facilitates understanding of the disclosure;

- avoiding vague boilerplate wording;
- avoiding abstract terms by using more concrete terms or examples;
- avoiding multiple negatives;
- using technical terms only when necessary and explaining those terms;
- using charts, tables and examples where it makes disclosure easier to understand.

Question and answer and bullet point formats are consistent with the disclosure requirements of NI 44-101.

4.3 Pricing Disclosure

- (1) If the offering price or the number of securities being distributed, or an estimate of the range of the offering price or the number of securities being distributed, has been publicly disclosed in a jurisdiction or a foreign jurisdiction as of the date of the preliminary short form prospectus, section 1.7.1 of Form 44-101F1 requires the issuer to disclose that information in the preliminary short form prospectus. For example, if an issuer has previously disclosed this information in a public filing or a press release, in a foreign jurisdiction, the information must also be disclosed in the preliminary short form prospectus. If the issuer discloses this information in the preliminary short form prospectus, we will not consider a difference between this information and the actual offering price or number of securities being distributed to be, in itself, a material adverse change for which the issuer must file an amended preliminary short form prospectus.
- (2) No disclosure is required under section 1.7.1 of Form 44-101F1 if the offering price or size of the offering has not been disclosed as of the date of the preliminary short form prospectus. However, given the materiality of pricing or offering size information, subsequent disclosure of this information on a selective basis could constitute conduct that is prejudicial to the public interest.

4.4 Principal Purposes – Generally

- (1) Section 4.2 of Form 44-101F1 requires disclosure of each of the principal purposes for which the net proceeds will be used by an issuer. If an issuer has negative cash flow from operating activities in its most recently completed financial year for which financial statements have been included in the short form prospectus, the issuer should prominently disclose that fact in the use of proceeds section of the short form prospectus. The issuer should also disclose whether, and if so, to what extent, the proceeds of the distribution will be used to fund any anticipated negative cash flow from operating activities in future periods. An issuer should disclose negative cash flow from operating activities as a risk factor

under subsection 17.1(1) of Form 44-101F1 or section 5.2 in NI 51-102F2. For the purposes of this section, in determining cash flow from operating activities, the issuer must include cash payments related to dividends and borrowing costs.

- (2) For the purposes of the disclosure required under section 4.2 of Form 44-101F1, the phrase “for general corporate purposes” is not generally sufficient.

4.5 Distribution of Asset-backed Securities

Section 7.3 of Form 44-101F1 specifies additional disclosure that applies to distributions of asset-backed securities. Disclosure for a special purpose issuer of asset-backed securities will generally explain

- the nature, performance and servicing of the underlying pool of financial assets,
- the structure of the securities and dedicated cash flows, and
- any third party or internal support arrangements established to protect holders of the asset-backed securities from losses associated with non-performance of the financial assets or disruptions in payment.

The nature and extent of required disclosure may vary depending on the type and attributes of the underlying pool and the contractual arrangements through which holders of the asset-backed securities take their interest in such assets.

An issuer of asset-backed securities should consider these factors when preparing its short form prospectus:

- (a) The extent of disclosure respecting an issuer will depend on the extent of the issuer’s on-going involvement in the conversion of the assets comprising the pool to cash and the distribution of cash to securityholders; this involvement may, in turn, vary dramatically depending on the type, quality and attributes of the assets comprising the pool and on the overall structure of the transaction.
- (b) Requested disclosure respecting the business and affairs of the issuer should be interpreted to apply to the financial assets underlying the asset-backed securities.
- (c) Disclosure respecting the originator or the seller of the underlying financial assets will be relevant to investors in the asset-backed securities particularly in circumstances where the originator or seller has an on-going relationship with the financial assets comprising the pool. For example, if asset-backed securities are serviced with the cash flows from a revolving pool of receivables, an evaluation of the nature and reliability of the future origination or the future sales of underlying assets by the seller to or through the issuer may be a critical aspect of an investor’s investment decision.

To address this, the focus of disclosure respecting an originator or seller of the underlying financial assets should deal with whether there are current circumstances that indicate that the originator or seller will not generate adequate assets in the future to avoid an early liquidation of the pool and, correspondingly, an early payment of the asset-backed securities. Summary historical financial information respecting the originator or seller will ordinarily be adequate to satisfy the disclosure requirements applicable to the originator or seller in circumstances where the originator or seller has an ongoing relationship with the assets comprising the pool.

Subsection 7.3(5) of Form 44-101F1 requires issuers of asset-backed securities to describe any person or company who originated, sold or deposited a material portion of the financial assets comprising the pool, irrespective of whether the person or company has an on-going relationship with the assets comprising the pool. The securities regulatory authorities consider 33⅓% of the dollar value of the financial assets comprising the pool to be a material portion in this context.

4.6 Distribution of Derivatives – Section 7.4 of Form 44-101F1 specifies additional disclosure applicable to distributions of derivatives. This prescribed disclosure is formulated in general terms for issuers to customize appropriately in particular circumstances.

4.7 Underlying Securities – If securities being distributed are convertible into or exchangeable for other securities, or are a derivative of, or otherwise linked to, other securities, a description of the material attributes of the underlying securities would generally be necessary to meet the requirement of securities legislation that a prospectus contain full, true and plain disclosure of all material facts relating to the securities being distributed.

4.8 Restricted Securities – Section 7.7 of Form 44-101F1 specifies additional disclosure applicable to restricted securities, including a detailed description of any significant provisions under applicable corporate and securities law that do not apply to the holders of the restricted securities but do apply to the holders of another class of equity securities. An example of such provisions would be rights under takeover bids.

4.9 Recent and Proposed Acquisitions

- (1) Subsection 10.2(2) of Form 44-101F1 requires prescribed disclosure of a proposed acquisition that has progressed to a state “where a reasonable person would believe that the likelihood of the acquisition being completed is high” and that would, if completed on the date of the short form prospectus, be a significant acquisition for the purposes of Part 8 of NI 51-102. When interpreting the phrase “where a reasonable person would believe that the likelihood of the acquisition being completed is high”, it is our view that the following factors may be relevant in determining whether the likelihood of an acquisition being completed is high:

- (a) whether the acquisition has been publicly announced;
- (b) whether the acquisition is the subject of an executed agreement;
and
- (c) the nature of conditions to the completion of the acquisition
including any material third party consents required.

The test of whether a proposed acquisition “has progressed to a state where a reasonable person would believe that the likelihood of the acquisition being completed is high” is an objective, rather than subjective, test in that the question turns on what a “reasonable person” would believe. It is not sufficient for an officer of an issuer to determine that he or she personally believes that the likelihood of the acquisition being completed is or is not high. The officer must form an opinion as to what a reasonable person would believe in the circumstances. In the event of a dispute, an objective test requires an adjudicator to decide whether a reasonable person would believe in the circumstances that the likelihood of an acquisition being completed was high. By contrast, if the disclosure requirement involved a subjective test, the adjudicator would assess an individual’s credibility and decide whether the personal opinion of the individual as to whether the likelihood of the acquisition being completed was high was an honestly held opinion. Formulating the disclosure requirement using an objective test rather than a subjective test strengthens the basis upon which the regulator may object to an issuer’s application of the test in particular circumstances.

- (2) Subsection 10.2(3) of Form 44-101F1 requires inclusion of the financial statements or other information relating to certain acquisitions or proposed acquisitions if the inclusion of the financial statements or other information is necessary in order for the short form prospectus to contain full, true and plain disclosure of all material facts relating to the securities being distributed. We generally presume that the inclusion of financial statements or other information is required for all acquisitions that are, or would be, significant under Part 8 of NI 51-102. Issuers can rebut this presumption if they can provide evidence that the financial statements or other information are not required for full, true and plain disclosure.

Subsection 10.2(4) of Form 44-101F1 provides that issuers must satisfy the requirements of subsection 10.2(3) of Form 44-101F1 by including either:

- (i) the financial statements or other information that would be required by Part 8 of NI 51-102; or
- (ii) satisfactory alternative financial statements or other information.

Satisfactory alternative financial statements or other information may be provided to satisfy the requirements of subsection 10.2(3) when the financial statements or other information that would be required by Part 8 of NI 51-102 relate to a financial year ended within 90 days before the date of the prospectus or an interim period ended within 60 days before the date of the prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers. In these circumstances, we believe that satisfactory alternative financial statements or other information would not have to include any financial statements or other information for the acquisition or probable acquisition related to:

- (a) a financial year ended within 90 days before the date of the short form prospectus; or
- (b) an interim period ended within 60 days before the date of the short form prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers.

An example of satisfactory alternative financial statements or other information that we will generally find acceptable would be:

- (c) comparative annual financial statements or other information for the acquisition or probable acquisition for at least the number of financial years as would be required under Part 8 of NI 51-102 that ended more than 90 days before the date of the short form prospectus, audited for the most recently completed financial period in accordance with NI 52-107, and reviewed for the comparative period in accordance with section 4.3 of NI 44-101;
- (d) a comparative interim financial report or other information for the acquisition or probable acquisition for any interim period ended subsequent to the latest annual financial statements included in the short form prospectus and more than 60 days before the date of the short form prospectus for issuers that are venture issuers, and 45 days for issuers that are not venture issuers reviewed in accordance with section 4.3 of NI 44-101; and
- (e) pro forma financial statements or other information required under Part 8 of NI 51-102.

If the issuer intends to include financial statements as set out in the example above as satisfactory alternative financial statements or other information, we ask that this be highlighted in the cover letter to the prospectus. If the issuer does not intend to include financial statements or other information, or intends to file financial statements or other information that are different from those set out above, we encourage the utilization of pre-filing procedures.

- (3) When an issuer acquires a business or related businesses that has itself recently acquired another business or related businesses (an “indirect acquisition”), the issuer should consider whether prospectus disclosure about the indirect acquisition, including historical financial statements, is necessary to satisfy the requirement that the prospectus contain full, true and plain disclosure of all material facts relating to the securities being distributed. In making this determination, the issuer should consider the following factors:
- if the indirect acquisition would meet any of the significance tests in Part 8 of NI 51-102 when the issuer applies each of those tests to its proportionate interest in the indirect acquisition of the business; and
 - if the amount of time between the separate acquisitions is such that the effect of the first acquisition is not adequately reflected in the results of the business or related businesses the issuer is acquiring.
- (4) Subsection 10.2(3) discusses financial statements or other information for the completed or proposed acquisition of the business or related businesses. This “other information” is intended to capture the financial information disclosures required under Part 8 of NI 51-102 other than financial statements. An example of “other information” would include the operating statements, property descriptions, production volumes and reserves disclosures described under section 8.10 of NI 51-102.

4.10 Updated pro forma financial statements to date of prospectus – In addition to the pro forma financial statements for completed acquisitions that are required to be included in a business acquisition report incorporated by reference into a prospectus under Item 11 of Form 44-101F1, an issuer may include a set of pro forma financial statement prepared as at the date of the prospectus.

4.11 General Financial Statement Requirements – A reporting issuer is required under the applicable CD rule to file its annual financial statements and related MD&A 90 days after year end (or 120 days if the issuer is a *venture issuer* as defined in NI 51-102). Certain transition rules in the applicable CD rule apply to the first interim financial report required to be filed in the year of adopting IFRS in respect of an interim period beginning on or after January 1, 2011. Otherwise, an interim financial report and related MD&A must be filed 45 days after the last day of an interim period (or 60 days for a venture issuer). The financial statement requirements in NI 44-101 are based on these continuous disclosure reporting time frames and do not impose accelerated filing deadlines for a reporting issuer’s financial statements. However, to the extent an issuer has filed financial statements in advance of the deadline for doing so, those financial statements must be incorporated by reference in the short form prospectus. We are of the view that directors of an issuer should endeavor to consider and approve financial statements in a timely manner and should not delay the approval and filing of the financial statements for the purpose of avoiding their inclusion in a short form prospectus. Once the financial statements have been approved, they should be filed as soon as possible.

4.12 Credit Supporter Disclosure – In addition to the issuer’s documents required to be incorporated by reference under sections 11.1 and 11.2 of Form 44-101F1 and the issuer’s earnings coverage ratios required to be included under Item 6 of Form 44-101F1, a short form prospectus must include, under section 12.1 of Form 44-101F1, disclosure about any credit supporters that have provided a guarantee or alternative credit support for all or substantially all of the payments to be made under the securities being distributed. Accordingly, disclosure about a credit supporter may be required even if the credit supporter has not provided full and unconditional credit support.

4.13 Exemptions for Certain Issuers of Guaranteed Securities – Requiring disclosure about the issuer and any applicable credit supporters in a short form prospectus may result in unnecessary disclosure in some instances. Item 13 of Form 44-101F1 provides exemptions from the requirement to include both issuer and credit supporter disclosure where such disclosure is not necessary to ensure that the short form prospectus includes full, true and plain disclosure of all material facts concerning the securities to be distributed.

The exemptions in Item 13 of Form 44-101F1 are based on the principle that, in these instances, investors will generally require either issuer disclosure or credit supporter disclosure to make an informed investment decision. The exemptions set out in Item 13 of Form 44-101F1 are not intended to be comprehensive and issuers may apply for exemptive relief from the requirement to provide both issuer and credit supporter disclosure, as appropriate.

4.14 Previously Disclosed Material Forward-Looking Information – If an issuer, at the time it files a short form prospectus,

1. has previously disclosed to the public material forward-looking information for a period that is not yet complete;
2. is aware of events and circumstances that are reasonably likely to cause actual results to differ materially from the material forward-looking information; and
3. has not filed an MD&A with the securities regulatory authorities that discusses those events and circumstances and expected differences from the material forward-looking information, as required by section 5.8 of NI 51-102,

the issuer should discuss those events and circumstances, and the expected differences from the material forward-looking information, in the short form prospectus.

PART 5 CERTIFICATES

5.1 General – Issuers should refer to section 2.6 of the Companion Policy to NI 41-101.

PART 6 TRANSITION

- 6.1 Transition** – The amendments to NI 44-101 and this Policy which came into effect on January 1, 2011 only apply to a preliminary short form prospectus, an amendment to a preliminary short form prospectus, a final short form prospectus or an amendment to a final short form prospectus of an issuer which includes or incorporates by reference financial statements of the issuer in respect of periods relating to financial years beginning on or after January 1, 2011.

Change to Companion Policy 81-101CP to *National Instrument 81-101* *Mutual Fund Prospectus Disclosure*

- 1. The change to Companion Policy 81-101CP to National Instrument 81-101 Mutual Fund Prospectus Disclosure is set out in this schedule.***

- 2. The following section is added after section 2.5:***

“Personal Information Forms

- 2.5.1(1)** If mutual funds are relying upon a previously delivered personal information form or predecessor personal information form, mutual funds are reminded that the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements mutual funds should obtain appropriate confirmations from the individual concerned.
- (2)** Paragraphs 2.3(1.1)(c) and 2.3(2.1)(c) of the Instrument require that in certain circumstances a mutual fund deliver a copy of a previously delivered personal information form, or “alternative information that is satisfactory to the regulator”. Our interpretation of what would potentially be alternative information that is satisfactory to the regulator is, with respect to the previous delivery of an individual’s personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact mutual funds in cases where it is not. Mutual funds wishing to proceed in this manner should provide the information in the cover letter for the preliminary or pro forma simplified prospectus.
- (3)** If a mutual fund is delivering a copy of a previously delivered personal information form pursuant to paragraphs 2.3(1.1)(c) and 2.3(2.1)(c) of the instrument, the mutual fund should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered.”.

General Instructions

General

(1) This Form describes the disclosure that is required in an annual information form of a mutual fund. Each Item of this Form outlines disclosure requirements. Instructions to help you provide this disclosure are printed in italic type.

(2) Terms defined in National Instrument 81-101 Mutual Fund Prospectus Disclosure, National Instrument 81-102 Mutual Funds or National Instrument 81-105 Mutual Fund Sales Practices and used in this Form have the meanings that they have in those national instruments. However, subsection 1.3(3) of National Instrument 81-102 does not apply to this Form.

(3) An annual information form is intended to supplement the information contained in the related simplified prospectus. Information contained in the related simplified prospectus need not be repeated except as required to make the annual information form comprehensible as an independent document. Generally speaking, all of the disclosure required to be provided in connection with a particular requirement of Form 81-101F1 ("the SP Form") in order to satisfy statutory disclosure requirements should be contained in the simplified prospectus. For some Items, it may be appropriate to expand in the annual information form on matters discussed in the simplified prospectus; for instance, a mutual fund organization may wish to describe in an annual information form some of its optional services in more detail than in the simplified prospectus. Generally speaking, however, an annual information form is intended to provide disclosure about different matters than those discussed in the simplified prospectus, which may be of assistance or interest to some investors.

(4) Unless otherwise required by this Form, information may be presented in a different format and style in an annual information form than in a simplified prospectus. An annual information form is required by National Instrument 81-101 to be presented in a format that assists in readability and comprehension. This Form generally does not mandate the use of a specific format to achieve this goal and mutual funds are encouraged to use, as

appropriate, tables, captions, bullet points or other organizational techniques that assist in presenting the disclosure clearly.

(5) An annual information form may contain photographs and artwork only if they are relevant to the business of the mutual fund, mutual fund family or members of the organization of the mutual fund and are not misleading.

(6) As with a simplified prospectus, an annual information form is to be prepared using plain language. Reference should be made to Part 3 of Companion Policy 81-101CP for a discussion concerning plain language and presentation.

(7) Any footnotes provided for under any Item of this Form may be deleted if the substance of the footnotes is otherwise provided.

Contents of an Annual Information Form

(8) An annual information form pertains to one mutual fund but, unlike a simplified prospectus, is not required to be divided into a discrete Part A section, pertaining to general disclosure, and a Part B section, pertaining to fund-specific disclosure.

(9) It is not necessary to disclose the Items required by this Form in an annual information form in any particular order or under any particular heading. This is unlike the rule for a simplified prospectus, which provides that information contained in a simplified prospectus must be in the order and under the headings required by the SP Form.

Consolidation of Annual Information Forms into a Multiple AIF

(10) Section 5.4 of National Instrument 81-101 requires an annual information form to be consolidated with one or more other annual information forms into a multiple AIF if the related simplified prospectuses are consolidated into a multiple SP. As the Instrument does not prevent the consolidation of annual information forms even if the related simplified prospectuses are not consolidated, a mutual fund organization may prepare one multiple AIF that pertains to all of its mutual funds, even if the simplified prospectuses for those mutual funds are not fully or even partially consolidated.

(11) Unlike the situation with a multiple SP, National Instrument 81-101 does not permit parts of a multiple AIF to be bound separately.

(12) Unlike the requirements for a multiple SP, there are no requirements that disclosure concerning each mutual fund described in a multiple AIF be organized in any particular manner or order. In particular, it is not necessary to use the catalogue approach required to be used in a multiple SP in which disclosure about individual mutual funds is required to be separately presented. Information may be presented separately for each mutual fund, or consolidated, at the option of the mutual fund organization.

(13) *The requirements in this Form generally speak of "a mutual fund". These requirements apply to each mutual fund to which a multiple AIF pertains.*

Multi-Class Mutual Funds

(14) A mutual fund that has more than one class or series that are referable to the same portfolio may treat each class or series as a separate mutual fund for purposes of this Form, or may combine disclosure of one or more of the classes or series in one annual information form. If disclosure pertaining to more than one class or series is combined in one annual information form, separate disclosure in response to each Item in this Form must be provided for each class or series unless the responses would be identical for each class or series.

(15) As provided in National Instrument 81-102, a section, party, class or series of a class of securities of a mutual fund that is referable to a separate portfolio of assets is considered to be a separate mutual fund. Those principles are applicable to National Instrument 81-101 and this Form.

Part 1 — Purpose of the Companion Policy

1.1 Purpose of the Companion Policy — The purpose of this Companion Policy is to state the views of the Canadian Securities Administrators (CSA or we) on various matters relating to the Instrument, including,

- (a) a discussion of the general approach taken by the CSA in, and the general regulatory purpose for, the Instrument;
- (b) explanation and discussion of various parts of the Instrument; and
- (c) examples of some matters described in the Instrument.

Part 2 — Purpose and General Approach of the Instrument

2.1 Purpose of the Instrument — (1) The purpose of the Instrument is to ensure that the offering disclosure regime for mutual funds provides investors with disclosure documents that clearly and concisely state information that investors should consider in connection with an investment decision about the mutual fund, while recognizing that different investors have differing needs in receiving disclosure.

(2) The disclosure regime for mutual funds is built on two main principles:

- providing investors with key information about a mutual fund; and
- providing the information in a simple, accessible and comparable format.

(3) We use the following approaches in the Instrument to achieve the principles referred to in subsection (2):

1. The Instrument has been designed so that fund companies prepare offering disclosure documents that investors would find helpful in making investment decisions.

2. The Instrument contemplates the use of three disclosure documents by a mutual fund:

- a simplified prospectus;
- an annual information form; and
- a summary document called the 'fund facts', which contains key information about a mutual fund.

Together with the financial statements, the management reports of fund performance and other documents incorporated by reference, these documents contain full, true and plain disclosure about the mutual fund.

3. Subsection 4.1(1) of the Instrument requires that the simplified prospectus, annual information form and fund facts document be prepared using plain language and in a format that assists in readability and comprehension. The Instrument and related forms provide detailed requirements on the content and format of these documents.

(4) Mutual funds, managers and participants in the mutual fund industry should prepare disclosure documents and carry out delivery in a manner that is consistent with the spirit and intent of the Instrument.

2.1.1 Fund Facts Document — (1) The Instrument requires that the fund facts document be in plain language, be no longer than 4 pages in length, and highlight key information important to investors, including performance, risk and cost. The fund facts document is incorporated by reference into the simplified prospectus.

(2) The Instrument and Form 81-101F3 set out detailed requirements on the content and format of a fund facts document, while allowing some flexibility to accommodate different kinds of mutual funds. The requirements are designed to ensure that the information in a fund facts document of a mutual fund is clear, concise, understandable and easily comparable with information in the fund facts document of other mutual funds.

(3) To help write the fund facts document in plain language, mutual fund companies can use the Flesch-Kincaid methodology to assess the readability of a fund facts document. The Flesch-Kincaid grade level scale is a methodology that rates the readability of a text to a corresponding grade level and can be determined by the use of Flesch-Kincaid tests built into commonly used word processing programs. The CSA will generally consider a grade level of 6.0 or less on the Flesch-Kincaid grade level scale to indicate that a fund facts document is written in plain language. For French-language documents, mutual fund companies may wish to consider using other appropriate readability tools.

(4) Although the Instrument does not require delivery of the fund facts document, the CSA encourages the use and distribution of the fund facts document as a key part of the sales process in helping to inform investors about mutual funds they are considering for investment.

2.2 Simplified Prospectus — (1) The Instrument contemplates that all investors in a mutual fund will receive a simplified prospectus, which is designed to provide an investor with the necessary information to make an informed investment decision. The Instrument requires the delivery only of a simplified prospectus to an investor in connection with a purchase, unless the investor also requests delivery of the annual information form or any of the other documents incorporated by reference into the simplified prospectus, including the fund facts document.

(2) The Instrument and Form 81-101F1 set out detailed requirements on the content and format of a simplified prospectus. The requirements enable the information about a mutual fund to be clear, concise, understandable, well-organized and to easily compare one mutual fund with another.

2.3 Annual Information Form — (1) The Instrument requires that a supplemental disclosure document, the annual information form, be provided to any person on request. The annual information form is incorporated by reference into the simplified prospectus.

(2) Information contained in the related simplified prospectus will generally not be repeated in an annual information form except as necessary to make the annual information form comprehensible as an independent document. In general, an annual information form is intended to provide disclosure about different matters than those discussed in the fund facts document and simplified prospectus, such as information concerning the internal operations of the manager of the mutual fund, which may be of assistance or interest to some investors.

(3) The Instrument and Form 81-101F2 allow for more flexibility in the preparation of an annual information form than is the case with a simplified prospectus and fund facts document. The requirements for the order of disclosing information are less stringent for an annual information form than for a fund facts document or a simplified prospectus. An annual information form may include information not specifically required by Form 81-101F2.

2.4 Financial Statements and Management Reports of Fund Performance — The Instrument requires that the mutual fund's most recently audited financial statements, any interim statements filed after those audited statements, the mutual fund's most recently filed annual management report of fund performance and any interim management report of fund performance filed after that annual management report be provided upon request to any person or company requesting them. Like the fund facts document and the annual information form, these financial statements and management reports of fund performance are incorporated by reference into the simplified prospectus. The result is that future filings of these documents will be incorporated by reference into the simplified prospectus, while superseding the financial statements and management reports of fund performance previously filed.

2.5 Filing and Delivery of Documents — (1) Section 2.3 of the Instrument distinguishes between documents that are required by securities legislation to be "filed" with the securities regulatory authority or regulator and those that must be "delivered" or "sent" to the securities regulatory authority or regulator. Documents that are "filed" are on the public record. Documents that are "delivered" or "sent" are not necessarily on the public record. All documents required to be filed under the Instrument must be filed in accordance with National Instrument 13-101 *System for Electronic Document Analysis and Retrieval (SEDAR)*.

(2) Section 1.1 of the Instrument defines "business day" as any day other than a Saturday, Sunday or a statutory holiday. In some cases, a statutory holiday may only be a statutory holiday in one jurisdiction. The definition of business day should be applied in each local jurisdiction in which a prospectus is being filed. For example, section 5.1.2 of the Instrument states that the date of the certificate in a simplified prospectus must be within 3

business days before the filing of the simplified prospectus. The certificates in the simplified prospectus are dated Day 1. Day 2 is a statutory holiday in Québec but not in Alberta. If the simplified prospectus is filed in both Alberta and Québec, it must be filed no later than Day 4 in order to comply with the requirement in section 5.1.2 of the Instrument, despite the fact that Day 2 was not a business day in Québec. If the simplified prospectus is filed only in Québec, it could be filed on Day 5.

2.5.1 Personal Information Forms — (1) If mutual funds are relying upon a previously delivered personal information form or predecessor personal information form, mutual funds are reminded that the responses to certain questions in the form must still be correct. Accordingly, in order to meet these requirements mutual funds should obtain appropriate confirmations from the individual concerned.

(2) Paragraphs 2.3(1.1)(c) and 2.3(2.1)(c) of the Instrument require that in certain circumstances a mutual fund deliver a copy of a previously delivered personal information form, or “satisfactory alternative information”. Our interpretation of what would potentially be “satisfactory alternative information” is, with respect to the previous delivery of an individual’s personal information form, the System for Electronic Document Analysis and Retrieval (SEDAR) project number and name of issuer. In most cases this information will be sufficient. Staff will contact mutual funds in cases where it is not. Mutual funds wishing to proceed in this manner should provide the information in the cover letter for the preliminary or pro forma simplified prospectus.

(3) If a mutual fund is delivering a copy of a previously delivered personal information form pursuant to paragraphs 2.3(1.1)(c) and 2.3(2.1)(c) of the instrument, the mutual fund should deliver it as a personal information form on SEDAR, in the same way that a new personal information form would be delivered

2.6 (1) [Repealed]

(2) Subsection 2.3(6) of the Instrument permits certain material contracts to be filed with certain commercial or financial information deleted in order to keep this information confidential. For example, specific fees and expenses and non-competition clauses could be kept confidential under this provision. In these cases, the benefits of disclosing the information to the public are outweighed by the potentially adverse consequences to mutual fund managers and portfolio advisers. However, the basic terms of these agreements must be included in the contracts that are filed, such as provisions relating to the term and termination of the agreements and the rights and responsibilities of the parties to the agreements.

2.7 Amendments — (1) Paragraph 2.1(1)(d) of the Instrument requires an amendment to an annual information form to be filed whenever an amendment to a simplified prospectus is filed. Similarly, subsection 2.3(5.1) of the Instrument requires an amendment to an annual information form to be filed whenever an amendment to a fund facts document is filed. If the substance of the amendment to the fund facts document or to the simplified prospectus would not require a change to the text of the annual information form, the amendment to

the annual information form would consist only of the certificate page referring to the mutual fund to which the amendment to the fund facts document or the simplified prospectus pertains.

(2) Paragraph 2.1(1)(e) of the Instrument requires a mutual fund to file an amendment to a fund facts document when a material change to the mutual fund occurs that requires a change to the disclosure in the fund facts document. This mirrors the requirement in paragraph 11.2(1)(d) of National Instrument 81-106 Investment Fund Continuous Disclosure. We would not generally consider changes to the top 10 investments, investment mix or year-by-year returns of the mutual fund to be material changes. We would generally consider changes to the mutual fund's investment objective or risk level to be material changes under securities legislation.

(3) A commercial copy of an amended and restated simplified prospectus and annual information form can be created by reprinting the entire document or by putting stickers on an existing document that provide the new text created by the amendment. If stickers are used, one sticker will be required for the substance of the amendments and a separate sticker will be required for the cover page of the document that describes the type and date of the document, as applicable.

(4) Subsection 2.2(4) of the Instrument requires that any amendment to a fund facts document can only take the form of an amended and restated fund facts document. Accordingly, the commercial copy of an amended and restated fund facts document can only be created by reprinting the entire document.

(5) The requirements in section 2.2 of the Instrument apply to an amendment to a full simplified prospectus and to an amendment only to a Part A or Part B section of a simplified prospectus in cases where the Part A and Part B sections are bound separately. Section 2.2 of the Instrument requires amendments to various parts of a multiple SP to be evidenced as follows:

1. Multiple SP with Part A and the Part B sections bound together. An amendment to either or both of the Part A or Part B sections could be in the form of a free standing amending instrument that would be delivered to investors with the rest of the multiple SP. The amending instrument would be identified, in accordance with subsection 2.2(3) of the Instrument, as "Amendment No. [insert number], dated [date of amendment] to the simplified prospectus document for the [name of funds] dated [date of original document]". Or, the amendment could be in the form of a restated and amended multiple SP document, identified as such in accordance with subsection 2.2(3).

2. Multiple SP with Part A and the Part B sections bound separately. If there is an amendment to the Part A section of the document but not to a Part B section, the amendment could be in the form of an amending document or an amended and restated Part A document. An amending document could be identified as "Amendment No. [insert number], dated [date of amendment], to the Part A section of the simplified prospectuses of the [name of funds] dated [original date of multiple SP]", and the amended and restated

Part A document could be identified as "Amended and Restated Simplified Prospectuses dated [date of amendment] of the [name of funds], amending and restating the Simplified Prospectuses dated [original date of document].".

3. In the circumstances described in paragraph 2 above, no amendment is required to be made to the Part B sections of the multiple SP. The footer that is required by Item 1 of Part B of Form 81-101F1 to be on the bottom of each page of a Part B section will continue to show the date of the original Part A document. For this reason, the amended Part A document must be identified in a way that shows the date of the amendments and the original date of the document so that investors know that it relates to the corresponding Part B sections.

4. If there is an amendment to a Part B section of a multiple SP with Part A and Part B sections bound separately the amendment must be made by way of an amended and restated Part B document, whether or not an amendment is being made to the Part A section. If no amendment to the Part A section is being made, no amendment is required to the Part A document. The amended and restated Part B document will include a statement in the footer required by Item 1 of Part B of Form 81-101F1 that identifies the document as a document that amends and restates the original Part B document.

(6) Subsection 2.2(4) of the Instrument requires an amendment to a fund facts document to be in the form of an amended and restated fund facts document. An amended fund facts document does not have to be otherwise identified, except for the date of the amendment.

(7) An amendment to a prospectus of a mutual fund, even if it amends and restates the prospectus, does not change the date under Canadian securities legislation by which the mutual fund must renew the prospectus. That date, which is commonly referred to as the "lapse date" for the prospectus, remains that date established under securities legislation. An amendment to a fund facts document will also not change the lapse date for a prospectus.

(8) Securities legislation says that a person or company must not distribute securities, unless a preliminary prospectus and a prospectus have been filed and receipts have been issued by the securities regulatory authority or regulator. This requirement also applies to mutual funds. If a mutual fund adds a new class or series of securities to a simplified prospectus that is referable to a new separate portfolio of assets, a preliminary simplified prospectus must be filed, together with a preliminary annual information form and preliminary fund facts document. However, if the new class or series of securities is referable to an existing portfolio of assets, the new class or series may be added by an amendment to the simplified prospectus. In this case, a preliminary fund facts document for the new class or series must still be filed, as set out in subparagraph 2.1(1)(d)(iii) of the Instrument.

2.8 Websites — Section 2.3.1 of the Instrument requires a mutual fund to post its fund facts document to the website of the mutual fund, the mutual fund's family or the manager of the mutual fund, as applicable. A fund facts document should remain on the website at least

until the next fund facts document for the mutual fund is posted. A fund facts document must be displayed in an easily visible and accessible location on the website. It should also be presented in a format that is convenient for both reading online and printing on paper.

Part 3 — Plain Language and Presentation

3.1 Plain Language — Subsection 4.1(1) of the Instrument requires that a simplified prospectus, annual information form and fund facts document be written in plain language. The reason for using "plain language" is to communicate in a way that the audience could immediately understand what you tell them. The plain language approach focuses on the needs and abilities of the audience to ensure that the content of a communication is relevant, the organization of the information is logical, the language is appropriate and the presentation is visually appealing.

Mutual funds should consider the following plain language techniques in preparing their documents:

- Organize the document into clear, concise sections, paragraphs and sentences.
- Use:
 - common everyday words
 - technical, legal and business terms only when unavoidable and provide clear and concise explanations for them
 - the active voice
 - short sentences and paragraphs
 - a conversational and personal tone
 - examples and illustrations to explain abstract concepts.
- Avoid:
 - superfluous words
 - unnecessary technical, legal and business jargon
 - vague boilerplate wording
 - glossaries and defined terms unless they aid in understanding the disclosure
 - abstractions by using more concrete terms or examples

- excessive detail
- multiple negatives.

3.2 Presentation — (1) Subsection 4.1(1) of the Instrument requires that a simplified prospectus, annual information form and fund facts document be presented in a format that assists in readability and comprehension. The Instrument and related forms also set out certain aspects of a simplified prospectus, annual information form and fund facts document that must be presented in a required format, requiring some information to be presented in the form of tables, charts or diagrams. Within these requirements, mutual funds have flexibility in the format used for simplified prospectuses, annual information forms and fund facts documents.

The formatting of documents can contribute substantially to the ease with which the document can be read and understood. Mutual funds should consider using the following formatting ideas when preparing their documents:

- reasonably-sized, easy-to-read typefaces
- headings that are clearly differentiated from the body text
- bulleted or numbered lists
- margins, boxes or shading to highlight information or for supplementary information
- tables, graphs and diagrams for complex information
- "question and answer" format to organize information
- sufficient white space on each page
- images, colour, lines and other graphical elements
- avoiding the use of upper-case, bold, italic or underlining in blocks of text
- avoiding full-justified margins.

(2) We think documents would be easier to read and understand with the use of the design features set out in subsection (1). The use of logos and pictures that accurately depict aspects of the mutual fund industry, the mutual fund or mutual fund family or products and services offered by the mutual fund family may also aid in comprehension and readability. However we think that an excessive use or crowding of design features might make the documents more difficult to read or understand.

(3) On occasion, we have seen amendments to simplified prospectuses prepared in highly legal and technical styles. For example, some amendments merely reference specific lines

or sections of a simplified prospectus that are being amended, without providing the reader with a restated section or an explanation for the changes. In addition, some amendments have been presented in the form of photocopies of some other documents, such as meeting materials, with the word "amendment" written on the top of the photocopy. We think that these approaches are inappropriate ways of amending a simplified prospectus or annual information form under the Instrument.

Material changes to mutual funds must be described in a format that assists in readability and comprehension, as required by subsection 4.1(1) of the Instrument. Amendments should be expressed clearly, and in a manner that enables the reader to easily read and understand both the amendment and the revised sections of the relevant document. This manner of expression may require the preparation of either an amended and restated simplified prospectus or annual information form or a clearly worded amendment insert for the existing simplified prospectus or annual information form. Any amendment to a fund facts document must be in the form of an amended and restated fund facts document.

Part 4 — The Multiple SP

4.1 General Provisions Relating to a Multiple SP — (1) A consolidated "simplified prospectus" pertaining to a number of mutual funds is in law a number of separate simplified prospectuses, one simplified prospectus for each mutual fund. Further, a receipt issued by the securities regulatory authority or regulator in connection with a consolidated "simplified prospectus" in law represents a separate receipt for the simplified prospectus pertaining to each mutual fund. The Instrument and Form 81-101F1 make clear that a simplified prospectus under the Instrument pertains to one mutual fund and use the term "multiple SP" to refer to a document that contains more than one simplified prospectus.

(2) Under the Instrument, a simplified prospectus consists of two sections: a Part A section, which provides introductory information about the mutual fund, general information about mutual funds and information applicable to the mutual funds managed by the mutual fund organization, and a Part B section, which contains specific information about the mutual fund.

(3) The Instrument states that simplified prospectuses must not be consolidated to form a multiple SP unless the Part A section of each simplified prospectus is substantially similar. We think the term "substantially similar" would be applicable in this context if there is a high degree of similarity among the Part A sections of the simplified prospectuses that are proposed to be consolidated. This option would be available generally to mutual funds in the same mutual fund family that are administered by the same entities and operated in the same manner. There may be some deviation between the disclosure that would be provided for some of the mutual funds; those deviations have been largely contemplated by Form 81-101F1.

(4) In order to maximize flexibility for mutual fund organizations and improve the accessibility of disclosure provided to investors, the Instrument allows the Part B sections of a multiple SP to be bound separately from the Part A section. In addition, the Instrument

permits the physical separation of each Part B section that pertains to a different mutual fund. This would permit an investor to be provided with a Part A section that described the mutual fund family and mutual fund organization generally, and only the mutual fund-specific disclosure that relates to the mutual fund or mutual funds in which the investor is interested. This approach could permit a "back pocket" approach in which the Part B sections of a simplified prospectus could be inserted in a pocket of the Part A section of the document.

(5) The Instrument contains no restrictions on how many simplified prospectuses can be consolidated into a multiple SP.

4.2 Adding Additional Funds to a Multiple SP — (1) Mutual funds may create and file a document that contains both a pro forma simplified prospectus and a preliminary simplified prospectus in order to include the disclosure of a new mutual fund in documents that already pertain to existing mutual funds.

(2) A new mutual fund may be added to a multiple SP that contains final simplified prospectuses. In this case, an amended multiple SP and multiple AIF containing disclosure of the new mutual fund, as well as a new fund facts document for each class or series of the new mutual fund would be filed. The preliminary filing would constitute the filing of a preliminary simplified prospectus, annual information form and fund facts document for the new mutual fund, and a draft amended and restated simplified prospectus and annual information form for each existing mutual fund. The final filing of documents would include a simplified prospectus, annual information form and fund facts document for the new mutual fund, and an amended and restated simplified prospectus and annual information form for each previously existing mutual fund. An amendment to an existing fund facts document would generally not be necessary.

(3) An amendment to a prospectus of a mutual fund does not change the "lapse date" of the prospectus under Canadian securities legislation. Mutual funds are encouraged to pay particular attention to this issue when following the procedures described in subsection (2).

Part 4.1 — The Fund Facts Document

4.1.1 General Purposes — The general purposes of the offering disclosure regime for mutual funds and of the fund facts document are described in section 2.1 of this Policy. This Part provides guidance to preparers of the fund facts document in meeting those purposes.

A sample fund facts document is set out in Appendix A to this Policy. The sample is provided for illustrative purposes only.

4.1.2 Multiple Class Mutual Funds — The purpose for the requirements on the content and format of a fund facts document is to give investors the opportunity to easily compare the key information of one mutual fund to another. For many mutual funds, the class or series may affect not only the management expense ratio and performance, but a number of other

considerations as well, such as minimum investment amounts, distributions, suitability, dealer compensation and sales charge options. For this reason, the Instrument requires a fund facts document to be prepared for each class and each series of a mutual fund that is referable to the same portfolio of assets.

4.1.3 Filings — (1) Section 2.1 of the Instrument requires that a fund facts document for each class and series of the securities of a mutual fund be filed concurrently with the mutual fund's simplified prospectus and annual information form.

(2) The most recently filed fund facts document for a mutual fund is incorporated by reference into the simplified prospectus under section 3.1 of the Instrument, with the result that any fund facts document filed under the Instrument after the date of receipt for the simplified prospectus supersedes the fund facts document previously filed.

(3) Section 2.3.2 of the Instrument requires a fund facts document filed under Part 2 of the Instrument to be posted by the mutual fund to the website of the mutual fund, the mutual fund's family or the manager of the mutual fund. Only a final fund facts document filed under the Instrument should be posted to a website. A preliminary or pro forma fund facts document, for example, should not be posted.

4.1.4 Additional Information — Paragraph 4.1(3)(d) of the Instrument requires a fund facts document to include only information that is specifically mandated or permitted by the required Form 81-101F3.

4.1.5 Format — The Instrument requires a mutual fund to use the headings and sub-headings stipulated in the Instrument and Form 81-101F3.

Part 5 — The Simplified Prospectus

5.1 General Purposes — The general purposes of a simplified prospectus are described in section 2.1 of this Policy. This Part provides guidance to preparers of simplified prospectuses in meeting those purposes.

5.2 Catalogue Approach — The Instrument requires that a multiple SP must present the fund-specific, or Part B, disclosure about each fund using a catalogue approach. That is, the disclosure about each mutual fund must be presented separately from the disclosure about each other mutual fund.

5.2.1 Accessibility of a Simplified Prospectus — Mutual funds, managers, and dealers should encourage investors who want more information about a mutual fund to request and read the simplified prospectus and any of the documents incorporated by reference into the simplified prospectus. The Instrument requires that a simplified prospectus or any of the documents incorporated by reference be sent within three business days of a request.

5.3 Additional Information — (1) Paragraph 4.1(2)(a) of the Instrument provides that a simplified prospectus must provide all information briefly and concisely. Paragraph

4.1(2)(e) of the Instrument requires that a simplified prospectus must include only educational material or information that is specifically mandated or permitted by Form 81-101F1.

(3) Item 12 of Part A and Item 14 of Part B of Form 81-101F1 permit disclosure of information required or permitted by securities legislation or by an order or ruling of the securities regulatory authority pertaining to the mutual fund that is not otherwise required to be disclosed by Form 81-101F1. This addition has been made to ensure that such information is not technically prohibited from being included in a simplified prospectus by paragraph 4.1(2)(e) of the Instrument. Instruction (1) to Item 12 of Part A of Form 81-101F1 contains examples of the type of disclosure that may be appropriately included under these Items.

5.4 Inclusion of Educational Material — (1) Paragraph 4.1(2)(e) of the Instrument permits educational material to be included in a simplified prospectus. There are no requirements on the location of any educational material. However, the CSA thinks that educational material will be more useful if placed close to mandated disclosure to which it substantively relates.

(2) Educational material contained in a simplified prospectus is subject to the general requirements of the Instrument and should be presented in a manner consistent with the rest of the simplified prospectus. That is, the educational material should be concise, clear and not detract from the clarity or presentation of the information in the simplified prospectus.

(3) The definition of "educational material" contained in section 1.1 of the Instrument excludes material that promotes a particular mutual fund or mutual fund family, or the products or services offered by the mutual fund or mutual fund family. A mutual fund, mutual fund family or those products or services may be referred to in educational material as an example if the reference does not promote those entities, products or services. Mutual funds should ensure that any material included within, attached to or bound with a simplified prospectus is educational material within the meaning of this definition.

5.5 Format — A simplified prospectus must use the headings and specified sub-headings exactly as they are set out in the Instrument. If no sub-headings are specified, a simplified prospectus may include additional sub-headings under the required headings.

Part 6 — The Annual Information Form

6.1 General Purposes — The general purposes of an annual information form are described in section 2.1 of this Policy. This Part provides guidance to preparers of annual information forms in meeting those purposes.

6.2 [Repealed]

6.3 Consolidation of Annual Information Forms — Subsection 5.4(1) of the Instrument requires the consolidation of annual information forms into a multiple AIF if the related

simplified prospectuses are consolidated into a multiple SP. It is noted that the Instrument does not prevent the consolidation of annual information forms even if the related simplified prospectuses are not consolidated. Therefore, a mutual fund organization may prepare, for instance, one multiple AIF that pertains to all of its mutual funds, even if the simplified prospectuses for those mutual funds are not fully or even partially consolidated.

6.4 Additional Material — (1) The Instrument and AIF Form do not prohibit the inclusion in an annual information form of information not specifically required by the AIF Form. Among other things, a mutual fund may therefore include educational information in an annual information form. Additional material in an annual information form is, however, subject to the general requirements contained in subsection 4.1(1) of the Instrument that all information must be presented in plain language and in a format that assists in readability and comprehension.

(2) If a mutual fund includes additional information, such as educational material, in an annual information form, that material should not be included primarily for purpose of promotion. An annual information form is designed to be easily understandable to investors and less legalistic in its drafting than traditional prospectuses, but it still constitutes part of a prospectus under securities legislation.

Part 7 — Delivery

7.1 Delivery of the Simplified Prospectus and Annual Information Form — (1) The Instrument contemplates delivery to all investors of a simplified prospectus in accordance with the requirements in securities legislation. It does not require the delivery of the documents incorporated by reference into the simplified prospectus unless requested. However, the CSA encourages mutual funds and dealers to adopt the practice of also routinely providing investors or potential investors with the fund facts document. Mutual funds or dealers may also provide investors with any of the other documents incorporated by reference into the prospectus.

(2) The CSA encourage mutual funds, managers, and dealers to make disclosure documents, particularly the fund facts document, available to potential investors as soon as possible in the sales process, in advance of any requirements contained in the Instrument or securities legislation, either directly or through dealers and others involved in selling mutual fund securities to investors.

(2.1) Nothing in the Instrument prevents the simplified prospectus, annual information form or fund facts document from being prepared in other languages, provided that these documents are delivered or sent in addition to any disclosure document filed and required to be delivered in accordance with the Instrument. We would consider such documents to be sales communications.

(3) We do not consider the requirements of section 3.4 of the Instrument to be exclusive. Mutual funds and managers of mutual funds are encouraged to inform investors about using their websites and e-mail addresses to request further information and additional

documents.

7.1.1 Electronic Delivery — (1) A simplified prospectus, or any document incorporated by reference into the simplified prospectus, that is required to be delivered or sent under the Instrument may be delivered or sent by means of electronic delivery. Electronic delivery may include sending an electronic copy of the relevant document directly to the investor as an attachment or link, or directing the investor to the specific document on a website.

(2) In addition to the requirements in the Instrument and the guidance in this section, mutual funds, managers and dealers may want to refer to National Policy 11-201 *Delivery of Documents by Electronic Means* and, in Québec, *Notice 11-201 relating to the Delivery of Documents by Electronic Means* for additional guidance.

7.2 Delivery of Documents by a Mutual Fund — Section 3.3 of the Instrument requires that a mutual fund deliver or send to a person or company, upon request, a simplified prospectus or documents incorporated by reference. The CSA are of the view that compliance with this specifically-mandated requirement by an unregistered entity is not a breach of the registration requirements of securities legislation.

7.3 Delivery of Separate Part A and Part B Sections — (1) Mutual fund organizations that create physically separate Part B sections are reminded of section 3.2 of the Instrument, which provides that the requirement under securities legislation to deliver or send a prospectus for a mutual fund is satisfied by the delivery or sending of a simplified prospectus for the mutual fund. This obligation would be satisfied only by the delivery of both the Part A and Part B sections of a simplified prospectus. Particularly in the case of a switch by an investor from one mutual fund to another in a mutual fund family, the mutual fund organization must ensure that the investor is provided with the Part B section of the simplified prospectus pertaining to the mutual fund just purchased, even if the Part A section of the simplified prospectus was previously delivered.

(2) Subsection 5.3(2) of the Instrument permits Part B sections that have been bound separately from the related Part A section to either be bound individually or together, at the option of the mutual fund organization. There is no prohibition against the same Part B section of a multiple SP being bound by itself for distribution to some investors, but also being bound with the Part B section of other mutual funds for distribution to other investors.

7.4 Delivery of Non-Educational Material — The Instrument and related forms contain no restrictions on the delivery of non-educational material such as promotional brochures with either of the simplified prospectus and annual information form. This type of material may, therefore, be delivered with, but cannot be included within, wrapped around, or attached or bound to, the simplified prospectus or annual information form.

Part 8 — Commentary on Investment and Related Disclosure

8.1 Investment Disclosure — Form 81-101F1 requires detailed disclosure concerning a

number of aspects of the investment approach taken by a mutual fund, including disclosure concerning fundamental investment objectives, investment strategies, risk and risk management. Form 81-101F3 also contains a summarized form of this disclosure. For many mutual funds, the best persons to prepare and review the disclosure would be the portfolio advisers of the mutual fund and we think mutual funds should generally involve them in preparing and reviewing this disclosure.

8.2 Portfolio Advisers — Form 81-101F2 requires disclosure concerning the extent to which investment decisions are made by particular individuals employed by a portfolio adviser or by committee. Section 10.3(3)(b) requires certain information about the individuals principally responsible for the investment portfolio of the mutual fund. Part 11 of National Instrument 81-106 *Investment Fund Continuous Disclosure* requires a simplified prospectus to be amended if a material change occurs in the affairs of the mutual fund that results in a change to the disclosure in the simplified prospectus and fund facts document. Section 7.1 of Companion Policy 81-106CP *Investment Fund Continuous Disclosure* discusses when a departure of a high-profile individual from a portfolio adviser of a mutual fund may constitute a material change for the mutual fund. If the departure is not a material change for the mutual fund, there is no requirement to amend a simplified prospectus, as long as the simplified prospectus contains full, true and plain disclosure about the mutual fund.

Part 9 — Need for Multiple or Separate Applications

9.1 Need for Multiple or Separate Applications — (1) The CSA note that a person or company that obtains an exemption from a provision of the Instrument need not apply again for the same exemption at the time of each simplified prospectus, annual information form and fund facts document refiling, unless there has been some change in an important fact relating to the granting of the exemption.

(2) The principle described in subsection (1) does not necessarily apply to applications required to be made under the Regulations to the *Securities Act* (Quebec) for relief from provisions of those Regulations that are substantially similar to those contained in the Instrument. In that case, an application may be required with each refiling of a simplified prospectus, annual information form and funds document of a mutual fund.

(3) In Quebec, it may be necessary to apply for exemptions from the equivalent sections in the Act and the Regulations.

Part 10 — Exemptions

10.1 Applications Involving Novel or Substantive Issues — Section 6.2 of the Instrument allows exemptive relief from form and content requirements for a simplified prospectus, an annual information or a fund facts document to be evidenced by way of issuance of a receipt. In cases where the CSA thinks that an application for exemptive relief raises novel and substantive issues, or raises a novel policy concern, the CSA may request that such applications follow the process set out in National Policy 11-203 *Process for Exemptive*

Relief Applications in Multiple Jurisdictions. This will likely be the case for applications seeking exemptive relief from the form and content requirements of the fund facts document.

⚠ Don't buy this fund if you need a steady source of income from your investment.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund.

The fees and expenses are different for each series. Ask about other series that may be suitable for you.

1. Sales charges

You have to choose a sales charge option when you buy the fund. Ask about the pros and cons of each option.

Sales charge option	What you pay		How it works
	in per cent (%)	in dollars (\$)	
Initial sales charge	0% to 4% of the amount you buy	\$0 to \$40 on every \$1,000 you buy	• You and your adviser decide on the rate. • The initial sales charge is deducted from the amount you buy. It goes to your investment firm as a commission.
Deferred sales charge	If you sell within: 1 year of buying 6.0% 2 years of buying 5.0% 3 years of buying 4.0% 4 years of buying 3.0% 5 years of buying 2.0% 6 years of buying 1.0% After 6 years nothing	\$0 to \$60 on every \$1,000 you sell	• The deferred sales charge is a set rate. It is deducted from the amount you sell. • When you buy the fund, XYZ Mutual Funds pays your investment firm a commission of 4.9%. Any deferred sales charge you pay goes to XYZ Mutual Funds. • You can sell up to 10% of your units each year without paying a deferred sales charge. • You can switch to Series A units of other XYZ Mutual Funds at any time without paying a deferred sales charge. The deferred sales charge schedule will be based on the date you bought the first fund.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns.

As of March 31, 20XX, the fund's expenses were 2.30% of its value. This equals \$23 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER)	
This is the total of the fund's management fee and operating expenses. XYZ Mutual Funds waived some of the fund's expenses. If it had not done so, the MER would have been higher.	2.25%
Trading expense ratio (TER)	
These are the fund's trading costs.	0.05%
Fund expenses	2.30%

Trailing commission

XYZ Mutual Funds pays your investment firm a trailing commission for as long as you own the fund. It is for the services and advice your investment firm provides to you. Investment firms may pay part of the trailing commission to their representatives.

The trailing commission is paid out of the management fee. The rate depends on the sales charge option you choose:

- **Initial sales charge** – up to 1.0% of the value of your investment each year. This equals \$10 each year for every \$1,000 invested.
- **Deferred sales charge** – up to 0.50% of the value of your investment each year. This equals \$5 each year for \$1,000 invested.

3. Other fees

You may have to pay other fees when you sell or switch units of the fund.

Fee	What you pay
Short-term trading fee	1% of the value of units you sell or switch within 90 days of buying them. This fee goes to the fund.
Switch fee	Your investment firm may charge you up to 2% of the value of units you switch to another XYZ Mutual Fund.
Change fee	Your investment firm may charge you up to 2% of the value of units you switch to another series of the fund.

What if I change my mind?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

- (3) A person or company must not rely on a receipt as evidence of an exemption if the regulator or securities regulatory authority has before, or concurrently with, the issuance of the receipt for the prospectus, sent notice to the person or company that the issuance of a receipt does not evidence the granting of the exemption.
- (4) For the purpose of this section, a reference to a prospectus does not include a preliminary prospectus.

5.3 Financial Years ending between December 21 and 31, 2010 — Despite subsections 3.1(2) and 4.1(2), Part 3 may be applied by an issuer or registrant to all financial statements, financial information, operating statements and *pro forma* financial statements for periods relating to a financial year that begins before January 1, 2011 if the immediately preceding financial year ends no earlier than December 21, 2010.

5.4 Rate-Regulated Activities —

- (1) Despite subsections 3.1(2) and 4.1(2),
 - (a) Part 3 may be applied by a qualifying entity to all financial statements, financial information, operating statements and *pro*

forma financial statements as if the expression “January 1, 2011” in subsection 3.1(2) were read as “January 1, 2012”, and

- (b) if the qualifying entity relies on paragraph (a) in respect of a period, Part 4 must be applied as if the expression “January 1, 2011” in subsection 4.1(2) were read as “January 1, 2012”.
- (2) For the purposes of subsection (1), a “qualifying entity” means a person or company that
- (a) has activities subject to rate regulation, as defined in Part V of the Handbook, and
 - (b) is permitted under Canadian GAAP to apply Part V of the Handbook.

PART 6: REPEAL, TRANSITION AND EFFECTIVE DATE

6.1 Repeal — National Instrument 52-107 *Acceptable Accounting Principles, Auditing Standards and Reporting Currency*, which came into force on March 30, 2004, is repealed.

6.2 Effective Date — This Instrument comes into force on January 1, 2011.

6.3 Existing Exemptions — A person or company that has obtained an exemption from National Instrument 52-107 *Acceptable Accounting Principles, Auditing Standards and Reporting Currency*, in whole or in part, is exempt from any substantially similar provision of this Instrument to the same extent and on the same conditions, if any, as contained in the exemption, unless the regulator or securities regulatory authority has revoked that exemption.

Companion Policy 52-107CP ***Acceptable Accounting Principles and Auditing Standards***

PART I: INTRODUCTION AND DEFINITIONS

1.1 Introduction and Purpose — This Companion Policy provides information about how the securities regulatory authorities interpret or apply National Instrument 52-107 *Acceptable Accounting Principles and Auditing Standards* (the Instrument). The Instrument is linked closely with the application of other national instruments, including National Instrument 51-102 *Continuous Disclosure Obligations* (NI 51-102) and National Instrument 71-102 *Continuous Disclosure and Other Exemptions Relating to Foreign Issuers* (NI 71-102). These and other national instruments also contain a number of references to International Financial Reporting Standards (IFRS) and the requirements in the Handbook of the Canadian Institute of Chartered Accountants (the Handbook). Full definitions of IFRS and the Handbook are provided in National Instrument 14-101 *Definitions*.

The Instrument does not apply to investment funds. National Instrument 81-106 *Investment Fund Continuous Disclosure* applies to investment funds.

1.2 Multijurisdictional Disclosure System — National Instrument 71-101 *The Multijurisdictional Disclosure System* (NI 71-101) permits certain U.S. incorporated issuers to satisfy Canadian disclosure filing obligations, including financial statements, by using disclosure documents prepared in accordance with U.S. federal securities laws. The Instrument does not replace or alter NI 71-101. There are instances in which NI 71-101 and the Instrument offer similar relief to a reporting issuer. There are other instances in which the relief differs. If both NI 71-101 and the Instrument are available to a reporting issuer, the issuer should consider both instruments. It may choose to rely on the less onerous instrument in a given situation.

1.3 Calculation of Voting Securities Owned by Residents of Canada — The definition of “foreign issuer” is based upon the definition of foreign private issuer in Rule 405 of the 1933 Act and Rule 3b-4 of the 1934 Act. For the purposes of the definition of “foreign issuer”, in determining the outstanding voting securities that are beneficially owned by residents of Canada, an issuer should

- (a) use reasonable efforts to identify securities held by a broker, dealer, bank, trust company or nominee or any of them for the accounts of customers resident in Canada,
- (b) count securities beneficially owned by residents of Canada as reported on reports of beneficial ownership, including insider reports and early warning reports, and

(c) assume that a customer is a resident of the jurisdiction or foreign jurisdiction in which the nominee has its principal place of business if, after reasonable inquiry, information regarding the jurisdiction or foreign jurisdiction of residence of the customer is unavailable.

This method of calculation differs from that in NI 71-101 which only requires a calculation based on the address of record. Some SEC foreign issuers may therefore qualify for exemptive relief under NI 71-101 but not under the Instrument.

1.4 Exemptions Evidenced by the Issuance of a Receipt — Section 5.2 of the Instrument states that an exemption from any of the requirements of the Instrument pertaining to financial statements or auditor's reports included in a prospectus may be evidenced by the issuance of a receipt for that prospectus. Issuers should not assume that the relief evidenced by the receipt will also apply to financial statements or auditors' reports filed in satisfaction of continuous disclosure obligations or included in any other filing.

1.5 Filed or Delivered — Financial statements that are filed in a jurisdiction will be made available for public inspection in that jurisdiction, subject to the provisions of securities legislation in the local jurisdiction regarding confidentiality of filed material. Material that is delivered to a regulator, but not filed, is not required under securities legislation to be made available for public inspection. However, the regulator may choose to make such material available for inspection by the public.

1.6 Other Legal Requirements — Issuers and auditors should refer to National Instrument 52-108 *Auditor Oversight* for requirements relating to auditor oversight by the Canadian Public Accountability Board. In addition, issuers and registrants are reminded that they and their auditors may be subject to requirements under the laws and professional standards of a jurisdiction that address matters similar to those addressed by the Instrument, and which may impose additional or more onerous requirements. For example, applicable corporate law may prescribe the accounting principles or auditing standards required for financial statements. Similarly, applicable federal, provincial or state law may impose licensing requirements on an auditor practising public accounting in certain jurisdictions.

PART 2: APPLICATION - ACCOUNTING PRINCIPLES

2.1 Application of Part 3 — Part 3 of the Instrument generally applies to periods relating to financial years beginning on or after January 1, 2011. Part 3 refers to Canadian GAAP applicable to publicly accountable enterprises, which is IFRS incorporated into the Handbook, contained in Part I of the Handbook.

2.2 Application of Part 4 — Part 4 of the Instrument generally applies to periods relating to financial years beginning before January 1, 2011. Part 4 refers to Canadian GAAP-Part V, which is generally accepted accounting principles determined with reference to Part V of the Handbook applicable to public enterprises. These are the pre-changeover accounting standards for public companies. Part V of the Handbook has differing requirements for public enterprises and non-public enterprises. The following are some of the significant differences in Canadian GAAP applicable to public enterprises compared to those applicable to non-public enterprises:

- (a) financial statements for public enterprises cannot be prepared using the differential reporting options as set out in Part V of the Handbook;
- (b) transition provisions applicable to enterprises other than public enterprises are not available; and
- (c) financial statements must include any additional disclosure requirements applicable to public enterprises.

2.3 IFRS in English and French — The Handbook provides IFRS in English and French. Both versions have equal status and effect under Canadian GAAP. Issuers, auditors, and other market participants may use either version to comply with the requirements in the Instrument.

2.4 Reference to accounting principles — Section 3.2 of the Instrument requires certain financial statements to be prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises. This section includes requirements for an unreserved statement of compliance with IFRS in annual financial statements, and an unreserved statement of compliance with International Accounting Standard 34 *Interim Financial Reporting* in interim financial reports. These provisions distinguish between the basis of preparation and disclosure requirements.

There are two options for referring to accounting principles in the applicable financial statements and, in the case of annual financial statements, accompanying auditor's reports referred to in section 3.3 of the Instrument:

- (a) refer only to IFRS in the notes to the financial statements and in the auditor's report, or
- (b) refer to both IFRS and Canadian GAAP in the notes to the financial statements and in the auditor's report.

2.5 IFRS as adopted by the IASB — The definition of IFRS in National Instrument 14-101 *Definitions* refers to standards and interpretations adopted by the International Accounting Standards Board. The definition does not extend to national accounting standards that are modified or adapted from IFRS, sometimes referred to as a "jurisdictional" version of IFRS.

2.6 Presentation and functional currencies — If financial statements comply with requirements contained in IFRS in International Accounting Standard 1 *Presentation of Financial Statements* and International Accounting Standard 21 *The Effects of Changes in Foreign Exchange Rates* relating to the disclosure of presentation currency and functional currency, then they will comply with section 3.5 of the Instrument.

2.7 Registrants' financial statements and interim financial information — Subsections 3.2(3) and (4) and paragraphs 3.15(a) and (b) of the Instrument mandate accounting for any investments in subsidiaries, jointly controlled entities and associates as specified for separate

financial statements in International Accounting Standard 27 *Consolidated and Separate Financial Statements* (IAS 27). Separate financial statements are sometimes referred to as non-consolidated financial statements. These requirements apply regardless of whether a registrant meets the criteria set out in IAS 27 for not presenting consolidated financial statements. Paragraph 3.2(3)(b) also requires a registrant's annual financial statements to describe the financial reporting framework used to prepare the financial statements. The description should refer to the requirement to account for any investments in subsidiaries, jointly controlled entities and associates as specified for separate financial statements in IAS 27, even if the registrant does not have these types of investments. In addition, if annual financial statements for a year beginning in 2011 are prepared using the financial reporting framework permitted by subsection 3.2(4), the description of the framework should explain the lack of comparatives and the date of transition, as specified in paragraphs 3.2(4)(b) and (c).

The financial reporting frameworks prescribed by subsections 3.2(3) and (4) are Canadian GAAP applicable to publicly accountable enterprises with specified differences. Although these frameworks differ in specified ways from IFRS, the exceptions and exemptions included as Appendices in IFRS 1 *First-time Adoption of International Financial Reporting Standards* (IFRS 1) would be relevant for determining an opening statement of financial position at the date of transition to the financial reporting framework prescribed in subsection 3.2(3) or (4).

Subparagraph 3.3(1)(a)(iii) requires an auditor's report in the form specified by Canadian GAAS for an audit of financial statements prepared in accordance with a fair presentation framework. The financial reporting frameworks prescribed by subsections 3.2(3) and (4) are fair presentation frameworks.

Subsection 3.2(4) of the Instrument allows a registrant to file financial statements and interim financial information for periods relating to a financial year beginning in 2011 that exclude comparative information relating to the preceding year and to use a date of transition to the financial reporting framework that is the first day of the financial year beginning in 2011. When such a registrant prepares the comparative information for financial statements and interim financial information for periods relating to a financial year beginning in 2012, the registrant should consider whether it must adjust the comparative information in order to comply with subsection 3.2(3). Adjustments may be necessary if a registrant changes one or more accounting policies for its year beginning in 2012 compared to its year beginning in 2011.

2.8 Use of different accounting principles — Subsection 3.2(5) of the Instrument requires financial statements to be prepared in accordance with the same accounting principles for all periods presented in the financial statements.

An issuer that is required to file, or include in a document that is filed, financial statements for three years can, except in the situation discussed in section 2.9 of this Companion Policy, choose to present two sets of financial statements. For example, if the earliest of the three financial years relates to a financial year beginning before January 1, 2010, the issuer should provide one set of financial statements that presents information for the most recent two years using the accounting principles in Part 3 of the Instrument and one set of financial statements that either:

- (a) presents information for a third and fourth year using the accounting principles in Part 4, or
- (b) presents information for a second and third year using the accounting principles in Part 4.

Note that under option (a), a fourth year not otherwise required would be included to satisfy the requirement in the issuer's GAAP for comparative financial statements. Under option (b), information for a second year would be presented in both sets of financial statements. This second year would be included in the most recent set of financial statements using accounting principles in Part 3 of the Instrument and also in the earliest set of financial statements using accounting principles in Part 4 of the Instrument.

If the accounting principles used for the earliest of the three financial years and the most recent two years differ, but both are acceptable in Part 3 of the Instrument, presentation of information for the earliest year would be similar to the example described above.

2.9 Date of transition to IFRS if financial statements include a transition year of less than nine months – Subsection 4.8(6) of NI 51-102 states that if a transition year is less than nine months in length, the reporting issuer must include comparative financial information for the transition year and old financial year in its financial statements for its new financial year. Similarly, subsection 32.2(4) in Form 41-101F1 states that if an issuer changed its financial year end during any of the financial years referred to in section 32.2 and the transition year is less than nine months, the transition year is deemed not to be a financial year for purposes of the requirement to provide financial statements for a specified number of financial years in section 32.2.

If an issuer's first set of annual financial statements with an unreserved statement of compliance with IFRS includes comparatives for both a transition year of less than nine months and the old financial year, the date of transition to IFRS should be the first day of the old financial year. Since subsection 3.2(5) of the Instrument requires financial statements to be prepared in accordance with the same accounting principles for all periods presented in the financial statements, a date of transition to IFRS using the first day of the transition year would not be appropriate.

2.10 Acceptable Accounting Principles — Readers are likely to assume that financial information disclosed in a news release is prepared on a basis consistent with the accounting principles used to prepare the issuer's most recently filed financial statements. To avoid misleading readers, an issuer should alert readers if financial information in a news release is prepared using accounting principles that differ from those used to prepare an issuer's most recently filed financial statements or includes non-GAAP financial measures discussed in CSA Staff Notice 52-306 *Non-GAAP Financial Measures*.

2.11 Financial statements for a reverse takeover or capital pool company acquisition – Subsection 8.1(2) of NI 51-102 states that Part 8 of that rule does not apply to a transaction that is a reverse takeover. Similarly, subsection 35.1(1) in Form 41-101F1 indicates that item 35 of

that Form does not apply to a completed or proposed transaction that was or will be accounted for as a reverse takeover. Therefore, if a document includes financial statements for a reverse takeover acquirer, as defined in NI 51-102, for a period prior to completion of the reverse takeover, section 3.11 of the Instrument does not apply to the financial statements. Such financial statements must comply with section 3.2, 3.7, 3.9, 4.2, 4.7 or 4.9 of the Instrument as applicable.

Paragraph 32.1(b) of Form 41-101F1 indicates that financial statements of an issuer required under Item 32 of that Form include the financial statements of a business acquired or business proposed to be acquired by the issuer if a reasonable investor would regard the primary business of the issuer upon completion of the acquisition to be the acquired business or business proposed to be acquired. Consistent with this provision, if a capital pool company acquires or proposes to acquire a business, regardless of whether or not the transaction will be accounted for as a reverse takeover, financial statements for the acquired business or business proposed to be acquired must comply with section 3.2, 3.7, 3.9, 4.2, 4.7 or 4.9 of the Instrument as applicable.

2.12 Acquisition statements prepared using Canadian GAAP applicable to private enterprises – Paragraph 3.11(1)(f) of the Instrument permits acquisition statements to be prepared using Canadian GAAP applicable to private enterprises, which is Canadian accounting standards for private enterprises in Part II of the Handbook.

2.13 Conditions for acquisition statements prepared using Canadian GAAP applicable to private enterprises — Paragraph 3.11(1)(f) of the Instrument specifies certain conditions for the use of Canadian GAAP applicable to private enterprises. One of these conditions, in subparagraph 3.11(1)(f)(ii), is that financial statements for the business were not previously prepared in accordance with any of the accounting principles specified in paragraphs 3.11(1)(a) through (e) for the periods presented in the acquisition statements. Paragraph 3.11(1)(a) refers to Canadian GAAP applicable to publicly accountable enterprises, which is IFRS incorporated into the Handbook contained in Part I of the Handbook. The condition in subparagraph 3.11(1)(f)(ii) does not preclude Canadian GAAP - Part V, as defined in section 4.1 of the Instrument.

2.14 Acquisition statements prepared using Canadian GAAP applicable to private enterprises that include a reconciliation to the issuer's GAAP – If acquisition statements included in a document filed by an issuer that is not a venture issuer and not an IPO venture issuer are prepared using Canadian GAAP applicable to private enterprises, the reconciliation requirement in subparagraph 3.11(1)(f)(iv) applies.

For each difference presented in the quantified reconciliation that relates to measurement, clause 3.11(1)(f)(iv)(C) requires disclosure and discussion of the material inputs or assumptions underlying the measurement of the relevant amount computed in accordance with the issuer's GAAP, consistent with the disclosure requirements of the issuer's GAAP. If the relevant amount was measured using a valuation technique, disclose the valuation technique, and disclose and discuss the inputs used. If changing one or more of the inputs to reasonably possible alternative assumptions would change the measurement significantly, a discussion of that fact and the effect of the changes on the measurement would facilitate readers' understanding of the measurement.

Clause 3.11(1)(f)(iv)(C) does not require disclosure and discussion of all the disclosure elements identified in the issuer's GAAP that relate to a difference presented in the reconciliation. As well, the clause does not require disclosure of information not required by the issuer's GAAP.

As an example of the disclosure required by clause 3.11(1)(f)(iv)(C), if the issuer's GAAP is IFRS and the relevant amount is share based payments measured using an option pricing model, disclose the option pricing model used and the inputs used in the model (i.e., weighted average share price, exercise price, expected volatility, option life, expected dividends, risk-free interest rate and any other inputs to the model). Also, discuss how expected volatility was determined and how any other features of the option grant (e.g., market condition) were incorporated into the measurement of the relevant amount.

~~If acquisition statements are carve-out statements prepared in accordance with Canadian GAAP for private enterprises, as discussed in section 2.18 of this Companion Policy, subparagraph 3.11(6)(d)(iii) requires reconciliation information for non-venture issuers similar to that required by subparagraph 3.11(1)(f)(iv). The above guidance on subparagraph 3.11(1)(f)(iv) also applies to subparagraph 3.11(6)(d)(iii).~~

2.15 Acquisition statements prepared using Canadian GAAP applicable to private enterprises that include a reconciliation to IFRS – If the reconciliation requirement in subparagraph 3.11(1)(f)(iv) applies, and the issuer's GAAP requires the annual financial statements to include an explicit and unreserved statement of compliance with IFRS, the reconciliation information in annual and interim acquisition statements must address material differences between Canadian GAAP applicable to private enterprises and IFRS that relate to recognition, measurement and presentation.

Consistent with IFRS requirements, for the purpose of preparing the reconciliation information required by subparagraph 3.11(1)(f)(iv), the date of transition to IFRS would be the first day of the earliest period for which comparative information is presented in the annual acquisition statements. For example, if annual acquisition statements present information for the most recently completed financial year and the comparative year, the date of transition to IFRS would be the first day of the comparative year.

Also consistent with IFRS, for the purpose of preparing the reconciliation, IFRS 1 would be applied to determine the opening IFRS statement of financial position at the date of transition to IFRS. The exceptions and exemptions included as Appendices in IFRS 1 would be relevant for determining the entity's statement of financial position at the date of transition to IFRS.

The opening IFRS statement of financial position is the starting point for identifying material differences from Canadian GAAP applicable to private enterprises. Although an opening IFRS statement of financial position must be prepared in order to prepare the information required by subparagraph 3.11(1)(f)(iv), that subparagraph does not require disclosure of the opening IFRS statement of financial position. Similarly, that subparagraph does not require disclosure of differences relating to equity as at the date of transition to IFRS.

As discussed in section 2.14 of this Companion Policy, clause 3.11(1)(f)(iv)(C) does not require disclosure and discussion of all the disclosure elements identified in the issuer's GAAP that relate to a difference presented in the reconciliation. Therefore, it would be inappropriate to include an explicit and unreserved statement of compliance with IFRS in acquisition statements that include reconciliation information for material differences between Canadian GAAP applicable to private enterprises and IFRS.

2.16 Acquisition statements prepared using Canadian GAAP applicable to private enterprises that do not include a reconciliation to the issuer's GAAP – If acquisition statements included in a document filed by a venture issuer or IPO venture issuer are prepared using Canadian GAAP applicable to private enterprises, the reconciliation requirements in subparagraph 3.11(1)(f)(iv) do not apply. However, subsection 3.14(1) requires *pro forma* financial statements to be prepared using accounting policies that are permitted by the issuer's GAAP and would apply to the information presented in the *pro forma* financial statements if that information were included in the issuer's financial statements for the same time. Companion Policy 51-102CP *Continuous Disclosure Obligations* provides further guidance on preparation of *pro forma* financial statements in this circumstance.

2.17 Acquisition statements, predecessor statements, or primary business statements that are an operating statement – ~~Subsection~~In the case of acquisition statements that are an operating statement, subsection 3.11(5) requires the line items in ~~an~~the operating statement to be prepared in accordance with accounting policies that comply with the accounting policies permitted by one of Canadian GAAP applicable to publicly accountable enterprises, IFRS, U.S. GAAP, or Canadian GAAP applicable to private enterprises. ~~For the purpose of preparing the operating statement, the exceptions and exemptions included as Appendices in IFRS 1 would be relevant for determining the opening statement of financial position at the date of transition to IFRS.~~ **2.18 Acquisition statements that are carve-out financial statements** – ~~Subsection 3.11(6) specifies the financial reporting framework required for acquisition statements that are based on information from the financial records of another entity whose operations included the acquired business or the business to be acquired, and there are no separate financial records for the business. Such financial statements are commonly referred to as "carve-out" financial statements. Subsection 3.11(6) requires carve-out financial statements~~In the case of predecessor statements or primary business statements that are an operating statement, section 3.17 requires the line items in the operating statement to be prepared in accordance with ~~one of accounting policies that comply with the accounting policies permitted by one of:~~ Canadian GAAP applicable to publicly accountable enterprises, ~~IFRS, U.S. GAAP, or Canadian GAAP applicable to private enterprises, and in each case include specified line items. For carve-out financial statements prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises~~U.S. GAAP if the issuer is an SEC issuer or SEC foreign issuer, or IFRS if the issuer is a foreign issuer. ~~For the purpose of preparing an operating statement,~~ the exceptions and exemptions included as Appendices in IFRS 1 would be relevant for determining the opening statement of financial position at the date of transition to IFRS.

2.18 Acquisition statements, predecessor statements, or primary business statements that are carve-out financial statements - Acquisition statements, predecessor statements or primary business statements may be based on information from the financial records of another entity

whose operations included the acquired business, the business to be acquired, the predecessor entity or primary business. In some cases, there are no separate financial records for the business. Such financial statements, which are commonly referred to as carve-out financial statements, should generally include:

- (a) all assets and liabilities directly attributable to the business;
- (b) all revenue and expenses directly attributable to the business;
- (c) if there are expenses for the business that are common expenses shared with the other entity, a portion of those expenses allocated on a reasonable basis to the business;
- (d) income and capital taxes calculated as if the business had been a separate legal entity and had filed a separate tax return for the period presented; and
- (e) a description of the method of allocation for each significant line item presented in financial statements.

2.19 Preparation of *pro forma* financial statements when there is a change in accounting principles – Subsection 3.14(1) requires *pro forma* financial statements to be prepared using accounting policies that are permitted by the issuer's GAAP and would apply to the information presented in the *pro forma* financial statements if that information were included in the issuer's financial statement for the same period as that of the *pro forma* financial statements. If the accounting principles used to prepare an issuer's most recent annual financial statements differ from the accounting principles used to prepare the issuer's interim financial report for a subsequent period, subsection 3.14(3) provides an issuer the option of preparing its annual *pro forma* income statement using accounting policies that are permitted by the accounting principles used to prepare the interim financial report and would apply to the information presented in the *pro forma* income statement if that information were included in the interim financial report. In this case, the annual *pro forma* income statement should include adjustments to the amounts reported in the issuer's most recent statement of comprehensive income in order to restate the amounts on the basis of the accounting principles used to prepare the issuer's interim financial report. The *pro forma* income statement should present such adjustments separate from other adjustments relating to significant acquisitions.

If an issuer does not use the option provided by subsection 3.14(3), in order to avoid confusion, it would be appropriate to present the issuer's annual and interim *pro forma* financial statements as separate sets of *pro forma* financial statements.

2.20 Reconciliation requirements for an SEC issuer – If financial statements of an SEC issuer, other than acquisition statements, filed with or delivered to a securities regulatory authority or regulator are

- (a) for a financial year beginning before January 1, 2011,

- (b) prepared in accordance with U.S. GAAP, and
- (c) the SEC issuer previously filed or included in a prospectus financial statements prepared in accordance with Canadian GAAP – Part V,

then subsection 4.7(1) applies. Subsection 4.7(1) requires the notes of the first two sets of the SEC issuer's annual financial statements, and interim financial report during those first two years, to provide reconciling information between Canadian GAAP – Part V and U.S. GAAP that complies with subparagraphs 4.7(1)(a)(i) to (iii).

If an SEC issuer's second set of annual financial statements after a change in accounting principles is for a financial year beginning after January 1, 2011, the reconciliation requirements in subsection 4.7(1) no longer apply. Financial statements for a financial year beginning after January 1, 2011 are required to be prepared in accordance with Part 3 of the Instrument, which does not include any reconciliation requirements when an SEC issuer changes its accounting principles.

PART 3: APPLICATION - AUDITING STANDARDS

3.1 Auditor's Expertise — The securities legislation in most jurisdictions prohibits a regulator or securities regulatory authority from issuing a receipt for a prospectus if it appears to the regulator or securities regulatory authority that a person or company who has prepared any part of the prospectus or is named as having prepared or certified a report used in connection with a prospectus is not acceptable.

3.2 Canadian Auditors for Canadian GAAP and GAAS Financial Statements — A Canadian auditor is a person or company that is authorized to sign an auditor's report by the laws, and that meets the professional standards, of a jurisdiction of Canada. We would normally expect issuers and registrants incorporated or organized under the laws of Canada or a jurisdiction of Canada, and any other issuer or registrant that is not a foreign issuer nor a foreign registrant, to engage a Canadian auditor to audit the issuer's or registrant's financial statements if those statements are prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises and will be audited in accordance with Canadian GAAS unless a valid business reason exists to use a non-Canadian auditor. A valid business reason would include a situation where the principal operations of the company and the essential books and records required for the audit are located outside of Canada.

3.3 Auditor Oversight — In addition to the requirements in sections 3.4 and 4.4 of the Instrument, National Instrument 52-108 *Auditor Oversight* also contains certain requirements related to auditors and auditor reports.

3.4 Modification of opinion — Part 5 of the Instrument permits the regulator or securities regulatory authority to grant exemptive relief from the Instrument, including the requirement that an auditor's report express an unmodified opinion. A modification of opinion includes a qualification of opinion, an adverse opinion, and a disclaimer of opinion. However, staff will

generally recommend that relief not be granted if the modification of opinion or other similar communication is:

- (a) due to a departure from accounting principles permitted by the Instrument, or
- (b) due to a limitation in the scope of the auditor's examination that
 - (i) results in the auditor being unable to form an opinion on the financial statements as a whole,
 - (ii) is imposed or could reasonably be eliminated by management, or
 - (iii) could reasonably be expected to be recurring.

3.5 Identification of the financial reporting framework used to prepare an operating statement ~~or carve-out financial statements~~—Paragraph Paragraphs 3.12(2)(e) ~~requires~~and 3.18(2)(e) require an auditor's report to identify the financial reporting framework used to prepare an operating statement ~~or carve-out financial statements~~—as addressed in ~~subsections~~subsection 3.11(5) and ~~(6)~~section 3.17. To comply with this requirement, the auditor's report may identify the applicable requirement in the Instrument, and refer the reader's attention to the note in the operating statement ~~or carve-out financial statements~~ that describes the financial reporting framework.
